1. Purpose

The purpose of this report is to give feedback regarding the non-financial performance of Mopani District Municipality. It is in compliance with section 46 of the Municipal Systems Act No 32 of 2000. The information contained within this report will be used to populate the quarterly report. Section 46 of the Municipal Systems Act requires the following from municipalities to report on in the quarterly and annual performance report:

- ▶ Performance of the municipality and each external service provider¹
 - Quarterly and annual performance against quarterly and annual targets as per the SDBIP is reported on. The SDBIP contains the objectives and indicators as per the Municipal IDP as well as nationally prescribed General indicators². The SDBIP³ for 15/16 was developed to reflect *cumulative performance*, therefore the status of indicators are a reflection of the overall performance level achieved year to date.
- **>** Comparison of performance against set targets and performance in previous financial year
 - Calculations to calculate the variance between actual quarterly performance and baseline (previous financial year) performance are included for each KPI.
 - Comparisons of performance against quarterly targets are highlighted in the form of colours based on scores which were calculated using an automated system adapted to comply with the Mopani District Municipality's performance management requirements. The scoring method utilised is in line with the assessment rating calculator prescribed by the Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Municipal Managers, Regulation 805 of 2006. An explanation is as per the table below:
