PROPOSED REVISED ANNUAL REPORT TEMPLATE

The purpose of this revised Annual Report template is to address the need expressed by a number of municipalities for assistance in the preparation and development of improved content and quality of Municipal Annual Reports. It replaces a template dating back to August 2003.

This template gives effect to the legal framework requirement, concepts and principals espoused in the White Paper on Local Government and Improving Government Performance. It reflects the ethos of public accountability. The content gives effect to information required for better monitoring and evaluation of government programmes in support of policy decision making. The template provides an improved overview of municipal affairs by combining the performance report data required under Municipal Systems Act Section 46 with annual report data referred to in that Act and in the MFMA.

The revised template makes its contribution by forging linkages with the Integrated Development Plan, Service Delivery and Budget Implementation Plan, Budget Reforms, In-year Reports, Annual Financial Statements and Performance Management information in municipalities. This coverage and coherence is achieved by the use of interlocking processes and formats.

The revised template relates to the Medium Term Strategic Framework particularly through the IDP strategic objectives; cross cutting nature of services offered by different spheres of government, municipal service outcome indicators; and the contextual material as set out in Chapters 3, 4 & 5. It also provides information on good management practice in Chapter 4; risk management in Chapter 2; and Supply Chain Management in Chapter 5; and addresses the Auditor-General's Report, dealing with Financial and Performance Management arrangements in Chapter 6. This opens up greater possibilities for financial and non-financial comparisons between municipalities and improved value for money.

The revised template provides information on probity, including: anti-corruption strategies; disclosure of financial interests by officials and councillors; disclosure of grants by external parties, disclosure of loans and grants by municipalities. The appendices talk to greater detail including disaggregated information on municipal wards, among others.

Notes are included throughout the format to assist the compiler to understand the various information requirements. Once the draft has been finalised, training will be provided to facilitate the implementation of this initiative, and separate additional guidance may be issued if necessary.

We wish to express our gratitude to the members of the Annual Report Reference Group, consisting of national, provincial and municipal officials for their inputs and support throughout the development of this document.

MFMA Implementation Unit, National Treasury

Chapter 1

CHAPTER 1: MAYOR`S FOREWORD AND EXECUTIVE SUMMARY

COMPONENTA: MAYOR`S FOREWORD

Executive Mayor of
Mopani District Municipality
CLLR Rakgoale CN

The 2017/18 financial year has been an eventful year for the council of Mopani District Municipality as we forged ahead with our efforts of improving the lives of the people of our district. It is with great humility for me to report that we have, collectively tried our utmost best to improve the livelihood of the people of our district as mandated by the electorate in 2016.

I remain humbled by the responsibility to be the political head of this municipality, and to be part of this dedicated team of men and women who are focused on the task of delivering on our vision of being the “food basket of Southern Africa and a Tourism destination of choice.” The team remains dedicated to changing the lives of our people for better.

We have in this financial year improved our spending on grants, and we continue to put in place measures to ensure that money allocated for projects is indeed spent on such projects that ultimately deliver potable water and sanitation to our communities.

As the political leadership, we have been able to offer the best support to the administration, and we have filled the positions of senior managers in five of the six directorates. We are hoping to fill the remaining vacancy of the senior manager in the Office of the Executive Mayor.

We have completed several major projects, especially in the Ba-Phalaborwa, where we constructed a 44,6km internal water reticulation. This project benefits villages of Kurhula, Matiko Xikaya, Mashishimale, Nyakelang, Makhushane Exetension 19. We also completed the construction of the 25,1km internal reticulation in Ba-Phalaborwa which will benefit the communities of Makhushane, Kanana and Garden view.

The municipality is envisaging further service delivery improvements as a number of water projects will be launched during the 2018/19 financial year. More than thirty water projects are to be launched and handed over to contractors in the Greater Letaba and the Greater Tzaneen municipalities during the first quarter of the next financial year. Some of the identified projects include Joppie-Mawa, Sefofotse, Thabina, Tours and Thapane among others.

An intervention by Water and Sanitation minister Gugile Nkwinti in the Greater Giyani area is also bringing hope to our people. This after Khathu Civils abandoned the multibillion rand project a year ago. As the district municipality we want to see the completion of the project and the handed over to us so that we can continue to provide communities with portable water. We are also calling on the authorities to act on those who may have contributed to the alleged maladministration that led to the delay on the completion of the project to be held

Chapter 3

accountable.

It is also important to note that progress is being made on the laying of the Nandoni-Nsami Dam pipeline which will augment water supply in the Giyani area.

The water infrastructure projects across the district have created thousands of work opportunities for our people through the Expanded Public Works Programme, and our target for the 2018/19 financial year is to create 5935 work opportunities for the people of Mopani. We are going to launch the District EPWP forum which shall assist in coordinating the EPWP programme for all role players in the district.

Improving the lives of ordinary members of the public residing within our institution remains, our apex priority. With the district municipal area being a tourism destination of choice and a gateway to some of the Southern African Countries, the tourism sector is also making positive contributions to the development of our rural areas that are near a number of tourism attraction points. The Directors, managers and staff members at large have assured me that they will work hard to ensure that the residents of Mopani continue to get water, as directed by the Constitution of the Republic.

The VISION of the Mopani District Municipality is:

“To be the Food Basket of Southern Africa and the Tourism Destination of Choice”

The meaning of this Vision is:

“Mopani District as a whole will create a favourable environment to ensure that out of the whole of Southern Africa, the Mopani District will supply the largest part of food (fruit, vegetables, nuts, meat [mainly game] produce and products) to the local, national and international market. This will create extra-ordinary economic growth for the whole district, emanating in the improvement of the quality of life of all citizens and also enabling the local municipalities to be financially viable and to provide quality services. Due to the diverse vegetation within the District, ranging from sub-tropical, tropical to bush-veld, as well as the fact that it falls within the gateway to the Kruger National Park and Mozambique, it creates the ideal opportunity to promote the District as the tourist growth point in the Limpopo Province.”

We held an Economic Summit and resolved on strengthening partnerships with strategic stakeholders to help boost SMME development in our district. We have since coordinated 32 enterprise development events for SMMEs, and six training sessions which exposed 169 entrepreneurs on business skills.

The District Municipality has identified public participation as the most appropriate way of encouraging citizenry involvement. This has created a platform for communities to raise their service delivery dissatisfaction and also a platform to highlight the happiness on the strides that have been made by the district municipality in various communities.

We are still highly committed to contribute to the goals of the National Development Plan, of creating a prosperous South Africa by 2030. Together with our stakeholders we shall continue to work together to fight the triple challenges of unemployment, poverty and inequality.

Executive Mayor

T 1.0.1

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

MUNICIPAL MANAGER'S OVERVIEW

As with all other district municipalities, Mopani District does not have a distinct land area of its own, but shares the same operational area with the local municipalities falling within it. Mopani District also embraces certain parts of the Kruger National Park through Ba-Phalaborwa and Greater Giyani. Mopani District Municipality was established in 2000 in terms of the Municipal Structures Act, 1998 (Act No. 117 of 1998). The municipal offices of the district are situated in the government complex in Giyani in the Greater Giyani Municipality. The District Disaster Management centre is built in Tzaneen town and is in full use including Fire services. The Mopani District Council has distinct roles, powers and functions to those of the local municipalities. Amongst these is the role of coordinating and supporting services across the three spheres of government.

Municipal Manager Mr Monakedi SR

The Mopani District Municipality is committed to a continuation of the drive towards the alleviation of poverty over the short term and the elimination of endemic poverty over the longer term and takes forward the charge for upliftment of our communities.

As such we retain the commitment to being (1) easily accessible to all members of the community and (2) strategic, developmentally orientated planning as envisaged in the legislation, policy framework and guidelines, without becoming a futile exercise focused primarily on ensuring compliance.

Subsequent to the initiative by the Presidency to align the National Spatial Development Perspective (NSDP), the Provincial Employment, Growth and Development Plan (PEGDP), Mopani District Municipality has aligned its Strategic Objectives and Outcomes to these initiatives and priorities

The IDP of the municipality is aligned with the budget and the performance management system. This implies that any service and/or programme that was implemented by the municipality was informed by the set targets against the targeted outcomes, the allocated budget resources and the performance targets as set by Council in consultation with the communities. The report will provide a feedback on the strategic performance as per the

Chapter 3

IDP, National General KPI's and the SDBIP. The municipality has also continued measuring organisational performance.

On the service delivery, it must be stated that the priority area for the district is water services so therefore majority of the service delivery projects that were implemented are water related inclusive of rural household sanitation and sewerage infrastructure projects. In total, 266 villages received water from the bulk water supply infrastructure. Overall, 84% of households have access to basic water.

The District had gone through each and every project and process that was planned for implementation in 2016/17 and checked performance to date.

On the conservation of power and water within the municipal offices, it must be highlighted that there is still more work that we need to do. The conservation of power is taking place whereby a notice issued to all staff to switch off power points when not in use is being implemented. These will be continued even in the future given the fact that we also plan to introduce new energy saving projects which will also qualify as green projects.

It is worth noting that Council has considered the impact of the global economic crisis and as a result have resorted to using our municipal facilities that can accommodate about seventy people for meetings such as the disaster management center and the auditorium.

The 2016-2017 year has indeed ushered in a new wave of thinking within the district municipality particularly when it comes to service delivery. It must be indicated that with a population of over a million and households that are predominantly rural, it remains a challenge to ensure that all household receive at least basic level of services. Being the Water Services Authority, Mopani is taking this challenge seriously and making it the priority with regards to allocation of funding and resources hence the Council even resolved to collect revenue at a fixed rate in villages where there is sustainable provision of water.

The devolution of power and functions, specifically regarding Water Services remain a challenge due to the vastness of the municipal area, the rural nature thereof and the shortage of bulk water and the role clarification amongst role players. Considerable efforts have been embarked upon at the end of the period under review whereby an in depth analysis of the Water Services function led to measurement of services, including each of the satellite offices. It is pre-empted that this endeavour will take us forward during the next financial year to iron out the majority (if not all) of the challenges being experienced.

It is our wishes that in the near future we will bring more improvement in those areas that are still a challenge but also continue to maintain excellent performance where the municipality has done very well. Despite all the institutional challenges the municipality experienced in the previous years, it remains stable and resolute in the quest to be amongst the best municipalities.

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

INTRODUCTION TO BACKGROUND DATA

The powers and functions of the Mopani District Municipality, tabled in terms of sections 83 and 84 of the Municipal Structures Act, 1998, the Limpopo Provincial Notice No. 309 of 2000, Government Gazette No. 615 of 1st October 2000 and Notice no 356, Gaz. No. 1195 of 14th October 2005, are as follows:

- (a) Integrated Development Planning for the district municipality as a whole, including a framework for integrated development plans for the local municipalities within the area of the district municipality, taking into account the integrated developments plan on those local municipalities.
- (b) Bulk supply of water that affects a significant proportion of municipalities in the district.

Chapter 3

- (c) Bulk supply of electricity that affects a significant proportion of municipalities in the district.
- (d) Bulk sewerage purification works and main sewage disposal that affects a significant proportion of the municipalities in the district.
- (e) Solid waste disposal sites serving the area of the district municipality as a whole.
- (f) Municipal roads which form integral part of a road transport system for the area of the district municipality as a whole.
- (g) Regulation of passenger transport services.
- (h) Municipal Airport serving the area of the district municipality as a whole.
- (i) Municipal Health Services serving the area of the district municipality as a whole.
- (j) Fire Fighting services serving the area of the district municipality as a whole.
- (k) The establishment conducts and control of fresh produce markets and abattoirs serving the area of the district municipality as a whole.
- (l) The establishment, conduct and control of cemeteries and crematoria serving the area of the district municipality as a whole.
- (m) Promotion of local Tourism for the area of the district municipality as a whole.
- (n) Municipal public works relating to any of the above functions or any other functions assigned to the district municipality.
- (o) The receipt, allocation and if applicable, the distribution of grants made to the district municipality
- (p) The imposition and collection of taxes, levies and duties as related to the above functions or as may be assigned to the district municipality in terms of national legislation.

It should be noted that the division of powers and functions between the district municipality and local municipalities were adjusted by the MEC for Local Government and Housing in terms of sections 16 and 85 of the Municipal Structures Act, 1998 and published in the Provincial Gazette No. 878, dated 07 March 2003.

The following District municipal powers and functions were thus transferred to Local Municipalities:

- ☐ Solid waste disposal;
- ☐ Municipal roads which form an integral part of a road transport system of the municipal area;
- ☐ The establishment, conduct and control of cemeteries and crematoria serving the municipal area;
- ☐ Promotion of local tourism for the municipal area;
- ☐ Municipal works relating to any of the above functions or any other functions assigned to the local municipality.
- ☐ NB: The District has not yet taken over on the Municipal Airports function. Study has been commissioned for that.

Chapter 3

T 1.2.1

The reconciled total population of the Mopani District Municipality has increased from 1 061 107 (Census 2001) to 1 068 569 (Community Survey 2007) to 1 092 507 (Census 2011). The population for each municipality within Mopani District is presented in **Table 6**. Out of the entire district population, 81% reside in rural areas, 14% in urban areas and 5% stay on farms. The population densities vary from municipality to another, but the average is 23 people/ ha. It shows that people are sparsely populated with sufficient land around them. The problem of land shortage for economic development is perpetrated by the vast land occupied for dwelling purposes, leaving much little for economic growth

Population Details

Chapter 3

COMMENT ON BACKGROUND DATA:

The reconciled total population of the Mopani District Municipality has increased from 1 068 569 (Stats SA CS 2007) to 1 092 507 (Stats SA Census 2011). Out of the entire district population, 81% reside in rural areas, 14% in urban areas and 5% stay on farms. The population densities vary from municipality to another, but the average is 23 people/ ha. It shows that people are sparsely populated with sufficient land around them. The problem of land shortage for economic development is perpetrated by the vast land occupied for dwelling purposes, leaving little for economic growth. Portion of Kruger National park is mainly occupied by animals with very few people employed.

The average ratio male to female in Mopani District Municipality as a whole is 46% to 54% and the tendencies and trends are still prevalent. The age and gender structure is by and large influenced by levels of fertility, mortality and migration. These factors are also influenced by socio-economic circumstances such as education, level of affluence (income) and location. In almost all local municipalities there are more females than males. This is most significant in Greater Giyani and Greater Letaba municipalities which are primarily rural/ non-urban in nature. The scenario could be attributed to low levels of education and affluence in these municipalities, exacerbated by men seeking jobs elsewhere. Ba-Phalaborwa has comparable balance in numbers between females and males, however with more males than females at working age categories. That is ascribed to young men employed in the mining sector at Phalaborwa and Gravelotte. The Kruger National Park also has more males than females and that could be attributed to more men ready for field rangers' jobs than women, with the ratio men: women being 63%: 27%.

The other dimension is that the current highest population number exists in the age category 15 - 19 years whereas in the previous years the highest was in the category 10 – 14 years. These are school-going people who need support for them to be employable in the economic sectors. There is also proportional balance between boys and girls from age zero to 20. Ages 20 and above show females out-numbering males significantly. Further analysis of the demographics indicates that 49,4% of the residents are still at a young age (0-19 years). Population numbers decrease with age increase, i.e. the older generation is less than the young one.

It is also notable that population size of Mopani has grown steadily by 3% since the year 2000 to 2011, with absolute pick up in 2005 when Maruleng and part of Kruger National Park (KNP) got incorporated into Mopani. Redetermination of municipal boundaries in 2008 has not made significant change in this trend since it affected only nature conservation area, Kruger National Park. High population growth itself is a threat to the economic growth in terms of scarcity of prime land space. Since the main source of population growth is birth rate and emigration, programmes geared at combating children pregnancies, women empowerment and those dealing with illegal emigration should be strengthened. As per the Census 2011, the overall population size of Mopani District stands at 1,092,507.

People in the Mopani district are employed in the following sectors: Farming, Industry, Mining, Trade, Government, Transport, Tourism, Manufacturing, Construction and Energy. The Government Sector is the largest employer in the district e.g. 39% of the employed in Greater Giyani work for government. The second

Chapter 3

largest employer in Mopani district is the farming sector with 25,9% of the employed people. This is however, not the case when considering the municipalities separately with the mining sector employing the second largest portion of the Ba-Phalaborwa population (19,5%). Greater Giyani has the highest level of unemployment with 47% of the population not being employed. The number of people unemployed as a percentage of the total employable population of the District (287,405) is 39%. It is however important to note that of the unemployed people in the district, approximately 60% are women.

Income from employment determines the overall living standards of people and also the household's affordability levels. These levels should be taken into account when setting service level targets. The majority of people in the district (at least 81%) live in rural areas and most of these rural residents are poor. Income in rural areas is constrained by the rural economy that is unable to provide people with remunerative jobs or self-employment opportunities. A notable percentage of people in the district have no income. It should, however, be taken into account that these figures reflect the total population and not only the potentially economically active portion of the population. Economically inactive people, such as, children and pensioners are also included. It is disturbing to note that, even for the labour force alone, 89.1% of the population in the Greater Giyani Municipality earns less than R800 per month. The situation is worse in Greater Letaba where 92.2% of the earning population earn less than R800 per month, while the situation is much better in Ba-Phalaborwa with only 75% of the labour force earning less than R800 per month. This can be attributed to the high level of urbanization in Ba-Phalaborwa and the presence of mines.

Mopani is also endowed with natural resources such as marula fruits which produce many products in the processing value chain. The name Mopani is loud enough to indicate our wealth in mopani worms, the most nutritious food which is good for health. The provincial economic development study of 2000, identified tourism, agriculture, mining and trade and manufacturing as sectors with a potential for growth in the Mopani district. Agriculture is one sector that yields much products, excelling in tomatoes that are exported throughout the world. Other sectors in Mopani are the red and white meat production. Mopani also boasts of the pool of cost effective labour to work in labour intensive programmes such as agriculture and EPWP. The challenge may be skilling them for better production.

The Mopani District also enjoys the beneficiation economic programmes of Kruger National Park where citizens get jobs to conquer poverty. The district also has comparative advantages in agriculture, manufacturing and trade. Hereunder is an analysis of the district economy.

T1.2.8

1.1. SERVICE DELIVERY OVERVIEW

SERVICE DELIVERY INTRODUCTION

Chapter 3

The reconciled total population of the Mopani District Municipality has increased from 1 068 569 (Stats SA CS 2007) to 1 092 507 (Stats SA Census 2011). Out of the entire district population, 81% reside in rural areas, 14% in urban areas and 5% stay on farms. The population densities vary from municipality to another, but the average is 23 people/ ha. It shows that people are sparsely populated with sufficient land around them. The problem of land shortage for economic development is perpetrated by the vast land occupied for dwelling purposes, leaving little for economic growth. Portion of Kruger National park is mainly occupied by animals with very few people employed.

The average ratio male to female in Mopani District Municipality as a whole is 46% to 54% and the tendencies and trends are still prevalent. The age and gender structure is by and large influenced by levels of fertility, mortality and migration. These factors are also influenced by socio-economic circumstances such as education, level of affluence (income) and location. In almost all local municipalities there are more females than males. This is most significant in Greater Giyani and Greater Letaba municipalities which are primarily rural/ non-urban in nature. The scenario could be attributed to low levels of education and affluence in these municipalities, exacerbated by men seeking jobs elsewhere. Ba-Phalaborwa has comparable balance in numbers between females and males, however with more males than females at working age categories. That is ascribed to young men employed in the mining sector at Phalaborwa and Gravelotte. The Kruger National Park also has more males than females and that could be attributed to more men ready for field rangers' jobs than women, with the ratio men: women being 63%: 27%.

The other dimension is that the current highest population number exists in the age category 15 - 19 years whereas in the previous years the highest was in the category 10 – 14 years. These are school-going people who need support for them to be employable in the economic sectors. There is also proportional balance between boys and girls from age zero to 20. Ages 20 and above show females out-numbering males significantly. Further analysis of the demographics indicates that 49,4% of the residents are still at a young age (0-19 years). Population numbers decrease with age increase, i.e. the older generation is less than the young one.

It is also notable that population size of Mopani has grown steadily by 3% since the year 2000 to 2011, with absolute pick up in 2005 when Maruleng and part of Kruger National Park (KNP) got incorporated into Mopani. Redetermination of municipal boundaries in 2008 has not made significant change in this trend since it affected only nature conservation area, Kruger National Park. High population growth itself is a threat to the economic growth in terms of scarcity of prime land space. Since the main source of population growth is birth rate and emigration, programmes geared at combating children pregnancies, women empowerment and those dealing with illegal emigration should be strengthened. As per the Census 2011, the overall population size of Mopani District stands at 1,092,507.

People in the Mopani district are employed in the following sectors: Farming, Industry, Mining, Trade, Government, Transport, Tourism, Manufacturing, Construction and Energy. The Government Sector is the largest employer in the district e.g. 39% of the employed in Greater Giyani work for government. The second largest employer in Mopani district is the farming sector with 25,9% of the employed people. This is however, not the case when considering the municipalities separately with the mining sector employing the second largest portion of the Ba-Phalaborwa population (19,5%). Greater Giyani has the highest level of unemployment with 47% of the population not being employed. The number of people unemployed as a percentage of the

Chapter 3

total employable population of the District (287,405) is 39%. It is however important to note that of the unemployed people in the district, approximately 60% are women.

Income from employment determines the overall living standards of people and also the household's affordability levels. These levels should be taken into account when setting service level targets. The majority of people in the district (at least 81%) live in rural areas and most of these rural residents are poor. Income in rural areas is constrained by the rural economy that is unable to provide people with remunerative jobs or self-employment opportunities. A notable percentage of people in the district have no income. It should, however, be taken into account that these figures reflect the total population and not only the potentially economically active portion of the population. Economically inactive people, such as, children and pensioners are also included. It is disturbing to note that, even for the labour force alone, 89.1% of the population in the Greater Giyani Municipality earns less than R800 per month. The situation is worse in Greater Letaba where 92.2% of the earning population earn less than R800 per month, while the situation is much better in Ba-Phalaborwa with only 75% of the labour force earning less than R800 per month. This can be attributed to the high level of urbanization in Ba-Phalaborwa and the presence of mines.

Mopani is also endowed with natural resources such as marula fruits which produce many products in the processing value chain. The name Mopani is loud enough to indicate our wealth in mopani worms, the most nutritious food which is good for health. The provincial economic development study of 2000, identified tourism, agriculture, mining and trade and manufacturing as sectors with a potential for growth in the Mopani district. Agriculture is one sector that yields much products, excelling in tomatoes that are exported throughout the world. Other sectors in Mopani are the red and white meat production. Mopani also boasts of the pool of cost effective labour to work in labour intensive programmes such as agriculture and EPWP. The challenge may be skilling them for better production.

The Mopani District also enjoys the beneficiation economic programmes of Kruger National Park where citizens get jobs to conquer poverty. The district also has comparative advantages in agriculture, manufacturing and trade. Hereunder is an analysis of the district economy.

T 1.3.1

Chapter 3

Proportion of households with access to basic services

COMMENT ON ACCESS TO BASIC SERVICES:

The success of local economic development is tied to the provision of basic and other types of infrastructure services to the people. All services under analysis in this section are located in a specific locality (as per SDF) and have potential to boost socio-economic development (as per LED). Infrastructure analysis focuses on the status quo regarding water supply, sanitation facilities, energy, housing provision, roads and public transport, waste management and telecommunications – all of which underpin socio-economic development and determine a people's quality of life. The provision of adequate municipal infrastructure remains a challenge throughout the district.

T1.3.3

1.2. FINANCIAL HEALTH OVERVIEW

FINANCIAL OVERVIEW

In terms of the audited results, the municipality received total revenue of R1 486 815 740 in the 2017/18 financial year as compared to R 1 176 807 452 in the 2016/17 financial year which is an increase of R310 008

Chapter 3

288. The total expenditure for the 2017/18 financial is at R1 244 199 031 against R 1 365 414 724 in 2016/17 which represents a decrease in expenditure of R 121 215 693. The municipality largely depends on grants but currently a revenue enhancement strategy is being developed to consider other possible revenue generating mechanisms. We hope and believe that the final product will yield the desired goals.

T1.4.1

Financial Overview – 2017/18			
			R`000
Details	Original Budget	Adjustment Budget	Actual

It is evident from the figures contained above, there are variances between the budgeted and actual figures. The total budgeted and actual income however differ with only R134 552

Operating Ratios	
Detail	%
Employee Cost	98%
Repairs & Maintenance	33%
Finance Charges & Depreciation	96%
T1.4.3	

COMMENT ON OPERATING RATIOS:

The employee costs for Mopani District Municipality for the year under review stands at 98% which is far above the acceptable norm of 33%. The expected ratio of Repairs and Maintenance should be in the region of about 20%, whereas the ratio for the municipality is 33% for the year under review. The ratio for Finance Charges and Impairment against expenditure is also expected to be about 10%, whereas the ratio for the municipality is at 96% for the year under review.

COMMENT ON CAPITAL EXPENDITURE:

During the period under review, the municipality ended with an Actual Expenditure of R459 705 million out of the adjusted budget of R 610 476 million. Capital expenditure was R 640 835 million less than the previous year.

1.4.5.1

1.3. ORGANISATIONAL DEVELOPMENT OVERVIEW

ORGANISATIONAL DEVELOPMENT PERFORMANCE

Chapter 3

The total approved posts of the municipality are 1244 for which 645 posts were filled during the reporting period and 599 posts remained vacant. The water services directorate has the highest vacancies at 593 due to the increasing number of retirements, death cases and resignations. For the period under review, a total of 43 employees have gone on retirement, 15 passed on, 12 resigned, two (2) were dismissed after disciplinary processes and 1 the contract expired. The total number of Councilors for the municipality is 51 and 1 passed on. Organogram review was conducted in 17/18

T1.5.1

1.4. AUDITOR GENERAL REPORT

AUDITOR GENERAL REPORT 16/17

The municipality has received a disclaimer audit opinion. The issues that lead to a disclaimer audit opinion was a result of significant issues raised in relation to assets management, revenue management, liability management.

T 1.6.1

1.5. STATUTORY ANNUAL REPORT PROCESS

	Activity	Timeframe
1	Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period.	July
2	Implementation and monitoring of approved Budget and IDP commences (In-year financial reporting).	
3	Finalise 4 th quarter Report for previous financial year	
4	Submit draft Annual Report to Internal Audit and Auditor-General	
5	Municipal entities submit draft annual reports to MM	
6	Audit/Performance committee considers draft Annual Report of municipality and entities (where relevant)	August

Chapter 3

8	Mayor tables the unaudited Annual Report	
9	Municipality submits draft Annual Report including consolidated annual financial statements and performance report to Auditor General.	
10	Annual Performance Report as submitted to Auditor General to be provided as input to the IDP Analysis Phase	
11	Auditor General assesses draft Annual Report including consolidated Annual Financial Statements and Performance data	September - October
12	Municipalities receive and start to address the Auditor General's comments	November
13	Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report	
14	Audited Annual Report is made public and representation is invited	
15	Oversight Committee assesses Annual Report	December
16	Council adopts Oversight report	
17	Oversight report is made public	
18	Oversight report is submitted to relevant provincial councils	January
19	Commencement of draft Budget/ IDP finalisation for next financial year. Annual Report and Oversight Reports to be used as input.	
T1.7.1		

COMMENT ON THE ANNUAL REPORT PROCESS:

The above timeframes are legislated. It is great importance to distinguish between the Annual Performance Report (APR) and the Annual Report (AR). The content of the Annual Performance Report is the actual achieved in relation to targets set in the Service Delivery Budget and Implementation Plan (SDBIP) as approved for the specific financial year. This report, together with the Annual Financial Statements are submitted to the Auditor General by the 31 August. Then comes the development of the Annual Report. The Annual Report content will assist municipal councillors, municipalities, municipal entities, residents, oversight institutions and other users of Annual Reports with information and progress made on service delivery. It must align with the Integrated Development Plan (IDP), Budget, Service Delivery and Budget Implementation Plan (SDBIP), and in year reports. The Annual Report is tabled before the Council on the 30th January and after consideration by the MPAC, the MPAC will report to council by the 30th March. These reports should be used as a decision making tool by the municipalities.

Every municipality and municipal entity must prepare an annual performance report which must form part of the Annual Report for each financial year in accordance with the Municipal Systems Act 2000 (MSA) section 46, and the Municipal Finance Management Act 2003 (MFMA) section 121.

The purpose of the Annual Report is:

Chapter 3

- ❑ to provide a record of the activities of the municipality or entity during the financial year to which the report relates;
- ❑ to provide a report on performance in service delivery and budget implementation for the financial year;
- ❑ to promote accountability to the local community for the decisions made throughout the year by the municipality or municipal entity; and
- ❑ to reduce the additional reporting requirements that will otherwise arise from Government Departments, monitoring agencies and financial institutions.

The annual report is thus a back-ward looking document to inform strategic planning and budgeting for the following year.

T1.7.1.1

CHAPTER 2 – GOVERNANCE

INTRODUCTION TO GOVERNANCE

The Constitution section 151(3) states that the council of a municipality has the right to govern on its own initiative, the local government affairs of the local community.

The municipal Structures Act defines a municipality among other as a structure with political office bearers and administration components; a geographic area and the community of the municipality.

Rights and duties of municipal Council (The Political Component)

The council of a municipality has the right to govern, on its own initiative the local government affairs of our local communities; and to exercise the municipality's executive and legislative authority without interference. Council must respect the rights of citizens in the way in which they exercise their powers. Council has duties as well as rights that, amongst others include the duties to:

- Exercise their powers and use their resources in the best interests of our communities;
- Provide without favour or prejudice democratic and accountable government;
- Encourage the participation of the communities;
- Ensure that Municipal Services are provided to the communities in an equitable, financially and environmentally sustainable manner;
- Promote development in the municipality;
- Promote gender equity;
- Promote a safe and healthy environment in the municipality; and
- Contribute to the progressive realisation of the fundamental rights contained in the Constitution.

The Municipal Systems Act puts a responsibility on council to consult the local community about Municipal Services. The community has a say in which services are delivered; the quality of services the range and the level of services which are provided.

Duties of the Municipal administration (The Administrative Component)

The Administrative component have responsibilities towards the communities amongst the responsibilities the following is outlined.

- Being responsible for the general administration and accounting of the functionaries of the municipality;
- Being responsive to the needs of the local community;
- Establishing clear channels of communication with all sectors of the society and governance;
- Informing the local communities about the services which they are entitled to receive; and
- Informing the local community how the municipality is managed, what it spends its money on, and who is in charge.

The Municipal administration has the responsibility to facilitate a culture of public service and accountability amongst staff and taking measures to prevent corruption. The municipality is obligated to perform these duties as far as possible, considering the capacity and the available budget.

The Municipality has approved and (partially) implemented its Delegations System – “Delegation of Authority and Accountability By-Law” – that seeks to decentralize and democratize decision-making within the institution, and improve the pace at which services are delivered to the community. This is intended to maximize administrative and operational efficiency and provide for adequate checks and balances. In line with the delegations' system, some decision-making powers have been cascaded from Council to the Executive Mayor, Mayoral Committee, its Portfolio Committees and the full-time Councillors. Other powers have been delegated to the Municipal Manager and Directors.

Internal audit's role is primarily one of providing independent assurance over the internal controls of the council. It contributes to quality services to our communities in terms of providing checks and balances in the services rendered.

Chapter 3

The Municipality established the in-house Internal Audit unit in December 2008 and still functional. The unit is thus far staffed with five officials out of 8 posts. With the assistance of the Internal audit the below audit opinions were achieved

T2.0.1

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

The Constitution section 151(3) states that the council of a municipality has the right to govern on its own initiative, the local government affairs of the local community.

The municipal Structures Act defines a municipality among other as a structure with political office bearers and administration components; a geographic area and the community of the municipality.

The Mopani District Council comprises of the political and administrative components responsible for decision-making and implementation. The Executive Mayor, the Speaker and the Chief Whip head the political component of the municipality. The Council had 50 members. There were 30 Traditional Authorities in Mopani District and each of the Local municipalities has at least one representative of Traditional leaders in the District Council.

T2.1.0

AUDIT COMMITTEE ANNUAL REPORT 2017/18

Chapter 3

AUDIT COMMITTEE ANNUAL REPORT 2017/18

We are pleased to present our report for the financial year ended 30 June 2018.

Audit Committee Responsibility

The Audit Committee reports that it has complied with its responsibilities arising from Section 166 of the Municipal Finance Management Act and Circular 65 issued by National Treasury. The Audit Committee also reports that it has reviewed and adopted appropriate formal terms of reference as its Audit Committee Charter, and it has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein.

Audit Committee members and attendance

The Audit Committee, consisting of independent outside members listed below is supposed to meet at least four times per annum as per its approved terms of reference, although additional special meetings may be called as the need arises. For the Financial Year 2017/18 the Audit Committee managed to fulfil its obligations. The meetings were held as follows:

Name of Member	Number of meetings attended
Outgone Audit Committee Members since 31 March 2018	
Dr HN Manzini (former chairperson)	2
Mr TG Nevhutalu	7
Ms FJ Mudau	7
Mr HG Hlomane	7
Adv. SST Khulong	7
Current Audit Committee Members from 1st April 2018	
Mr. TC Modipane (chairperson)	5
Mr. SAB Ngobeni	5
Mr. TG Nevhutalo	5
Ms. JM Mabuza	5

The Effectiveness of Internal Control

Our review of the findings of the Internal Audit work, which was based on the risk assessments conducted in the municipality revealed certain weaknesses, which were then raised with the municipality.

- There was no serious improvement in the system of internal control of the municipality to reduce adverse issues raised from previous year. There were several
- deficiencies in the system of internal control and or deviations that were reported by
 - the internal auditors and the Auditor-General. In most instances, the matters

Chapter 3

reported previously have not been fully and satisfactorily addressed. During the year under review there was no proper implementation of action plans to address issues raised by internal auditors or Auditor General.

In-Year Management and Monthly/Quarterly Report

The Audit Committee is not satisfied with quality of monthly and quarterly reporting system to Council as required by the Municipal Finance Management Act (MFMA). There were incomplete, inaccurate and inadequate financial reports that were submitted quarterly to council.

Performance Management

The Audit Committee is not further satisfied with the functionality of the performance management system and it appears not to be fully functional. There were incomplete, inaccurate and inadequate financial reports that were submitted quarterly to council.

Risk Management

The Audit Committee is satisfied with the municipality risk management strategy and related policies, however is of the opinion that the implementation of mitigating intervention by management is not effective.

Information Technology

The Audit committee is not satisfied with the effectiveness of municipality information systems.

Compliance with laws and regulations

Some non-compliance with the enabling laws and regulations were revealed by Internal Audit and Auditor General. There is, however, a space for improvement in so far as establishing an effective system for monitoring compliance with laws and regulations is concerned

Management Report and Audit Report

_Audit Committee:

- • Had an opportunity to discuss the draft management report with Auditor General; and
- • Has discussed the draft Audit Report with Auditor General.

Chapter 3

Evaluation of Financial Statements

The Audit Committee:

- Did not have sufficient time to review and discuss the annual financial statements prepared by the municipality before submission to the Auditor-General South Africa for audit as these were submitted late;
- Did not have sufficient to review the municipality's compliance with applicable accounting framework (GRAP), legal and regulatory provisions; and
- The Audit Committee concurs and accepts the conclusion of Auditor General on the Annual Financial Statement and is of an opinion that the Annual financial Statements be accepted and read together with the report of the Auditor General.

Evaluation of draft Performance Report

The Audit Committee:

- Did not have sufficient time to review and discuss the draft annual performance report prepared by the municipality before submission to the Auditor-General South Africa for audit;
- Did not have sufficient time to review the reasons provided by management for material deviations from the planned targets;
- Did not have sufficient time to review the proposed remedial actions provided by management to address the issues of non-achievement of targets; and
- The Audit Committee concurs and accepts the conclusion of the Auditor General on the Annual Performance Report and is of an opinion that the Annual Performance Report be accepted and read together with the Report of Auditor General.

Conclusion

The Audit Committee wishes to acknowledge the cooperation and commitment of the Council, management and staff of the municipality. We would also like to thank the Executive Mayor for her support, and Councillors together with senior management for their efforts and internal audit for their contribution.

Mr. TC Modipane
Chairperson of the Audit Committee
Mopani District Municipality

Chapter 3

Municipal Public Accounts Committee:

The Municipal Public Accounts Committee (MPAC), heard evidence on and considered the contents of the Annual Report and the Report of the Auditor-General on the 2017/2018 annual financial statements of the municipality. The Committee noted the disclaimer audit opinion, highlighted areas which required urgent attention of the Accounting Officer and Council

MPAC Members

Chairperson: Cllr Modjadji GH

Cllr Zitha T.C

Cllr Nkhwashu M. C

Cllr Rapatsa K.I.

Cllr Nyakane M.R

Cllr Mushwana D.G

2.1 POLITICAL GOVERNANCE

INTRODUCTION TO POLITICAL GOVERNANCE

The Mopani District Council has established Portfolio Committees in terms of Municipal Structures Act 117 of 1998. These committees recommend policy issues to Council via Mayoral committee. They serve as interface engine rooms between the political and administrative structures of Council. It is in these committees where policy issues are debated thoroughly prior to their submission to the Mayoral Committee that, in turn, consider and forward them to Council for adoption. Through Portfolio Committees, Councillors are able to give political direction to the administrative component on the programmes of Council, Portfolio Heads (Councillors) are also responsible for different Clusters, e.g. Economic, Social and Infrastructure and Governance and Administration.

Portfolio Committees and Cluster are depicted underneath:

Name of Committee	Support Department	Cluster
Finance	Finance Directorate	Governance and Admin
Governance & Admin.	Corporate Services	Governance and Admin
Social Services	Community Services	Social and Infrastructure
Strategy, Planning & IDP	Planning & Development	Economic Development
Roads and Transport	Technical Directorate	Social and Infrastructure
Water	Technical Services	Social and Infrastructure
Infrastructure	Technical Services	Social and Infrastructure
Sports, Arts and Culture	Community Services	Social and Infrastructure
Agriculture	Agricultural Services	Social and Infrastructure

Chapter 3

The municipality has a total of seven Portfolio Committees and their meetings are conducted on monthly basis prior to the Mayoral Committee meetings. The attendance in the Portfolio Committee meetings became a serious challenge after the municipality received a circular which explained the need to avoid having members of the Municipal Public Accounts Committee (MPAC) also sitting in different portfolios.

The Executive Mayor, the Speaker and the Chief Whip head the political component of the municipality. The Council had 53 members, and 21 of these were proportional representative councillors. There were 10 Traditional Authorities in Mopani District and each of the Local municipalities has at least one representative of Traditional leaders in the District Council.

A total of nine Mayoral Committee meetings were held and the attendance by members of the Mayoral Committee stood at 100% except in instances where written applications of absence were received.

Functions of the Mayoral Committee and Council	
Area	Detail
Finance	Assist Council in the allocation of resources for service delivery and ensuring accountability and transparency
Governance	Support Council with Human Resources and General administration in terms of coordination of Council programmes
Roads and Public Transport	Provision of road infrastructure and coordination of public transport activities
Water and Sanitation	Ensures that the community have access to clean water and sanitation services
Energy	Assist in the coordination of electricity distribution and any other form of energy
Planning and Development	Assist in the coordination of the development of the IDP, economic development and planning in general
Social Services	Ensures the provision of fire services to communities, coordination of all the social services including HIV / AIDS
Speaker	
Section 37 of Municipal Systems Act	Presides at meetings of Council;
	Ensure that Council meets once quarterly;
	Maintain order during Council meetings;
	And to ensure that Council meetings are conducted in accordance with the Rules of order
Full time Councillors	
	Ensuring that Portfolio Committee meetings are held monthly
	To serve as a communication link between the Executive Mayor and municipal Councillors in the district;
	Assisting the Executive Mayor in coordinating the activities of developing strategic plan for the Municipality
Municipal Manager	
Section 55 of the Municipal Systems Act	Formation and development of an economic, effective, efficient and accountable administration
	Management of the municipal administration

	Implementation of the municipal Integrated Development Plan and monitoring progress
	Management of the provision of services to the local communities in a suitable and equitable manner

T2.1.2

POLITICAL DECISION-TAKING

Rights and duties of municipal Council (The Political Component)

The council of a municipality has the right to govern, on its own initiative the local government affairs of our local communities; and to exercise the municipality's executive and legislative authority without interference. Council must respect the rights of citizens in the way in which they exercise their powers.

Council has duties as well as rights that, amongst others include the duties to:

- ▶ Exercise their powers and use their resources in the best interests of our communities;
- ▶ Provide without favour or prejudice, democratic and accountable government;
- ▶ Encourage the participation of the communities;
- ▶ Ensure that Municipal Services are provided to the communities in an equitable, financially and environmentally sustainable manner;
- ▶ Promote development in the municipality;
- ▶ Promote gender equity;
- ▶ Promote a safe and healthy environment in the municipality; and
- ▶ Contribute to the progressive realisation of the fundamental rights contained in the Constitution.

The Municipal Systems Act puts a responsibility on council to consult the local community about Municipal Services. The community has a say in which services are delivered; the quality of services the range and the level of services which are provided.

T2.1.3

2.2 ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

The Mopani District has an administrative component, which helps in carrying the Constitutional mandate, to deliver quality services and to afford local government to be developmental to its constituencies.

The Administrative component has the responsibility towards the communities, which include the following:

- _ Being responsible for the general administration and accounting of the functionaries of the municipality.
- _ Being responsive to the needs of local communities.

Chapter 3

- _ Establishing clear channels of communications with all sectors of the society and governance.
- _ informing the local communities about the services, which they are entitled to receive.
- _ Informing the public of how the municipality is managed.

T2.2.2		

COMPONENT B: INTERGOVERNMENTAL RELATIONS

INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

Mopani District Municipality is responsible for facilitating inter-governmental relations within its area of intergovernmental engagements to ensure that proper inter-governmental planning guides public, private and jurisdiction. In line with the Intergovernmental Relations Framework Act, MDM has taken it upon itself to improve donor investment

2.3 INTERGOVERNMENTAL RELATIONS

NATIONAL INTERGOVERNMENTAL STRUCTURES

The relationship between the district municipality, the local municipalities and sector departments in Mopani is improving. There are also inter-municipal structures (i.e. District Intergovernmental Forum, Speakers' Forum and District Managers' Forum) that discuss and resolve issues cutting across all municipalities and sector departments. There are, however, grey areas in how the hierarchical inter-municipal and inter-governmental structures should cross feed into each other's programmes and be measured in terms of performance. For example, it is still a challenge for MDM to hold any sector department accountable for the non-implementation of projects which are included in the IDP document.

The following are "political" and non-political inter-governmental structures that facilitate inter-governmental relations within the province, between the district, province and local municipalities:

T2.3.1

PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The relationship between the district municipality, the local municipalities and sector departments in Mopani is improving. There are also inter-municipal structures (i.e. District Intergovernmental Forum, Speakers' Forum and District Managers' Forum) that discuss and resolve issues cutting across all municipalities and sector departments.

There are, however, grey areas in how the hierarchical inter-municipal and inter-governmental structures should cross feed into each other's programmes and be measured in terms of performance. For example, it is still a challenge for MDM to hold any sector department accountable for the non-implementation of projects which are included in the IDP document.

The following are "political" and non-political inter-governmental structures that facilitate inter-governmental relations within the province, between the district, province and local municipalities:

Key Inter-Governmental Structures		
Intergovernmental structures	Participants	Responsibility
Intergovernmental Forum Premier /Mayors' Forum]	Premier/ Mayors, Heads of Departments and Municipal Managers	Co-ordination of inter- governmental relations (Provincial and Local Government)
District Intergovernmental Forum [Mayors' Forum]	Executive Mayor, Mayors, Traditional Leaders and Municipal Managers	Co-ordination of inter-municipal relations (District and Local Municipalities)

Chapter 3

Key Inter-Governmental Structures		
Intergovernmental structures	Participants	Responsibility
District Speaker's Forum	Speakers, Municipal Managers.	Co-ordinate public participation processes in the municipalities
District Ward Committee forum	District Speaker, representatives of Ward committees	Inputs in the IDP and its implementation
NON-POLITICAL STRUCTURES		
District Managers' Forum	Sector Departments' District Managers Municipal Managers Municipal Senior Managers (Directors)	Co-ordinate inter-governmental relations at district level between municipalities and sector departments
Clusters	Councillors Municipal Managers Municipal Senior Managers (Directors)	Co-ordinate policy issues affecting government at a district level (between sector departments and municipalities)
Technical Committees of Clusters	Sector Department Officials Municipal Senior Managers (Directors) Municipal Officials	Provide inter-governmental inputs into the work of Clusters
Provincial Planners Forum	Sector Departmental Planners IDP Managers Spatial Planners Town Planners	Provide for a coherent inter-governmental planning framework and alignment and integration of development plans in the province
District Development Planning Forum	Sector Depts, SOEs, MDM and LMs	Alignment in the IDP planning process, T2.3.3

RELATIONSHIPS WITH MUNICIPAL ENTITIES

The municipality has no entities

Appendix D.

DISTRICT INTERGOVERNMENTAL STRUCTURES

The relationship between the district municipality, the local municipalities and sector departments in Mopani is improving. There are also inter-municipal structures (i.e. District Intergovernmental Forum, Speakers' Forum and District Managers' Forum) that discuss and resolve issues cutting across all municipalities and sector departments. All Municipalities have their different Councils which take decisions affecting each municipality. But through these different layers of interactions, Municipalities find the opportunity of working together, planning together.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION PAT TWALA

OVERVIEW OF PUBLIC ACCOUNTABILITY AND PARTICIPATION

One of the Objectives of Local Government captured in section 152 of the Constitution is to encourage the involvement of communities and community organizations in the matters of local government. The white paper on local government expects the municipalities to be working with citizens and groups within the community to find sustainable ways to meet their economic, social and material needs and improve the quality of their lives. Therefore the municipality is using a number of ways and systems to involve communities and improve governance.

Over and above the formal structure of MDM, the following are in place:

- ☑ Anti-corruption Strategy in place as enabler to deal with eradication of corruption.
- ☑ Risk Management Strategy in place: the unit is currently staffed with one person, namely the Chief Risk Officer and the Risk Officer position is still vacant.
- ☑ Financial control systems: Supply Chain Management, Audit committee, MPAC and financial policies are in place.
- ☑ HR policies are in place and some under review process.
- ☑ Program of meetings of House of Traditional leaders with Executive Mayor discussing issues of mutual interest.
- ☑ IDP Representative Forum to afford community involvement in issues of governance through IDP process.
- ☑ Communication forum: to communicate programmes and governance of the District to communities and employees.
- ☑ District Development Planning forum: An avenue for integration of Local municipalities and sector Departments (National and Provincial).
- ☑ District Managers' forum: Municipal Managers of District and Local municipalities, parastatals and District Managers of sector depts.
- ☑ Mayors' intergovernmental forum: Mayors of both District and Local municipalities meet quarterly to track progress on service delivery.
- ☑ Disaster Management unit that is linked to the office of the Municipal Manager for prompt response to disasters whenever they occur.

Chapter 3

Forums linking communities with formal structures of municipality (e.g. LED, Business, Energy, Health, Gender, Sanitation, Disability, etc.).

The office of the Speaker is responsible for the following programmes and they are budgeted for annually:

Public participation: The platform that affords communities to raise issues of concern directly to the political leadership for effective response. There is also hotline for the Executive Mayor to assist at any given time when members of communities or anyone need his assistance.

Imbizos

District Ward Committees forum (five representatives from each Local Municipality)

Speakers' forum.

Local Government Key Performance Areas	MDM Structures that involve members of communities in matters of governance
Transformation and Organisational Development	MPAC, Audit committee, Disability forum, Gender forum, Youth Council, House of Traditional leaders with Exec. Mayor; anti-corruption forum, Communication forum, Children's Advisory council, Men's forum, Council for the aged
Basic services	Water and Sanitation forum, Transport forum, Energy forum, Health Council, AIDS Council, Education forum, Sport and recreation council, Arts and Culture council, Environmental Management advisory forum, Heritage forum, Moral Regeneration Movement
Local Economic Development	LED Forum, Business forum
Financial Viability	Budget Steering committee (officials and Councilors)
Good Governance and Public participation	District Ward Committees forum, IDP Representative forum, Mayors' intergovernmental forum, Speakers forum

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

The municipality has the following interactive mediums with the community

- Quarterly newsletters
- Mopani district Municipality website: www.mopani.gov.za
- Complaints register
- Presidential and Premiers 's hotline

T2.4.1

WARD COMMITTEES

The District has no wards, wards belong to the Local municipalities. The municipality has a unit within the Office of the Executive Mayor a unit responsible for Public Participation, for communities to be awarded an opportunity to contribute to the development of the District. In order to provide support and effective engagement at grass-roots level the District established District Ward Committees forum, made up of 25 members, that is, five representatives from each local municipality. The District Speaker is responsible for coordination of the activities of the forum. Meetings of the District Ward Committees forum are often held concurrently with the Speakers' forum and are chaired by the District Speaker. Further support is provided in the form of funding the accommodation, venues, catering and traveling to the meetings. Workshops are also held to capacitate members with information and affording them opportunity to have a say in matters of District governance as well as service delivery issues.

The forum creates an appreciable platform for the communities to be able to understand the functioning of government and participate effectively in the strategic issues of municipalities. It is the base for building a better stakeholder capacity through programmes of Public participation. It is also a mode to entrench democracy to ordinary members of communities. Again, the District as local government is able to relate better with communities, thus transforming the notion of "local authority" into "local governance", especially on services that are solely provided in terms of the District powers and functions. Every phase of the IDP process was presented to this forum for information and inputs.

2.5 IDP PARTICIPATION AND ALIGNMENT

IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	No
Are the above aligned and can they calculate into a score?	No
Does the budget align directly to the KPIs in the strategic plan?	Yes

Chapter 3

Do the IDP KPIs align to the Section 57 Managers	YES
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes
* Section 26 Municipal Systems Act 2000	
T2.5.1	

COMPONENT D: CORPORATE GOVERNANCE

OVERVIEW OF CORPORATE GOVERNANCE

“Good corporate governance can be equated to having clear corporate values which are stated and enacted, and ensure that the company is governed in a way that is efficient, responsible, accountable, transparent and with probity. It furthermore, recognises the legitimacy of interest of defined key stakeholders, and engaging in long-term relationships.” (The King Report on Corporate Governance for South Africa, 2002).

Principles of co-operative government and intergovernmental relations is that All spheres of government and all organs of state within each sphere must

- preserve the peace, national unity and the indivisibility of the Republic;
- secure the well-being of the people of the Republic;
- provide effective, transparent, accountable and coherent government for the Republic as a whole;
- be loyal to the Constitution, the Republic and its people;
- respect the constitutional status, institutions, powers and functions of government in the other spheres;
- not assume any power or function except those conferred on them in terms of the Constitution;
- exercise their powers and perform their functions in a manner that does not encroach on the geographical, functional or institutional integrity of government in another sphere; and
- co-operate with one another in mutual trust and good faith by
 - fostering friendly relations;
 - assisting and supporting one another;

Chapter 3

- iii. informing one another of, and consulting one another on, matters of common interest;
- iv. co-ordinating their actions and legislation with one another;
- v. adhering to agreed procedures; and
- vi. avoiding legal proceedings against one another.

In the municipal environment, corporate governance is all about how municipalities set their priorities (as per the IDP), conduct their business (through the performance management system and the SDBIP process), and relate to the community they serve (as per the IDP and performance management system). The Tripod Integrated Management System® ensures co-ordinated planning and development in the district. Data is collected, monitored, evaluated, assessed, audited and reported on, for informed decision-making and better service delivery - in other words, for better corporate governance.

T2.6.0

2.6 RISK MANAGEMENT

RISK MANAGEMENT

MFMA section 62(1)(c)(i) states that the accounting officer of a municipality is responsible for managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure that the municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control.

The Chief Risk Officer as the head of risk management is responsible for co-ordinating, facilitating the risk management within the entire organisation as well as providing expertise on risk issues. Furthermore, she partly performs the functions of security management. The Risk Management unit has assisted management to identify and evaluate the effectiveness of council's risk management system and contribute to the improvement of risk management and control systems. That has been done by taking the identified risks, categorizing them into low, medium and high risks for management to develop actions for mitigation.

T2.6.1

	Strategic Objective	Risk Description	Root Cause	Consequences	Current Control	Risk Owner
1	To inculcate entrepreneurial and Intellectual capabilities.	Demotivated workforce.	Lack of training. Skills mismatched. Lack of resources. Delays in filling of vacant position. No incentive for recognition. No system of delegation.	Poor performance. Low morale. Poor Service delivery. Litigations.	Works kills plan in place. Performance agreements. Draft PMS policy.	Senior Manager Corporate Services

Chapter 3

2	To strengthen record keeping & knowledge management.	Loss of information	Poor Archiving Poor record keeping Lack of succession plan	Negative audit opinion Litigations No value for money Institutional instability	IT systems in place Record management policy in place Storeroom back up Online reporting system	Senior Manager Corporate Services
3	To accelerate sustainable infrastructure and maintenance in all sectors of development.	Insufficient water provision	Lack of Water maintenance plan Lack of replacement program Ageing water infrastructure. Unmetered reservoirs Illegal water connections	Poor service delivery Community protest High maintenance and replacement costs Highest standing time High water losses Reduced capacity to deliver service.	Draft master plan Approved service standards Rapid response team	Senior Manager Water Services
4	To strengthen sustainable infrastructure and maintenance in all sector of development.	Illegal water connections	Uncoordinated developments/human settlements Inadequate water infrastructure network High backlog Uncoordinated plan	Loss of income High replacement costs	Bi-laws in place Water services Act Water service standards	Senior Manager Water Services
5	To promote democracy and sound governance.	Ineffective IGFR structures	Non participation by stakeholders Poor coordination Lack of information sharing No enforcement on performance indicators.	Duplication of functions Non alignment of projects/plans	IGR structure IGR framework IDP/Budget process	Senior Manager Office of the Executive Mayor
6	To improve community safety, health and social wellbeing.	Outbreak of communicable diseases	Unhealthy living environment (Air pollution, Unsafe water) Natural disasters Poor integration on health matters	Loss of life Ill health	Disaster management plan in place Outbreak response team RIMS Environmental management tools Bi-laws on Environmental health	Senior Manager Community Services
7	To increase revenue generation and implement financial control systems.	Inability to collect revenue.	None compliance with Water Service Level agreement by local municipality. Shortage of staff in the local municipality to work on water related transactions. None implementation of Credit control and Debt collection policy. Lack of collection of budgeted revenue.	Loss of revenue. Poor revenue collection. Non-compliance with legislations. Negative audit outcome.	Service Level Agreement with Local Municipalities. Credit Control and Revenue control policy.	Chief Financial Officer

Chapter 3

8	To promote efficient, effective, economic, sustainable and integrated use of land.	Sporadic land invasion	Informal land allocation by land owners Land invasion	Unsustainable development/ use of land	Implementation of SPLUMA, SDF, LUS, awareness workshops	Senior Manager Planning Development
			Lack of township establishment programs	Incompatible land uses Increased service delivery backlog Occupation of flood plains or disaster prone land Environmental degradation (global warming, destruction of ecosystem) Economic inefficiency on the use of land.		
9	To promote economic sectors of the district.	Uncoordinated strict development programmes.	Uncoordinated District Economic Development programs. No relationship between the municipality, departments and other agencies.	High unemployment rate. Food shortage. Poverty. Loss of trade investment.	LED Strategy and Tourism Strategy.	Senior Manager Planning Development
10	Promoting democracy and sound governance.	Delay in the completion of projects.	Incomplete projects	Community dissatisfaction that will lead to protest.	Public Participation Programmes.	Senior Manager Engineering Services
			Termination of projects			
			Community unrests.	Poor Service Delivery.		
			None implementation of public participation programmes.	Damage to municipal properties.		
			Lack on monitoring tool on issues raised by community.			

Chapter 3

			Environmental reports on service delivery not addressed.

2.7 ANTI-CORRUPTION AND FRAUD

FRAUD AND ANTI-CORRUPTION STRATEGY

Mopani, like most institutions does experience corruption which requires corrective measures for the creation of sound administration of the institution.

The municipality has implemented its Anti-corruption and Fraud Prevention strategy and the results are beginning to show up.

Details of the developed anti-corruption strategy are briefly related below.

PURPOSE OF THE STRATEGY

- ▶ Encouraging a culture within MDM where all employees, the public and other stakeholders continuously behave with, and promote integrity in their dealings with, or on behalf of the municipality.
- ▶ Improving accountability, efficiency and effective administration within MDM including decision-making and management conduct which promotes integrity.
- ▶ Development of anti-corruption capacity within the municipality.
- ▶ Improving the application of systems, policies, procedures, rules and regulations within the municipality.
- ▶ Changing aspects within MDM that undermine institutional integrity and facilitate unethical conduct, fraud and corruption and allow these to go unnoticed or unreported.
- ▶ Encourage all employees and other stakeholders to strive toward the promotion of integrity and for the prevention and detection of unethical conduct, fraud and corruption impacting, or having the potential to impact on the municipality.

PRINCIPLES OF THE STRATEGY

Mopani District Municipality Anti-corruption Strategy is informed by the following principles to root out corruption:

- ▶ The need for a holistic and integrated approach to fighting corruption, with a balanced mixture of prevention, investigation, prosecution and public participation as the platform for the strategy.
- ▶ District tailor-made strategies are required that operate independently but complimentary to provincial and national strategies, particularly with regard to detection, investigation, prosecution and adjudication of acts of corruption, as well as the recovery of the proceeds of corruption.

Chapter 3

- ▶ Acts of corruption are regarded as criminal acts and these acts can be dealt with either in the administrative or criminal justice system or both if need be. All aspects of the strategy are:
 - ▶ Supported with comprehensive education, training and awareness.
 - ▶ Coordinated within the district municipality.
 - ▶ Subjected to continuous risk assessment.

The following structures are in place to curb corruption in Mopani District:

- ▶ Audit committee: They have capacity to detect corruption acts through reports.
- ▶ Portfolio committees: They monitor and also provide political inputs at the planning stage of municipal programmes.
- ▶ Internal Audit unit: Promote professional ethics among employees.

Notes: See Chapter 4 details of Disciplinary Action taken on cases of financial mismanagement (T4.3.6). MSA 2000 S83(c) requires providers to be chosen through a process which minimizes the possibility of fraud and corruption.

T2.7.1

2.8 SUPPLY CHAIN MANAGEMENT

OVERVIEW SUPPLY CHAIN MANAGEMENT

T2.11.2.2

CHAPTER 3 – SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

INTRODUCTION

The Mopani District Municipality `s performance is based on the development priorities as in the IDP, the municipal key performance areas, strategic objectives and indicators in the IDP The Municipal Performance is calculated from all the indicators and projects applicable to the municipality as measured through its performance management system. The indicators and projects are collected into scorecards for General Indicators, Indicators contained in the IDP for 17/18 and SDBIP.

Chapter 3

The performance of the Key performance areas is as below:

T3.0.1

<All> (SDBIP Key Performance Areas)	Sep 17	Dec 17	Mar 18	Jun 18	Annual Performance of the Key Performance Areas
	AVG	AVG	AVG	AVG	Annual Average Performance
Good Governance and Public Participation	2.94	2.02	3.33	3.31	3.28
Financial Viability	2.10	2.68	2.51	2.51	2.50

COMPONENT A: BASIC SERVICES

This component includes: water; waste water (sanitation); electricity; waste management; and housing services; and a summary of free basic services.

INTRODUCTION TO BASIC SERVICES

The success of local economic development is tied to the provision of basic and other types of infrastructure services to the people. All services under analysis in this section are located in a specific locality (as per SDF) and have potential to boost socio-economic development (as per LED). Infrastructure analysis focuses on the status quo regarding water supply, sanitation facilities, energy, housing provision, roads and public transport, waste management and telecommunications – all of which underpin socio-economic development and determine a people's quality of life. The provision of adequate municipal infrastructure remains a challenge throughout the district.

T3.1.0

Chapter 3

.1. WATER PROVISION

INTRODUCTION TO WATER PROVISION

Note: Recent legislation includes the Water Services Act 1997 and the General Enabling Act 2005

Mopani District Municipality is a Water Services Authority for the whole District area and all its Local Municipalities have Water Service Provider (WSP) Agreements in place. The surface water in urban areas and rural areas are served through boreholes. MDM lies within and is benefitting from the following water catchment areas: Groot Letaba for GLM & GTM, Olifant for MLM & BPM and Klein Letaba for Giyani.

The Mopani district is characterized by low rainfall, especially in the lower-lying areas of the district, namely, Greater Giyani and Ba-Phalaborwa. This results in limited water resources culminating in severe water shortages and regular drought conditions. Subsequently, there is stiff competition between the different water users such as agriculture, mining and forestry. To this end, water use for domestic purposes becomes critical. The main surface water resources for Mopani district are Letaba River catchment and all its tributaries. There is a huge potential for usage of borehole water as an augmentation to the surface water resources.

There are over 20 (small and large) dams in the district with 9 being used for primary consumption (domestic, industrial and commercial) and most of the other dams are used for irrigation purposes. Some private small dams also exist and are used for irrigation purpose as well. The total yield from the dams for primary usage is 273 million m³ per annum. The agricultural sector uses the greatest portion of the available yield in the district, which is estimated at 70%, leaving 30 % for the other water users.

Bulk water supply in Mopani is characterised by numerous surface water schemes in various stages of full development to all consumer points. Water supply scheme clusters are well defined and the service area boundaries are well established. Major upgrading and refurbishment are needed at most localities. The Middle Letaba Sub Scheme area and Modjadji areas are in need of extensions to the existing bulk supply systems. In general, Mopani District is well provided with bulk water supply infrastructure. However, the reason why the supply of water is below the RDP level (25 litres per person per day) is the shortage of pipeline reticulation within villages. MDM gets bulk water from the Lepelle Northern Water Board, treat the water and channel that to reservoirs in villages/ settlements in the five local municipalities. Local municipalities are responsible for reticulation in villages. MDM operates 21 water schemes, 62 pump stations, 19 water treatment works, over 1400km min pipelines, over 500 reservoirs and thousands of boreholes. Further analysis of water sources is depicted in the following table, with numbers of households benefitting

Ba-Phalaborwa municipality has adequate reticulation system, followed by Greater Tzaneen Municipality, Greater Letaba Municipality and then Greater Giyani Municipality. The limited availability of infrastructure in Greater Giyani is attributed to the fact that the villages in the Greater Giyani area are spatially scattered, resulting in difficult and expensive processes to provide water supply pipelines in the villages. It is also deduced that the major factor contributing to shortage of water is related to social aspects. These aspects are mainly vandalism of infrastructure, especially communal boreholes, lack of willingness from the consumers to pay for their water services and illegal (unauthorized) connections of pipelines by communities. These problems are usually prevalent in rural areas than urban areas. Over-usage of water is generally observed in most of the areas, amounting to more than 150 litres per person per day in both towns and villages. Communities are yet to do more to save the already scarce water.

Chapter 3

The majority of households in Ba-Phalaborwa (77, 3%) have access to RDP standard water, Greater Tzaneen at 53, 6%, Greater Letaba at 60, 7%, Greater Giyani at 57,3% and Maruleng the lowest at 49,9%. However, taking a look at the households access to the various sources of water per local municipality as a percentage of the district, it becomes clear that the level of services are higher in Ba-Phalaborwa with 35, 3% of the households within the district with access to water inside their dwellings, especially when taking into consideration that only 12, 9% of the households in the district reside in Ba-Phalaborwa. The smaller population and the absence of many scattered villages in Ba-Phalaborwa, compared to e.g. Greater Giyani, probably contributed to this.

All municipalities in the district are providing free basic water to some extent (6000 litres per household per month) with almost none providing free basic waste removal. To eradicate the water backlog, Mopani district as the water services authority has prioritized water services as the first service among all the other services. The Department of Water Affairs (DWA) have completed the establishment/ construction of the N'wamitwa Dam and the raising of the wall of the Tzaneen Dam to address the water shortage problem in the district.

					T3.1.2

Chapter 3

COMMENT ON WATER USE BY SECTOR:

MDM contributes to the economy by providing water supply to three sectors of the economy namely; Agriculture, Forestry, Industries and for domestic use. The water use by the Agriculture sector for 2016/17 and 2017/18 remains relatively the same. Use in the Forestry and Industrial sector has increased in 2017/18 when compared to 2016/17. Water supply for domestic use has also increased in 2017/18 compared to 2016/17. The increase in usage is as a result of increased access to water supply through completed infrastructure projects, refurbishment and drilling of boreholes in areas experiencing shortages in water supply.

T3.1.10

3.2 WASTE WATER (SANITATION) PROVISION

INTRODUCTION TO SANITATION PROVISION

Provide brief introductory comments on your strategy for the provision of Sanitation Services and progress being to redress any shortfall in basic standards of service provision by 2012 and with particular reference to progress made in 2017/18 (include your top 3 service delivery priorities and the impact you have had on them during the year). Set out measures taken to improve performance and the major efficiencies achieved by your service during the year. Indicate how your municipality identifies and responds to those communities that are living in poverty and are deficient in this basic service. Give the name and extent of service provision of any municipal entity(ies) responsible for rendering Sanitation Services within the municipality. Comment on trends in Sanitation provision as reflected below and on more specific issues concerning Sanitation Service and demand as appropriate.

COMMENT ON SANITATION SERVICES PERFORMANCE OVERALL:

MDM has a total number of 327 466 which equates to 96.2% of the community households which have access to sanitation services, whereas 3.8% has no sanitation services in their communities.

Chapter 3

At least Greater Letaba has a backlog of 1,4% without sanitation services. The municipality that has the highest backlog is Greater Giyani Municipality with 8,2%. The municipality that has the lowest is Greater Letaba with 1,4% followed by Greater Tzaneen with 1,7%.

T3.2.10

3.3 ELECTRICITY

INTRODUCTION TO ELECTRICITY

Energy distribution has important economic development implications with a potential to make a considerable development impact. This impact relates to improved standard of living in which people are able to use electric stoves for cooking, electronic equipment such as TVs, sound systems, lights, etc. It also enable people to establish small businesses such as welding, catering and other mechanical works.

In Mopani, electricity is largely provided by ESKOM. Only two Local municipalities (BPM & GTM) are licensed to provide electricity. The GGM, MLM and GLM are fully dependent on ESKOM. Mopani District Municipality has a role of providing bulk electricity to the local municipalities. However, this function is yet to be fully undertaken. National government in consultation with the South African Local Government Association (SALGA), ESKOM and other stakeholders are engaged in discussions regarding the restructuring of the Electricity Distribution Industry in South Africa with the aim of ensuring that the industry is able to meet the needs of electricity consumers in the country and improve the roll out of electricity.

The four local municipalities in the district have signed the service level agreement with ESKOM for the rolling out of Free Basic Electricity to indigent households in the district. Each poor household is entitled to 50KWh per month. It has been found that most of the people in rural areas and amongst low income households, continue to use a range of energy sources like wood to meet their needs, irrespective of whether their houses are electrified or not. In addition, inefficient energy use compounds poverty: housing without ceilings and a complete lack of accessible information to users on appropriate and efficient energy use condemn poor households to a future of high energy costs.

Totals should equate to those included in the chapter 4 total employee schedule. Employees and posts numbers are as at 30 June. *Posts must be established and funded in the approved budget or adjustment budget. Full-time equivalents are calculated by taking the total number of working days lost (excluding weekends and public holidays) while a post remains vacant and adding together all such days lost by all posts within the same set (e.g. senior management) then dividing that total by 250 to give the number of posts equivalent to the accumulated days.

T3.9.8

COMMENT ON THE PERFORMANCE OF STORMWATER DRAINAGE OVERALL:

The component is not applicable in the Municipality

T3.9.9

COMPONENT C: PLANNING AND DEVELOPMENT

This component includes: planning; and local economic development.

INTRODUCTION TO PLANNING AND DEVELOPMENT

Mopani District Municipality (MDM)'s Vision is: 'To be the food basket of Southern Africa and to be the' tourism destination of choice'. It is therefore necessary to give attention to the four key sectors (Agriculture, Mining, Tourism, Trade and Manufacturing) which contribute towards the achievement of the MDM Vision. **The following are among the opportunities identified during quarterly stakeholder's discussions that resonate within the District:**

- _ The Development of an integrated GIS which will enable the District and its locals to depict and share planning information.
- _ The rich cultural diversity, which if fully tapped into, could turn the District into the destination of choice.
- _ The District has a huge potential on the Agricultural and Mining value chain. Particularly if the potential is linked to the plans of Revitalisation of Industrial Parks Plans.
- _ The above can be attained through the identified strategies of determining market gaps, Institutional Capacity building and organisational support as well as Production and supplier development for SMMEs and Partnerships

Chapter 3

Integration of plans and budgets for all role-players remains a challenge as IDP processes have not yet reached the ideal state. The resuscitated Technical Committees comprising of the District, Local Municipalities and Sector Departments will in time resolve the challenge referred to above.

T3.10.0

3.10 PLANNING

INTRODUCTION TO PLANNING

The planning strategies applied include among others; development and review of SDF, Land Use Scheme Development, Land Use Applications Determination, legislative and policy technical capacity building.

3.10.1. Development and review of SDF

The SDF stands for Spatial Development Framework aimed at guiding growth of the district communities spatially. It is a key tool for spatial decision-making when allocating various land development and land uses. The SDF was 50% complete by the end of July 2018 where the other 50% is targeted to be completed by end of March 2019.

3.10.2. Land Use Scheme Development

Section 24(1) of Spatial Planning and Land Use Management Act (SPLUMA), 16 of 2013 requires that all municipalities must develop and adopt a single land use scheme for the entire municipality within five years of the promulgation of the SPLUMA. SPLUMA took effect from July 2015 hence all municipalities must develop their SPLUMA aligned Land Use Schemes by 2020. One of the planning strategy is thus to support local municipalities to comply with this requirement. During 2017/2018 the district could not support any local municipality on land use scheme development due to insufficient budget but allocation was made for the purpose during 2018/2019.

10.3. Land Use Applications Determination

Section 34 of SPLUMA provides that district municipalities may establish a District Municipal Planning Tribunal to determine land development and land use applications within its district jurisdiction. Mopani District Municipality established a district municipal planning tribunal for the purpose in 2016. In 2016/2017 25 applications were determined by the municipal planning tribunal and in 2017/2018 34 applications were determined in the district making a total of 59 applications. There was one major impact application with a potential of appointing over 800 jobs.

T3.10.7

3.11 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

INTRODUCTION TO ECONOMIC DEVELOPMENT

Local Economic Development (LED) is an approach towards economic development which allows and encourages local people to work together to achieve sustainable economic growth and development thereby bringing economic benefits and improved quality of life for all residents in Mopani District.

LED is intended to maximise the economic potential of all Municipal localities throughout the country and, to enhance the resilience of the macro-economic growth through increased local economic growth, employment creation and development initiatives within the context of sustainable development.

The key strategic thrusts identified in the MDM LED strategy can exert the most influence in order to foster a prosperous economy within the District, i.e. Agriculture, Tourism, Mining and Trade & Manufacturing.

Mopani District Municipality was able to create conducive economic environment during the 2017/18 through, among others, the quarterly sessions with LED practitioners in the form of HOD/Technical committees, LED Fora, Economic summit, Tourism events including exposing SMMEs at Durban Indaba, training for SMMEs and discussions with different partners with the intention of future signing of MOUs.

COMMENT ON LOCAL JOB OPPORTUNITIES:

The LED supports local SMMEs by creating a conducive environment to create job opportunities. The LED Forum was resuscitated on the 06 Jul 2017 to serve as a platform for Local Economic Development engagements not limited to employment creation opportunities. Sessions were conducted with various stakeholders to engage on IDP processes

The District Municipality has through the Tourism trade shows exposed SMMEs from all the five local Municipalities to the market whereby exhibition facilities were procured and transportation was arranged for the selected SMMEs

COMMENT ON LOCAL ECONOMIC DEVELOPMENT PERFORMANCE OVERALL:

The Planning and Development Directorate brought in a number of initiatives which lead to the achievement of a number of LED initiatives and strengthened partnership in 2017/18. The LED forum was established and LED Fora were coordinated successfully, the District Economic Summit was successfully coordinated and held, LED Strategy successfully aligned with the IDP during Stakeholder sessions, coordination of trainings and promotion of SMMEs and trade shows were successful without hindrance. A conducive environment for EPWP coordination was created through the establishment of MDM EPWP Steering committee. Trainings conducted in collaboration with Seda

COMPONENT E: ENVIRONMENTAL PROTECTION

This component includes: pollution control; biodiversity and landscape; and coastal protection.

INTRODUCTION TO ENVIRONMENTAL PROTECTION

T3.59.0

3.59 POLLUTION CONTROL

INTRODUCTION TO POLLUTION CONTROL

The Mopani District Municipal area is faced with environmental risks and trends that lead to environmental degradation. In order to ensure that development activities carried out by Mopani District Municipality are sustainable, the IDP of Mopani District had considered environmental and socio-economic issues in an integrated manner in decision making, project planning and implementation.

It is clear that individuals, communities and government need to come up with programmes to bring awareness on the causes and effects of global warming and together strategies on control measures for decreasing emission of the gases that exacerbate temperature increase in the atmosphere. The situation in Mopani calls more on the matter since the demographic dynamics indicate that 81% is rural and therefore vulnerable to any

Chapter 3

natural hazards without clear mechanisms to combat. Organic agriculture should be encouraged, land use schemes should be managed, veld fires be controlled and deforestation be prohibited.

In order to ensure that there is balanced considerations of environmental and socio-economic in municipal projects planning, all infrastructure projects are screened to check if an Environmental Impact Assessment might be required or not. This is in line with the EIA regulations enacted under the National Environmental Management Acts No: 107 of 1998. Compliance of projects to other legal requirements as outlined by other acts and regulations is also screened before project implementation. This includes compliance with Acts and regulations such as the National Water Act No 36 of 1998, Minerals and Petroleum Resources Development Act No: 28 of 2002, National Heritage Resources act No:25 of 199, section 24 of the Constitution of The Republic of South Africa of 1996 etc

T3.59.1

SERVICE STATISTICS FOR POLLUTION CONTROL

Mopani District in particular is facing challenges in water and air pollution. The major cause of water pollution in Mopani is uncontrolled illegal dumping of wastes throughout the district and unattended sewage spillages. Several cases of illegal dumping of wastes along the river banks and in water bodies has been reported and observed in Greater Giyani and Greater Letaba municipalities. According to the State of Rivers Report for Letaba and Luvuvhu produced by DWS, water pollution in Mopani district is also worsened by deforestation activities associated with fuel-wood collection and agriculture along the river banks and within the riparian zones in the catchments areas. The lack of water-borne sewerage systems leads to the contamination of ground water.

The most noted water pollution takes place in the Murhogolo stream between Giyani shopping complex and government offices, the Thabina River from Mogoboya downstream, at the Klein and Groot Letaba rivers as well as Molotodzi which is highly choked with solid waste. Water is life and the necessity to conserve it cannot be overemphasized or postponed since it cannot be created. Individual members of communities, sector departments and private institutions need to take conscious decision on its conservation and prevention of water pollution.

COMMENT ON THE PERFORMANCE OF POLLUTION CONTROL OVERALL:

The municipality managed to monitor all water sources by taking water samples (300) to confirm quality standards, and forms of pollution . Feacal pollution (i.e human feaces) is the dominant source of pollution in our rivers and streams..moor pads were laid for Cholera and Typhoid monitoring. 18 inspections were conducted at sewage treatment plants and 6 were compliant while 12 were noncompliant. 17 Health care facilities were inspected for health care risk waste management 12 were compliant. 05 were noncompliant. Monitoring was conducted 4 times on illegal dumping sites, i.e. 1 for burning of tyres, 1 for burning of refuse and 2 for illegal dumping.

T3.60.7

COMPONENT F: HEALTH

This component includes: clinics; ambulance services; and health inspections.

INTRODUCTION TO HEALTH

The challenge of the health sector in South Africa is to develop a unified national health system capable of delivering quality health care to all citizens efficiently and in a decent environment. The provision of health facilities to all settlements in the district is a problem because of the large number of settlements (varying in size), with the majority of them being relatively small and scattered throughout the district. A simplified calculation of the number of people per hospital per local municipality would not provide a true reflection of the actual situation, as hospitals provide services to communities across municipal boundaries and international

Chapter 3

refugees. The Health plan has been reviewed and further details will be unpacked adequately therein. District Health Council and the AIDS Councils to govern health activities in the district are also established and functional. The prevalence of HIV and AIDS has resulted in the increase of child-headed families without any source of income in the province. However, the Department of Social Development has been proactive in providing child support grants

3.66 FIRE

INTRODUCTION TO FIRE SERVICES

Chapter 3

Mopani has established a fully-fledged unit for fire services in the District. Each local municipality is allocated an operational Fire station in the following areas: Tzaneen, Giyani, Modjadiskloof, Phalaborwa and Hoedspruit. Every station ensures twenty-four hour services to communities, in the following services:

- ☐ Saving lives and property
- ☐ Responding to motor vehicle accidents and incidents
- ☐ Specialised search and rescue incidents (high angle, swift water, confined space, trench rescue, hazardous substance, aircrafts & train incidents)

The District Municipality is striving to improve the working relationship with communities, private institutions and sector departments in addressing the problems. Fire protection Associations are established in GLM, GTM, BPM and MLM.

3.66.1

Metropolitan Fire Service Data					
	Details	2015/16	2016/17		2017/18
		Actual No.	Estimate No.	Actual No.	Estimate No.
1	Total fires attended in the year	1227	470	1227	1300
2	Total of other incidents attended in the year	750	920	994	1050
3	Average turnout time – urban areas	3 Min	3 Min	3 Min	3 Min
4	Average turnout time – rural areas	30 Min	30 Min	30 Min	30 Min
5	Fire fighters in post at year end	59	74	86	86
6	Total fire appliances at year end	38	38	36	36
7	Average number of appliance off the road during the year	30	30	35	35
					T3.66.2

Concerning T3.66.2

The average turn- around time to respond to an emergency call is 30 minutes due to bad roads and sometimes due to misallocation of the actual incident place. Our villages and facilities are not yet captured in the GIS. The process of mapping all our villages and facilities in the GIS has started. Delete Directive note once table is complete - T3.66.2.1

COMMENT ON THE PERFORMANCE OF FIRESERVICES OVERALL:

Oure prioritised Disaster Management projects includes Vehicle Tracking System, Upgrading of Command Vehicles and the Upgrading of the Communication Centre. The total budget for management of disasters was R23 671 715. The total Capital budget for the projects is R3 600 000; and we managed to meet our set targets

T3.66.7

3.67 OTHER (DISASTER MANAGEMENT, ANIMAL LICENCING AND CONTROL, CONTROL OF PUBLIC NUISANCES AND OTHER)

INTRODUCTION TO DISASTER MANAGEMENT, ANIMAL LICENCING AND CONTROL, CONTROL OF PUBLIC NUISANCES, ETC

Disaster Management is a continuous and integrated multi-sectoral and multi-disciplinary process of planning and implementation of measures aimed at disaster prevention, mitigation, preparedness, response, recovery, and rehabilitation (Disaster Management Act 57 of 2002), so as to minimize the impact upon lives, environment and natural resources. The following hazards are posing the greatest risks in the District on the economy, cultural, welfare, sustained development and sustained livelihoods. The Disaster Management Act (Section 53) requires the Mopani District Municipality to take the following actions:

- ☐ Prepare a disaster management plan for its area according to the circumstances prevailing in the area.

Chapter 3

2 Co-ordinate and align the implementation of its plan with those of other organs of state and institutional role players, and

2 Regularly review and update its plan.

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

INTRODUCTION TO CORPORATE POLICY OFFICES, Etc

Chapter 3

Thirteen policies related to governance of Information Technology were reviewed and adopted by Council. This component includes: corporate policy offices, financial services, human resource services, ICT services, property services,

3.69 EXECUTIVE AND COUNCIL

This component includes: Executive office (mayor; councillors; and municipal manager).

INTRODUCTION TO EXECUTIVE AND COUNCIL

Three-year IDP targets for the performance of the executive and council has been set as i.e. ensure clean audits, 100% implementation of audit committee recommendations, audit charter developed, compliance with internal audit plan, review of risk register, implementation of risk mitigated plans, compliance to legislative requirements, investigation of anti-corruption cases, submission of Annual Performance Report within timeframe and average organizational performance rating, integration of electronic systems, training of staff, filling of vacant positions, mitigation of industrial relations and employee performance reviews.

Strategies to achieve the above mentioned targets are i.e. regarding audit to Review the audit charter annually. Ensure that identified internal controls are in place. Development of three years and annual internal audit plan. Ensure compliance and consistent adherence to policies (continuous monitoring and reporting).

To strengthen and support oversight regarding Risk Management through the strategies of to conduct risk assessment to ensure risk reduction; Review Enterprise Risk Assessment annually; Ensure that identified risks according to the Risk Assessment are minimised and addressed; Vetting of qualifications and security matters; Conduct auditing of internal controls; Investigating all allegations of fraud and corruption and enforcement of disciplinary and criminal actions. Regarding monitoring and evaluation, the implementation of a procedure manual for monitoring, evaluation and reporting has been developed. Building capacity at the level below S57 to take place to ensure continuity of knowledge that has been built. Regarding legal services, strategies are i.e. intensification of the implementation of anti-corruption strategy. Disseminate the strategy to all employees and Councillors. Utilisation of the hotline to address reported cases of alleged corruption. Once the hotline is in place, review the strategy. Strategies to improve the human resources function are i.e. conduct skills audit. Twinning or employee exchange programme to be directed at employees that are struggling on certain issues. These identified employees to be referred to other institutions for practical learning. Develop training programmes to address competencies in organisation. Develop and implement coaching and mentoring programme. Develop and submit workplace skills plan. Ensure people are training according to competency assessment and skills audit. Monitor and evaluate the impact of training. Sponsor comprehensive development programme based upon identified criteria. Ensure that skilled personnel are retained and awarded. Attract and appoint skilled and competent staff in appropriate positions. Conduct an analysis of vacancies vis-a-vis the organogram. Development and implementation of succession planning strategy. Embark upon a coaching and mentoring programme. To improve employee monitoring and reporting the aim is to promote accountability and responsibility. Implementation of disciplinary procedures. Develop Change and Diversity Management

Chapter 3

Programme. Completion and implementation of Personal Development Plans for S57 and contractual managers. Cascading of employee performance management to all levels. Ensure monitoring and coaching and creation of awareness of organisation culture. Implement motivational strategies within the organisation. Monitor whether focused and disciplined workforce has been establish.¹

T3.69.6

COMMENT ON THE PERFORMANCE OF THE EXECUTIVE AND COUNCIL:

The following areas were identified as having the highest number of backlogs in terms of basic water supply; Jopie Mawa, Tours, Sefotse and Thapane. Upon approval by council for implementation of these projects. In the 2017/18 FY MDM had an MIG allocation of 444 478 000, The projects outlined on the above table had a total budget of 281 037 479.27 amounting to 63.2% of the allocation. These projects were planned to address the Bulk Water Supply and water reticulation in Jopie Mawa, Tours, Sefotse, Thapane and surrounding areas where the projects are being implemented. A variance / adjustment of 17 486 736,50 was encountered due to the need to carry out specialised services to assist in forward planning for the works to be carried out in the 2018/19 Financial Year. The project values indicate that these projects are implemented as multi-year projects and will be completed over an estimated period of three (3) years in order to eradicate the backlogs of services as previously identified. The projects also contributed a large portion of the 2018/18 MIG expenditure. T3.69.7

5*3.70 FINANCIAL SERVICES

INTRODUCTION FINANCIAL SERVICES

The top priorities are water and sanitation, the impact of this is that the district does not receive actual revenue collected on the priorities and it is impact on the cash flow, The municipality is intending to take over the function do it no longer done by local municipalities so that it has a closer monitoring of the function and collection. 3.72 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

This component includes: Information and Communication Technology (ICT) services.

INTRODUCTION TO INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

Mopani District Municipality has long acknowledged that ICT plays a pivotal role in enabling the municipality to carry out its mandate, execute its powers and functions, and realise its strategic objectives. The municipality recognize that ICT's can be better leveraged to effective administration, service delivery and socio-economic development and are therefore integral to the functioning of the municipality. It is for this reason that the municipality established IT Unit within its Corporate and Shared Services Directorate. Gaps identified in the areas of governance of ICT, strategy, organisation structure and staffing in the ICT Unit, processes, applications, technologies, and information in the ICT function are being address, and the municipality is making strides with the limited resources at its disposal. The appointment of Systems & Networks Officer to increase staffing in the IT Office to two personnel, although not adequate, has improved municipality improved staffing in the IT Office

Chapter 3

and delivery of IT services and performance in the municipality. Further proposals for improvement of staffing in the unit were forwarded during the organisational structure review in the institution.

During the period under review, the municipality reviewed its Strategic Information System Plan (SISP) to align it with developments within the organisation, local government sphere, legislation, trends in technologies, and requirements within the community where it operates.

In order to mitigate against the risk of loss of critical data and information system in cases of natural and other risk factors the municipality developed and adopted an IT Disaster Recovery Plan (DRP).

The process of refreshing information systems infrastructure took off with the design, construction, and commissioning of the new server room in the main office in Giyani to replace the old server room which did not meet the required standards. The server room was also equipped with current technologies for data storage and manipulation, environment monitoring, security, and firefighting. Newer and current servers with increased availability, reliability, processing power, and storage replaced old and obsolete servers.

Chapter 3

COMMENT ON THE PERFORMANCE OF ICT SERVICES OVERALL:

During the period under review only two major capital projects we planned and achieved, namely Giyani Server Room Designed and Construction and Server Room Equipment. The two projects were aimed at attaining the strategic objective “Manage through Information”.

The project for equipping the server room was attained within allocated capital budget, however the server room design and construction had a budget overrun of 15 percent due to a one percentage increase in the rate of value added tax and the variation in the technical specifications due to the fact that the room which was to be utilised had not been appropriately prepared by the landlord for use as the server room.

COMMENT ON THE PERFORMANCE OF PROPERTY SERVICES OVERALL:

Chapter 1

In the 2017/18 financial year, MDM has managed to connect more than 10400 new households to the water system. Previously the households had to fetch water from a distance over 200m from their households.

T3.73.7

T4.6.5

COMPONENT J: MISCELLANEOUS

The following are the airports and landing strips available in the Mopani District Municipality and the economic activity around each LM:

- ▶ Hoedspruit (Maruleng) airport and landing strip
- ▶ ZZ2 (GLM) – agricultural produce (tomatoes)
- ▶ Ba-Phalaborwa – mines
- ▶ Eiland (Ba-Phalaborwa) – tourism
- ▶ Tzaneen – agricultural produce
- ▶ Siyandani (in Giyani) – shopping, mines, agriculture

INTRODUCTION TO MISCELLANEOUS

Hoedspruit airport was originally and solely used by military air force. It is now commercial and it caters for airlines from Hoedspruit to Gauteng and Cape Town and is used by public and also game hunting tourists. The one landing strip in Giyani (Siyandani) is owned by Government but its condition is not maintained. Cattle and other animals roam on it. Other air strips are privately owned and may not be relied upon for commercial purposes for either goods or public. The District has not as yet taken over

Chapter 4

CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE

(PERFORMANCE REPORT PART II)

INTRODUCTION

The purpose of conducting an institutional analysis is to ensure that the municipal development strategies take existing institutional capacities into consideration and that institutional shortcomings are addressed. Mopani District Municipality was established in 2000 in terms of the Municipal Structures Act, 1998 (Act No. 117 of 1998). The municipal offices of the district are situated in the government complex in Giyani in the Greater Giyani Municipality. The District Disaster Management centre is built in Tzaneen town and is in full use including Fire services.

Offices for local municipalities are located as follows:

Maruleng Local Municipality.....Hoedspruit Town

Greater Letaba Local MunicipalityModjadiskloof Town

Greater Tzaneen Local MunicipalityTzaneen Town

Ba-Phalaborwa Local MunicipalityPhalaborwa Town

Greater Giyani Local MunicipalityGiyani Town

The management arrangement of the institution needs continual attention in order to adapt to changing needs and demands. Hence, annual review on the filling in of vacant posts and an on-going management training. There is also a need to define the distinct roles of the various sub-units in the Municipal Manager's Office and their collective mandate in ensuring that the Office of the Municipal Manager is able to discharge the following responsibilities distinctly and with excellence.

COMMENT ON VACANCIES AND TURNOVER:

At the time of the reporting period, there were only 8 Snr managerial positions and only 2 were vacant, and out of 31 positions in the middle management echelon and only 3 were vacant. No challenges were experience this period in relation to recruitment of Snr and Middle managers

T4.1.4

T4.6.5

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

INTRODUCTION TO MUNICIPAL WORKFORCE MANAGEMENT

Supply the 17/18 figures

The Municipality employed 720 people during the 17/18 financial year. It incurred 60% vacancy rate with the post of a permanent Corporate Services Director being vacant. High vacancy rates also existed for highly skilled supervision levels 9-12 (excluding finance posts) at 83% and Fire Fighters at 63.5%. Other challenges were:

- Office space is one limiting factor on appointing units that are office-bound. There is only one block in the parliamentary complex that is full. Some of the Units like, Internal Audit and GIS are accommodated at the Disaster Management center in Tzaneen. Mopani has 24 disabled employees, which is 3,2% of the current

Chapter 4

workforce. MDM has thus exceeded the 2% threshold required of the staff complement being disabled persons.

- There are over 600 staff members transferred from DWA. The challenge is that operational cost to MDM has risen and will impact on means for service delivery.
- MDM do not have full spread of racial diversities. There are largely Ba-pedi, Va-tsonga, Va-Venda and some few Afrikaans. This is informed proportionally by the racial spread of the District. There are also those cases of people who would prefer to work in an urban environment rather than rural area (Giyani) where Mopani District Head office is located.²

T4.3.3

T4.6.5

COMMENT ON INJURY AND SICK LEAVE:

The Municipality is currently at moderate level of 20% rate with regard to reduction of Occupational Injury incident, and relation to sick leave, HR record reflects the total of 795 days taken by employees during the reporting period. This was enhanced by creating awareness during inductions, awareness campaigns and developing OHS posters that are circulated monthly through email to everybody /staff, and making constant follow up to Doctors with regard to pending Injury on Duty case and also by circulating Injury on Duty reporting procedure to all employees by email and by pasting on notice boards.

	Male	n/a	n/a	n/a	n/a
MM and S57	Female	n/a	n/a	n/a	n/a
	Male	n/a	n/a	n/a	n/a
Total					

COMMENT ON PERFORMANCE REWARDS:

No performance rewards were paid to employees in the financial year because council does not yet adopt the policy, which guides cascading down of Performance Management System.

T4.4.1.1

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

INTRODUCTION TO WORKFORCE CAPACITY DEVELOPMENT

The total approved posts of the municipality are 1244 for which 645 posts were filled during the reporting period and 599 posts remained vacant. The water services directorate has the highest vacancies at 593 due to the increasing number of retirements, death cases and resignations. For the period under review, a total of 43 employees have gone on retirement, 15 passed on, 12 resigned, two

Chapter 4

(2) were dismissed after disciplinary processes and 1 the contract expired. The total number of Councillor's for the municipality is 51 and 1 passed on Organogram review was conducted in 17/18

T4.5.3										

COMMENT ON SKILLS DEVELOPMENT AND RELATED EXPENDITURE AND ON THE FINANCIAL COMPETENCY REGULATIONS:

The municipality has a Workplace Skills Plan as approved by the LGSETA. Programmes were implemented as per the WSP although some of the programmes comes from the stakeholder component (SALGA and other government structures) as part of cooperatives and inter-governmental relations.

The low expenditure was as a result of the delay appoint training providers by SCM and that the municipality continues to benefit from learnerships and skills programmes as funded by the LGSETA.

The municipality has also managed to implement Circular 60 on minimum competency from the National treasury on Senior Managers including Budget and Treasury personnel.

T4.6.6

Chapter 5

CHAPTER 5 – FINANCIAL PERFORMANCE

Containing inflationary pressures

The cost of the consultants are calculated as a percentage of the total project cost. Inflationary pressures are not necessarily prevalent in that the percentage is fixed. The only area of sensitivity to inflation is the project construction costs. These costs are contained through rates negotiations with the contractors keeping in mind the rate of inflation.

Costs

The consultants cost the municipality 17.5% of the total allocation for the financial year of R444 million, which comes to R77.7 million.

Reason for engagements

The consultants are mainly engaged to supervise the water and sanitation projects. The nature of the projects are such that the contractors' work need to be monitored by the consultants for verification of works.

Results

The projects deliverables have been achieved except in certain areas where delays are experienced on the part of the contractors mainly due to financial inabilities.

T5.0.1

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

The municipality is mainly grant dependent, with grants contributing 40% of total income. The debt collection rate is very low putting the municipality in a tough liquidity position. There is a huge debt book relating to purchases of water from the water boards putting further pressures on the municipality's financial health.

Total expenditure						
In this table operational income (but not levies or tariffs) is offset against operational expenditure leaving a net operational expenditure total for each service as shown in the individual net service expenditure tables in chapter 3. Variances are calculated by dividing the difference between actual and original/adjustments budget by the actual.						

T5.1.2

The revenue collection rate on own revenue, for water and sanitation, was at the lowest due to weak internal revenue collection mechanisms. Spending on projects that are own funded was also at the lowest due to delays in procurement processes.

Operational expenditure relating to employee costs escalated mainly due to legacy backlog on employee benefits that were not budgeted for.

The revenue from the Water Services Infrastructure Grant is significantly low due to delays in appointment procurement processes.

5.3 ASSET MANAGEMENT

INTRODUCTION TO ASSET MANAGEMENT

Effective management of infrastructure and community facilities is central to the municipality providing an acceptable standard of services to the community. Infrastructure impacts on the quality of the living environment and opportunities to prosper. Not only is there a requirement to be effective, but the manner in which the municipality discharges its responsibilities as a public entity is also important. The municipality must demonstrate good governance and customer care, and the processes adopted must be efficient and sustainable. Councillors and officials are custodians on behalf of the public of infrastructure assets, the replacement value of which amounts to several hundred million Rand.

Key themes introduced in the latest generation of national legislation relating to municipal infrastructure management include:

- long-term sustainability and risk management;
- service delivery efficiency and improvement;
- performance monitoring and accountability;
- community interaction and transparent processes;
- priority development of minimum basic services for all; and
- provision of financial support from central government in addressing the needs of the poor.

Legislation has also entrenched the Integrated Development Plan (IDP) as the principal strategic planning mechanism for municipalities. However, the IDP cannot be compiled in isolation for the above objectives to be achieved. The IDP needs to be informed by robust, relevant and holistic information relating to the management of the municipality's infrastructure.

There is a need to direct limited resources to address the most critical needs, to achieve a balance between maintaining and renewing existing infrastructure whilst also addressing backlogs in basic services and facing ongoing changes in demand. Making effective decisions on service delivery priorities requires a team effort, with inputs provided by officials from all departments of the municipality.

Cooperative Government and Traditional Affairs CoGTA has prepared guidelines in line with international practice, that propose that an Infrastructure Asset Management Plan (IAMP) is prepared for each sector (such as water, roads etc). These plans are used as inputs into a Comprehensive Infrastructure Plan (CIP) that presents an integrated plan for the municipality covering all infrastructures. This is in line with the practice adopted in national and provincial spheres of government in terms of the Government-wide Immoveable Asset Management Act (GIAMA).

Chapter 5

Accordingly, the asset register adopted by a municipality must meet not only financial compliance requirements, but also set a foundation for improved infrastructure asset management practice.

The Municipal Manager, being the accounting officer of the municipality, is responsible for the following in terms of section 63 of the Municipal Finance Management Act (Act No. 56 of 2003):

- The assets of the municipality, including the safeguarding and the maintenance of those assets;
- Ensuring that the municipality has and maintains a management, accounting and information system that accounts for the assets of the municipality;
- Ensuring that the municipality's assets are valued in accordance with the Standards of Generally Recognised Accounting Practice (GRAP); and
- Ensuring that the municipality maintains a system of internal control of assets, including an asset register.

The Municipal Manager shall ensure that:

- An Asset Management Committee is established, through which all asset processes and procedures will be implemented.
- The municipality has and maintains a management, accounting and information system that accounts for the assets of the municipality;
- The municipality's assets are valued in accordance with the standards of generally recognised accounting practice (GRAP);
- The municipality has and maintains a system of internal control of assets, including an asset register; and
- The Directors and their teams shall comply with the Asset Management Policy

T5.3.2				

COMMENT ON ASSET MANAGEMENT:

Municipal assets (such as infrastructure and community facilities) are the means by which the municipality delivers a range of essential municipal services. Consequently the management of such assets is critical to meeting the strategic objectives of the municipality and in measuring its performance. The goal of asset management is to meet a required level of service, in the most cost-effective manner, through the management of assets for present and future customers.

The core principles are:

- taking a life-cycle approach;
- developing cost-effective management strategies for the long-term;
- providing a defined level of service and monitoring performance;
- understanding and meeting the impact of growth through demand management and infrastructure investment;
- managing risks associated with asset failures;
- sustainable use of physical resources; and
- continuous improvement in asset management practices.

MBRR Table A9

T5.3.3

Repair and maintenance expenditure 2017/18				R`000
	Original budget	Adjustment budget	Actual	Budget variance
Repairs and maintenance expenditure	88 622	178 895	64 406	114 489
				T5.3.4

COMMENT ON REPAIR AND MAINTENANCE EXPENDITURE:

The maintenance plan in respect of every new infrastructure assets was not adequately prepared. The repairs and maintenance vote is not adequately monitored. Every director is responsible for ensuring that all assets (other than infrastructure assets) are properly maintained and in a manner which will ensure that such item attain their useful operating lives.

T5.3.4.1

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

Chapter 5

Cost Coverage

Cost Coverage – It explains how many months expenditure can be covered by the cash and other liquid assets available to the Municipality excluding utilization of grants

Total Outstanding Service Debtors

Total Outstanding Service Debtors – Measures how much money is still owed by the community for water, electricity, waste removal and sanitation compared to how much money has been paid for these services. It is calculated by dividing the total outstanding debtors by the total annual revenue. A lower score is better. Data used from MBRR SA8

Ratio	Basis of calculation	15/16	16/17	17/18	current year unaudited
-------	----------------------	-------	-------	-------	------------------------

Chapter 5

O/S Service Debtors to Revenue	Total outstanding service debtors/annual revenue received for services	319.4%	312.6%	272.6%	272.6%
--------------------------------	--	--------	--------	--------	--------

Ratio	Basis of calculation	15/16	16/17	17/18	current year unaudited
Debt coverage	(Total Operating Revenue - Operating Grants)/Debt service payments due within financial year)	33.9	26.3	39.6	39.6

Creditors System Efficiency

Creditor System Efficiency – The proportion of creditors paid within terms (i.e. 30 days). This ratio is calculated by outstanding trade creditors divided by credit purchases

Employee costs

Employee cost- Measures what portion of the revenue was spent on paying employee costs. It is calculated by dividing the total employee cost by the difference between total revenue and capital revenue.

Chapter 5

Repairs & Maintenance

This represents the proportion of operating expenditure spent and is calculated by dividing the total repairs and maintenance by the total operating expenditure.
Data used from MBRR SA8

Capital Charges to Operating Expenditure

Chapter 5

COMMENT ON FINANCIAL RATIOS:

Delete Directive note once comment is complete- Comment on the financial health of the municipality / municipal entities revealed by the financial ratios set out above. These ratios are derived from table SA8 of the MBRR.

