“To be the Food Basket of Southern Africa and the Tourism Destination of Choice”

LEGISLATION

The development, implementation and monitoring of the Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA). In terms of Circular 13 of National Treasury, “the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA.”

The SDBIP provides the basis for measuring performance in service delivery against quarterly targets and implementing the budget based on monthly projections. Circular 13 further suggests that “the SDBIP provides the vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager, Senior Managers and community.”

The purpose of the SDBIP is to monitor the execution of the IDP and budget, performance of senior management and achievement of the strategic objectives with the Key Performance Indicators set by Council in the IDP. It enables the Municipal Manager to monitor the performance of Senior Managers, the Mayor to monitor the performance of the Municipal Manager, and for the community to monitor the performance of the municipality.

According to the Municipal Finance Act (MFMA) the definition of a SDBIP is: ‘a detailed plan approved by the Mayor of a municipality in terms of section 53

(1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget, and which must
(2) indicate-

(a) projections for each month of-

(i) revenue to be collected, by source; and

(ii) operational and capital expenditure, by vote;

(b) Service delivery targets and performance indicators for each quarter’

Section 53 of the MFMA stipulates that the Mayor should approve the SDBIP within 28 days after the approval of the budget. The Executive Mayor must also ensure that the revenue and expenditure projections for each month and the service delivery targets and performance indicators as set out in the SDBIP are made public within 14 days after their approval.

The following National Treasury prescriptions, in terms of MFMA Circular 13, as minimum requirements that must form part of the SDBIP are applicable to the Mopani District Municipality:

1. Monthly projections of revenue to be collected by source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote¹
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Detailed capital works plan over three years

1. METHODOLOGY AND CONTENT

The methodology followed by the municipality in the development of the SDBIP is in line with the Logic Model methodology proposed by National Treasury as contained in the Framework for Managing Programme Performance Information [1](FMPPi) that was published in May 2007. The accompanying figure as an extract from the FMPPi is hereby indicated.

The Logic Model was followed whereby desired impacts were identified for each strategic objective with measurements and targets contributing to the achievement of those impacts. This was followed by the identification of programmes and associated outcomes and measurements and targets contributing to the achievement of those outcomes

	100	60	40	60%
Overall % = 60%				
The 40% under performance was due to poor revenue collection (municipalities not transferring as per the WSP agreement), Audit committee resolutions not being resolved. Delay in appointing service. The municipality spent a low of 47% on MIG. This has a negative impact on budget allocated for service delivery, which may lead to the conditional grant being re-allocated and reduced for the municipality. In terms of Governance, the municipality have outstanding disciplinary cases that are not resolved and date back to the three financial years. Implementation of resolutions is still a challenge.