Liquidity ratio

The municipality has invested more cash resources in debtors that are difficult to collect and this put the liquidity position of the municipality at risk.

Solvency ratio

Generally the municipality total debt exceed its assets mainly due to significant water board debts.

Current ration

Current assets exceed current liabilities mainly due to an increasing debt book. The municipality must put in efforts to collect debts as this will improve liquidity and provide a more informative current ratio position.

Creditors payment period

The creditors payment period more than 365 days due to the expensive repayment terms on water boards debts.

Debtors payment period

The debtors book is growing on an annual basis and currently sitting at more than 365 days. This is due to weak debt collection mechanisms.

T5.4.9

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

The municipality makes use of both conditional (MIG and WSIG) and unconditional grants (Equitable shares) to purchase and/ or acquire its capital assets. The largest projects are in the forms of the capital expenditures include water and sanitation infrastructure assets in various villages in the district. Other capital expenditure include office furniture and equipment.

T5.7.1					

COMMENT ON CAPITAL PROJECTS:

Capital projects which incurred the highest expenditure includes the Jopie Mawa, Sefofotse to Dishosine bulk water supply and reticulation, Hoedspruit Bulk Water Supply. Tours treatment works was budgeted R17m, due to challenges experienced on the project the budget was reduced

T5.7.1.1

5.8 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS – OVERVIEW

INTRODUCTION TO BASIC SERVICE AND INFRASTRUCTURE BACKLOGS

MDM has a total number of 296 319 households which are receiving water services from it. 84.2% of the community households have access to water, whereas 15,8% has no water in their communities. At least Ba-Phalaborwa has a backlog of 2,9% without water. The municipality that has the highest backlog is Greater Tzaneen Municipality and The municipality that has the lowest is Ba-Phalaborwa followed by Greater Letaba at 9,3%.

327 466 households which are receiving sanitation services. 96.2% of the community households have access to sanitation services, whereas 3.8% has no sanitation services in their communities. At least Greater Letaba has a backlog of 1,4% without sanitation services. The municipality that has the highest backlog is Greater Giyani

Chapter 5

Municipality with 8,2%. The municipality that has the lowest is Greater Letaba with 1,4% followed by Greater Tzaneen with 1,7%.

T5.8.1

Service Backlogs as at 30 June 2018				
	*service level above minimum standard		**service level below minimum standard	
	No. HHs	%HHs	No. HHs	%HHs
Water	Water	249 348	84%	46 935

*MIG is a Government grant program designed to fund a reduction in service backlogs, mainly: Water,						

Sanitation; roads; electricity,. Expenditure on new, upgraded and renewed infrastructure is set out at Appendix M; note also the calculation of the variation. Variances are calculated by dividing the difference between actual and original/adjustments budget by the actual. **T5.8.3**

COMMENT ON BACKLOGS:

MDM relies mainly on infrastructure grants to eradicate basic service delivery backlogs. These grants mainly focus on the water and sanitation infrastructure projects.

MDM has a total number of 296 319 households which are receiving water services from it. 84.2% of the community households have access to water, whereas 15,8% has no water in their communities. At least Ba-Phalaborwa has a backlog of 2,9% without water. The municipality that has the highest backlog is Greater Tzaneen Municipality and The municipality that has the lowest is Ba-Phalaborwa followed by Greater Letaba at 9,3%. 327 466 households which are receiving sanitation services. 96.2% of the community households have access to sanitation services, whereas 3.8% has no sanitation services in their communities. At least Greater Letaba has a backlog of 1,4% without sanitation services. The municipality that has the highest backlog is Greater Giyani Municipality with 8,2%. The municipality that has the lowest is Greater Letaba with 1,4% followed by Greater Tzaneen with 1,7%.

T5.8.4

COMPONENT C: CASH FLOW MANAGEMENT AND INVESTMENTS

The cash flow management of the municipality is critically importance given the current weaknesses on debt collection mechanisms. Own revenue billed is not collected.

The municipality adopted the cost containment measures from National Treasury with the aim of maximising on liquidity.

Due to limited own revenue streams, the municipality invests in call accounts on a regular to make extra income to complement funding for operational activities.

COMMENT ON CASH FLOW OUTCOMES:

Chapter 5

The municipality's cash flow situation is critical given the commitments of the municipality mainly on the water boards debts. The total current liabilities exceed total current assets due to expensive repayment terms on water boards debts.

T5.9.1.1

5.10 BORROWING AND INVESTMENTS

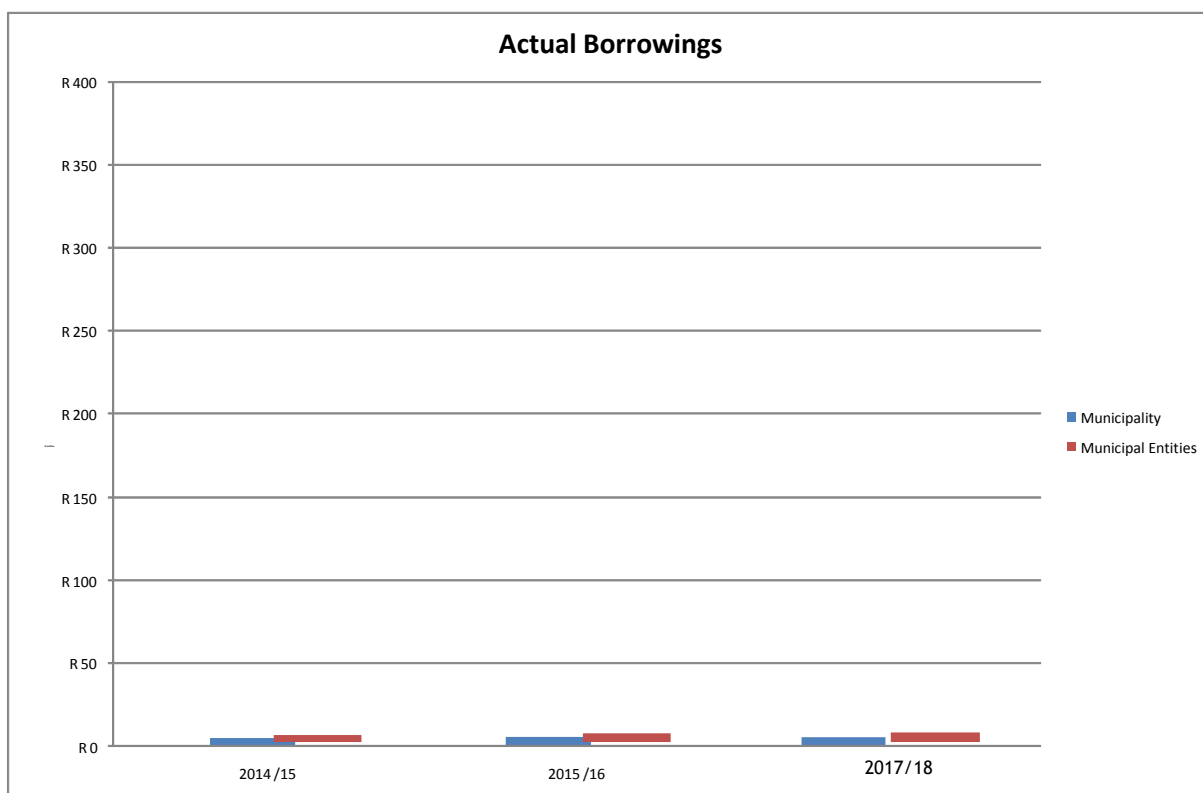

The municipality has no borrowing but rather short-term investments on call accounts arrangements. These investments are made on a spontaneous basis when cash resources are available. As already indicated the municipality does not have enough cash resources to afford investments on a fixed term basis.

T5.12.1

5.13 GRAP COMPLIANCE

The municipality obtained an adverse opinion meaning that there was not compliance with GRAP reporting requirements. There is a turn-around plan in the form of the audit action plan to correct the situation.

T5.13.1

Chapter 6

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

The municipality received an adverse audit opinion from the Auditor-General, refer to the audit opinion below.

T6.0.1

COMPONENT A: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS 2016/17

6.1 AUDITORGENERAL REPORTS 2016/17

Auditor-General Report on Service Delivery Performance 2016/17	
Audit Report status*:Disclaimer	
Non-Compliance Issues	Remedial Action Taken
Commitments – Misstatement of Commitments	Investigate all the misstatements on the commitment register, correct the misstatement by adjusting the prior year commitment register. Maintain monthly commitment register.
Commitments - Understatement of commitment	Investigate all the understatements in the commitment register, correct the understatements by adjusting the prior year commitment register. Maintain monthly commitment register.
Commitments- Contract amounts per commitment schedule do not agree to the verified contracted amount	Ensure that the amounts reflecting on the contract register and the appointment letters correspond to the amount reflected on the commitment register. Maintain monthly commitment register.
Commitment - Commitment not properly disclosed	Ensure that all projects which the municipality is an implementing agent are not included on the commitment register. Remove all projects which the municipality is an implementing agent. Maintain monthly commitment register.
Commitments - Non submission of contracts	Maintain and review for GRAP compliant, a monthly commitment register. Two way review process of the commitment register by the CFO or delegate, as well as by a Senior Technical or Director in all affected technical departments. Appoint an independent expert to the review the commitment register against disclosures in the AFS a month before both are due for external audit. Validation of the work done on commitments by the

Chapter 6

	internal audit.
Compensation of employees - Payroll report figures does not agree with AFS figures.	Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.
Compensation of employees - Misstatement in car allowance	Review and adjust the car allowances of all employees in line with the car allowance policy.
Compensation of employee: Differences noted between AFS and Payroll Rep	Intergrade the payroll and financial system to ensure real time update of both the general ledger and trial balance when payroll transactions and balances are recorded and updated. Ensure timely reconciliation with the financial system and payroll system.
Compensation of employees - non-submission of documents	<p>Ensure proper record keeping of the financial documents. Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Year-end journals - Journals not authorised	Introduce consequence management for all employees in finance who process journals through the financial system without authorisation from the CFO or delegate.
Going concern- Insufficient assessment of going concern	<p>Continue to explore ways of ensuring that the water revenue collected by local municipalities is deposited into the district bank account.</p> <p>Continue to enforce cost containment measures and closely monitor</p>
Various sections - Scope Limitation	<p>Ensure proper record keeping in a of all financial documents which will support AFS. Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>

Chapter 6

High level review - AFS High level and Differences noted between AFS, TB and GL	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the GL and TB</p>
Accumulated surplus - Difference between General Ledger and the AFS	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the GL and TB</p>
UIFW- Difference between Schedule and the AFS	<p>Ensure that the amount reflected on the UIFW agree to the register</p> <p>Two way review process of the UIFW register by the CFO or delegate, as well as by Deputy Manager: SCM or delegate.</p> <p>Monthly review of the UIF register by internal audit.</p>
UIFW- Incorrectly disclosed	<p>Ensure that the municipality will disclose the information concerning UIFW as per the AGSA recommendations.</p> <p>Monthly review of the UIF register by internal audit.</p>
UIFW-Incorrect opening balances	<p>Ensure that the opening balances as per the current AFS correspond to the closing balances as per the audited AFS.</p>
: UIFW Expenditure - No investigations performed and no reports submitted to Mayor, MEC & AG-General	<p>Development and monitoring of the UIFW investigation program with dates by MPAC.</p> <p>The program will be tabled for adoption in council and be monitored as part of council resolutions.</p>
GRAP 104 Disclosure - Non disclosure of GRAP 104	<p>Maintain and review for GRAP compliant, a monthly AFS disclosure notes.</p> <p>Appoint an independent expert to the disclosures in the AFS against monthly registers a month before same are due for external audit.</p>
GRAP 24 Disclosure - inconsistencies identified	<p>Appoint an independent expert to the disclosures in the AFS against monthly registers a month before same are due for external audit.</p> <p>Monthly preparation and review of statement of comparison between budget and actual.</p> <p>Monthly Interim audit of statement of comparison between budget and actual before the external auditor.</p>

Chapter 6

PPE - Additions were incorrectly disclosed.	Ensure that the additions for current year are disclosed correctly on the note to AFS. Correct the error in the prior year.
PPE - Understatement of work in progress	Adjustment journals will be processed for the correction of the error. The 2017/18 WIP register will be reviewed on a monthly basis
PPE - Difference noted between AFS, TB and fixed assets register	Differences identified during the audit will be investigated and prior year adjustment will be made to correct the errors.
PPE - Overstatement of Infrastructure additions	Adjustment journals will be processed for the correction of the error. PMU and asset division will assist each other in terms of completed projects.
PPE - Understatement of property plant and equipment	2016/17 WIP will be reviewed and the projects will be physically verified to ensure that the error is corrected
PPE - WIP opening balance understated	Submit the asset register monthly to the technical directorates for review of the WIP projects descriptions and amounts, to ensure completeness, existence and valuation. Validation of the work done asset register by internal audit.
PPE - Assets not physically verified	Team-up with the assets consultants on the asset verifications to ensure that the asset register is completely confirmed and updated with assets that physically exist and belong to the municipality. Monthly internal audit review of the asset register.
PPE- Rights –Misstatement of PPE misstatement	The 2016/17 Asset register will be reviewed and the identified assets will be investigated and removed from the asset register.
PPE Existence – Physical verification	Team-up with the assets consultants on the asset verifications to ensure that the asset register is completely confirmed and updated with assets that physically exist and belong to the municipality. Validation of the work done on asset register by internal audit.

Preparation of a detailed disclosure requirements checklist on landfill sites by the AFS preparation consultant to the valuator, to enable preparation of the AFS.
PPE - misstatement in depreciation recalculation	Review of the asset register by the CFO and the AFS consultants of all amounts in the asset register, including depreciation charges.

Chapter 6

Assets written off as operating expenditure	Engage the AFS consultants in the review of recorded and allocated transactions on a monthly basis to ensure proper classification of transactions and amounts, as well as recording thereof in the asset register and other related registers.
Limitation of scope	<p>Ensure proper record keeping of documents to support the AFS. Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Cut Off Limitation of scope	<p>Ensure proper record keeping of financial document that support AFS. Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Differences noted	<p>Introduce controls to ensure that transactions in the locals are truly reflected in the District AFS. Request for a submission of the AFS for audit after the locals have submitted. This will assist in ensuring that any unexpected changes in the locals AFS are identified, discussed and disclosed by the district.</p>
Payables - Differences noted between AFS, TB and GL	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the asset register, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the asset register, GL and TB.</p> <p>Validation of the work done on assets the asset register by internal audit.</p>
Payables – Inter-municipal account-Greater Giyani Municipality	<p>Introduce controls to ensure that transactions in the locals are truly reflected in the District AFS. Request for a submission of the AFS for audit after the locals have submitted. This will assist in ensuring that any unexpected changes in the locals AFS are identified, discussed and disclosed by the district.</p>

Chapter 6

Fruitless expenditure - understatement of fruitless and wasteful	Continuous efforts to ensure effective management of the municipality's cash flow statement with the aim of ensuring early accounts settlements and thereby avoiding fruitless expenditure.
Trade payables - Non submission of documents	<p>Ensure proper record keeping of financial documents that support the AFS Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
PPE-Difference noted between Recalculated Retention and registers	Submit the asset register as well as retention register monthly to the technical directorates for review of the WIP projects descriptions and amounts, to ensure completeness, existence and valuation.
Payables from exchange transactions - Incorrect recording of trade payable	<p>Maintain a monthly trade payables listings.</p> <p>Ensure accurate and complete financial and performance reports which are supported by records</p>
Trade payables - Understatement of payables	<p>Maintain a monthly trade payables listings.</p> <p>Ensure accurate and complete financial and performance reports which are supported by records</p>
Awards made to supplier who did not declare interest	<p>Request treasury to, from the bids awarded, identify the awards to employees of the state on a quarterly basis.</p> <p>Request AGSA for a list of cases prior to the AFS preparation with the aim of disclosing such as non-compliances.</p>
Non-disclosure of interest by employees of state institutions	<p>Ensure that all employees complete declaration forms by calling all employees to complete and update their disclosure forms.</p> <p>Apply consequence management on employees who do not comply with disclosure requirements.</p>
Non-disclosure of other interest by municipal employees	<p>Ensure that all employees complete declaration forms by calling all employees to complete and update their disclosure forms.</p> <p>Apply consequence management on employees who do not comply with disclosure requirements.</p>
Noncompliance in SCM regulation 32	Discontinue regulation 32 except in critical conditions.
Irregular awarding of bids Accounting officer did not ratify the decision to award	Ensure that all Bid adjudication processes are followed.
Award made to supplier owing the state	Ensure that all bid adjudication processes are followed.

Chapter 6

CIDB - Non compliance	Ensure that all documents required during for tender processes are included in all tenders awarded through regulation 32
Municipality failed to re-advertise a tender after supplier responded less than 90/10	Ensure compliance with preferential procurement regulation
The municipality failed to follow the required regulations for SCM	Ensure that suppliers with highest points are awarded contracts. Ensure that wards are made in line with the Preferential Procurement Regulations.
Overstatement of leave provisions	<p>Maintain and review for GRAP compliant, a monthly provisions listing.</p> <p>Two way review process of the listing by the CFO or delegate, as well as by a Senior HR personnel or Director: Corporate Services.</p> <p>Engagement of an independent expert to the review the provisions listing from the actuaries against disclosures in the AFS a month before both are due for external audit.</p> <p>Monthly review of the provisions listing by internal audit.</p> <p>Interim audit of commitments by the external auditor.</p>
Understatement (Completeness)	Ensure correction of all employees who were incorrectly included in the Ba-Phalaborwa bonus and leave provision are recorded in the books the records of MDM. Review of annual financial statement to ensure that only reports on the figures that relate to the municipality
Overstatement of impairment –GRAP 104 assessment	Engage the AFS consultants to prepare the GRAP compliant disclosure notes on accounts receivables including impairment notes.
Journal processed not appropriately supported by supporting documents	Introduce consequence management for all employees in finance who process journals through the financial system without authorisation from the CFO or delegate.
Ba-Phalaborwa revenue - incorrectly calculated amount billed to consumers	<p>Appointment of a firm responsible for water transactions reconciliations.</p> <p>Monthly reconciliations and review of the billing reports.</p> <p>Monthly meetings to discuss and adopt the reconciliations, including the CFO forum.</p>
Value Added Tax - Internal controls over cash collection	<p>Appointment of a joint firm to do VAT for both the district and local municipalities.</p> <p>Review of the VAT reconciliations by the CFO and AFS preparation consultants.</p>

Chapter 6

VAT Receivables - misstatement	<p>Appointment of a joint firm to do VAT for both the district and local municipalities.</p> <p>Review of the VAT reconciliations by the CFO and AFS preparation consultants.</p> <p>Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Cash and cash equivalents - Completeness	Engage the AFS consultants to prepare the GRAP compliant disclosure notes on cash and bank related policies.
Cash and cash equivalents - Non submission of journals	<p>Ensure proper record keeping of all financial documents to support AFS. Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Remuneration of councillors - differences noted	Engage the AFS consultants to prepare the GRAP compliant disclosure notes on employee related costs.
Employee cost- Differences between General ledger amounts and AFS amounts on Defined Contribution plan	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the asset register, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the asset register, GL and TB.</p> <p>Validation of work done on asset register by internal audit.</p>
Employee cost- Identified differences when recalculating Basic salary and travel allowance for councillors	<p>Monthly preparation and review of the reconciliation between the payroll and upper limits of councillors.</p> <p>Certification of the councillors benefits by HR before payments.</p> <p>Validation of work done by internal audit</p>

Chapter 6

Compensation of employees - differences in standby allowance	<p>Monthly preparation and review of the reconciliation between the payroll and upper limits of councillors.</p> <p>Certification of the councillors benefits by HR before payments.</p> <p>Validation of work done by internal audit</p>
Other MFMA disclosure - Completeness	<p>Maintain and review for GRAP compliant, a monthly AFS disclosure notes.</p> <p>Appoint an independent expert to the disclosures in the AFS against monthly schedules a month before same are due for external audit.</p>
Other MFMA disclosure - Understatement of PAYE and UIF disclosed	<p>Maintain and review for GRAP compliant, a monthly AFS disclosure notes.</p> <p>Appoint an independent expert to the disclosures in the AFS against monthly schedules a month before same are due for external audit.</p>
AFS- Accounting policies	<p>Maintain and review for GRAP compliant, a monthly AFS disclosure notes.</p> <p>Appoint an independent expert to the disclosures in the AFS against monthly schedules a month before same are due for external audit.</p>
Various sections - Scope Limitation	<p>Ensure proper record keeping of all financial documents to support AFS Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Interest received - Overstatement of Interest received	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the investment register, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the asset register, GL and TB.</p> <p>Validation of work done on the asset register by internal audit.</p>

Chapter 6

Use of consultants - Internal control deficiency	Reduce over reliance by drafting consultancy reduction plan. Put measures in place to monitor performance of consultants on monthly basis. Put clauses in the SLA that enforces them to transfer skills.
PPE - Assets held for sale were held for more than 12 months period	<p>Maintain and review for GRAP compliant, a monthly AFS disclosure notes.</p> <p>Appoint an independent expert to the disclosures in the AFS against monthly registers a month before same are due for external audit.</p> <p>Interim audit of commitments by the external auditor.</p>
PPE- Non- compliance with NT guidelines	Rework the asset register using the services of an expert to align the useful lives to the NT guidelines.
Expenditure - Differences between GL and AFS (lead schedule)	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the lead schedules, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the he lead schedules, GL and TB</p> <p>Validation of work done on assets register by internal audit</p>
Expenditure - Recurring expense not recorded	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the lead schedules, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the he lead schedules, GL and TB</p>
Travel Claims- Differences between the payroll travel claimed and the GL amounts	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the lead schedules, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the he lead schedules, GL and TB</p> <p>Validation of work done on assets register by internal audit.</p>

Chapter 6

Contracted Service – Overstatement of Ba-Phalaborwa expenditure and understatement of Mopani Expenditure	<p>Appointment of a firm responsible for water transactions reconciliations.</p> <p>Monthly reconciliations and review of the billing and expenditure reports.</p> <p>Monthly meetings to discuss and adopt the reconciliations, including the CFO forum.</p>
Expenditure - Transactions before year end not recorded on GL or CL	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the lead schedules, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the he lead schedules, GL and TB</p> <p>Validation of work done on assets register by internal audit</p>
Expenditure - VAT included in the transaction amount	<p>Appointment of a joint firm to do VAT for both the district and local municipalities.</p> <p>Review of the VAT reconciliations by the CFO and AFS preparation consultants.</p>
Expenditure- S & T- Travel claims: Differences noted on kilometres claimed Vs Audited kilo metres	<p>Dedicate a team of officials to focus on S&T claims review</p> <p>Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Expenditure- S & T- Travel claims limitation	<p>Dedicate a team of officials to focus on S&T claims review</p> <p>Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>

Chapter 6

Difference between the creditor's listing and the AFS	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS for consistence with the creditors listing, lead schedules, GL and TB</p> <p>Monthly preparation and review of the reconciliation between the creditors listing, lead schedules, GL and TB</p> <p>Validation of work done on assets register by internal audit.</p>
Payables from exchange transactions - Scope of limitation	<p>Introduce an audit task team to only focus on accumulation of all financial and non-financial records expected to be required for audit. Clear terms of reference will be drafted and adopted for this task team.</p> <p>A detailed list will form part of the terms of reference for the task team.</p>
Trade payables - Salga - Not an accrual	<p>Engage the AFS consultants to prepare the GRAP compliant disclosure notes on employee related costs.</p> <p>Engage the AFS preparation consultants throughout the financial year in the preparation of monthly financial reports and reconciliation to avoid discrepancies between the AFS and supporting schedules during the AFS preparations.</p>
Procurement and Contract Management - Inadequate SCM Policy	<p>The following SCM regulation 46(3) : that all declarations by the accounting officer must be made to the mayor of the municipality or the board of directors of the municipal entity who must ensure that such declarations are recorded in the register</p> <ul style="list-style-type: none"> • PPPFA BBEE status ratings • Use of national treasury CSD <p>will be updated during the SCM policy review.</p>
Provision for Bonus - understatement of bonus provision	<p>Appointment of a firm responsible for water transactions reconciliations and balances.</p> <p>Monthly reconciliations and review of water reports.</p> <p>Monthly meetings to discuss and adopt the reconciliations, including the CFO forum.</p>
Landfill site - Provision and Assets	<p>Engage the AFS consultants to prepare the GRAP compliant disclosure notes on provisions.</p>

Chapter 6

Receivables - Non-compliance with the Credit control and debt collection an consumer care policy	<p>Appointment of debtor collector</p> <p>Monitoring of the debt collector performance against the terms of reference and credit control policies.</p> <p>Internal audit will review the compliance with all finance policies and advise on improvements before external audit commences.</p>
Receivables - Non-compliance with the Municipal Systems Act	<p>Appointment of a firm responsible for water transactions reconciliations.</p> <p>Monthly reconciliations and review of the billing reports to ensure that the consumers are billed correctly and that the indigent consumers are considered correctly.</p> <p>Monthly meetings to discuss and adopt the reconciliations, including the CFO forum.</p>
Related Parties - differences noted between payroll and disclosed remuneration amounts.	<p>Utilise the financial system responsible for the development of the general ledger and trial balance to also produce a set of AFS.</p> <p>Appoint an independent expert to the review the AFS and related disclosure with the GL and TB.</p> <p>Monthly internal audit first level review of the AFS before submission for external audit.</p>
Revenue - Discrepancies identified between the amount billed to the customers and the auditor's recalculation	<p>Appointment of a firm responsible for water transactions reconciliations.</p> <p>Monthly reconciliations and review of the billing reports.</p> <p>Monthly meetings to discuss and adopt the reconciliations, including the CFO forum.</p>
Ba-Phalaborwa Revenue-Difference between amount disclosed on Mopani records to those of local	<p>Appointment of a firm responsible for water transactions reconciliations.</p> <p>Monthly reconciliations and review of the billing reports.</p> <p>Monthly meetings to discuss and adopt the reconciliations, including the CFO forum.</p>

Chapter 6

Contingent Liability and Assets - Scope limitation, Accuracy & completeness.	<p>Maintain and review for GRAP compliant, a monthly contingent liabilities register.</p> <p>Two way review process of the commitment register by the CFO or delegate, as well as by Manager: Legal Services or delegate. All existing legal files are being properly prepared with all documents required and after they will be properly filed for easy reference</p> <p>Appoint an independent expert to the review the contingent register against disclosures in the AFS a month before both are due for external audit.</p> <p>Validation of the work done on commitment register by internal audit.</p> <p>Interim audit of commitments by the external auditor.</p>
Consequence management - disciplinary board not appointed	<p>Appoint a disciplinary board with clear terms of reference.</p> <p>The appointment will be tabled and confirmed with council.</p>
Internal audit - no quality audit assessment	Internal audit will allocate budget during mid-year budget adjustment to assist in the appointment of the service provider or external quality assessor to assess the Internal Audit Activity. An alternative can also be devised to seek either assistance of National Treasury or Provincial Treasury to perform this exercise in case
Non submission of documents	To improve proper filing in the contract management section. In consultation with legal unit, will ensure that there are contracts with all service providers
Compensation of employees compliance- Performance agreements, annual evaluations and competency tests not done	Management has resolved on cascading of performance assessments for employees below directors. This process will be monitored with support from council.
User access management - Evidence of reviews	Process for reviewing of activities of the person granting access to system for users are documented in MDM IT Policies, Guidelines, and Procedures in the User Account & Password Management Policy (section 3.5.6, bullet 9). However, the policy has not been implemented due to limited staff in the IT Office during the period of review. This will be corrected by recent appoint of IT Officer who will do the granting of access and the Assist Director IT reviewing her activities.
IT Service continuity - Backup register	Although backup in done on tapes, and weekly backup deposited at the Disaster Management Centre for safe keeping offsite, backup register has not been adequately maintained. Processes to ensure proper record keeping will be established.

Chapter 6

: IT Service continuity - No evidence to prove that backups are done on weekly basis	.Although backup in done on tapes, and weekly backup deposited at the Disaster Management Centre for safe keeping offsite, backup register has not been adequately maintained. Processes to ensure proper record keeping will be established.
IT service continuity - No approved disaster recovery plan	A project for development and implementation of IT Disaster Recovery Plan will commence before end of March 2018.
Policies not reviewed - Internal controls	To ensure that policy are reveiwed annually to reflect compliance with amended acts and other legislation. All policies will be reviewed by 30 March 2018

T6.1.1

Auditor-General Report on Service Delivery Performance 2016/17

Audit Report status*: **Disclaimer**

Non Compliance issues	Remedial action taken
Mopani District Municipality CHAPTER 6 - AUDITOR GENERAL AUDIT FINDINGS	

348

Chapter 6

AOPO - No evidence to prove that Performance Management System is adopted by council	Ensure that PMS of the municipality is adopted by council and the proof is properly kept
AOPO - Non-submission of valid supporting documents	Ensure that information is properly recorded and documents and relevant information is properly kept.
AOPO - Assessment of municipality's half financial year performance	Ensure that the municipal manager assess mid-year performance by the 25 of January 2018 and ensure that the report is table to council for adoption before the end of January 2018
AOPO - No approval of changes to targets	Ensure that all the indicators are realistic and changes of indicators can only be done during the mid-year budget and performance adjustment and should be appropriately approved by council.
AOPO - Presentation and disclosure of indicators	Ensure that all measures to improved performance and corroborated by valid evidence
AOPO - Inconsistencies between APR and SDBIP	Ensure that there is consistency between SDBIP and the APR
AOPO - Differences Between the APR and POE's Submitted	Ensure proper record keeping of information to support APR
AOPO - Number of Jobs created through Municipal Initiatives-POE's not Agreeing to the APR	Provide appropriate evidence on the number of jobs created in line with the information submitted in the APR
AOPO - Number of water Project completed-Reported number not accurate and Complete	Provide appropriate evidence on the number of project completed in line with the information submitted in the APR
AOPO - Number of Jobs created through SMME's Initiative-Reported Information not Validated	Development of a Questionnaire to develop needs of SMMEs and to interview them in order to determine the benefits of exhibitions
AOPO - Number of SMME Supported-Evidence provided not Specific	Development of smart indicators. Collation of financial report from the CFO and reporting accordingly.
AOPO - Indicator not well defined and measurable	the indicator will be refined to ensure that it is realising and measurable
AOPO - Number of Functional water flow metres at reservoirs-Reported Information cannot be Validated	Ensure that all reservoirs are metered. Provide complete and accurate information.
AOPO - Number of Villages Provided with water-Reported Information not Validated	Keep valid record in relation to the number of villages provide with water

Chapter 6

AOPO - Number of mega litres of water produced-Indicator Not accurate	Refine the indicator of Number of mega litres of water produced
AOPO- Number of Functional water flow metres at reservoirs-Indicator Not Specific	Refine the indicator on the number of Functional water flow metres at reservoirs to be specific
AOPO - No evidence to prove that Performance Management System is adopted by council	Ensure that PMS of the municipality is adopted by council and the proof is properly kept
AOPO - Non-submission of valid supporting documents	Ensure that information is properly recorded and documents and relevant information is properly kept.
AOPO - Assessment of municipality's half financial year performance	Ensure that the municipal manager assess mid-year performance by the 25 of January 2018 and ensure that the report is table to council for adoption before the end of January 2018
AOPO - No approval of changes to targets	Ensure that all the indicators are realistic and changes of indicators can only be done during the mid-year budget and performance adjustment and should be appropriately approved by council.
AOPO - Presentation and disclosure of indicators	Ensure that all measures to improved performance and corroborated by valid evidence
AOPO - Inconsistencies between APR and SDBIP	Ensure that there is consistency between SDBIP and the APR

Chapter 6

AOPO- Number of Functional water flow metres at reservoirs-Indicator Not Specific

Refine the indicator on the number of Functional water flow metres at reservoirs to be specific

T6.1.1

COMPONENT B: AUDITOR-GENERAL OPINION 2017/18

6.2 AUDITOR GENERAL REPORT 2017/18

Auditor-General Report on Financial Performance 2017/18	
Audit Report status*:	
Non-Compliance Issues	Remedial Action Taken
Note:* The report's status is supplied by the Auditor – General and ranges from unqualified (at best); to unqualified with other matters specified; qualified; adverse; and disclaimed (at worse). This table will be completed prior to the publication of the Annual Report but following the receipt of the Auditor-General Report on Financial Performance 2017/18	

T6.2.1

Audit Report status*: **Adverse**

Non Compliance issues	Remedial action taken
Employee costs - Differences between the general ledger and the financial statements	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>

Chapter 6

Employee costs - Directors Remuneration not disclosed	GRAP compliant review of the financial statements by the audit committee, internal audit, CFO and the external service provider.
Employee costs-Differences between the overtime hours on the timesheet and paid overtime hours	Introduction of payment claims cut-off date by the CFO that allows for thorough review of benefits and allowances to be paid to employees before pay day.
Leave provision and payouts-Differences	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
Employee costs-Workman's Compensation expenditure for the year was not accounted for in the accounting records.	<p>Lack of sufficient time by the audit committee to review the AFS</p> <p>Segregation of functions in terms of capturing of transactions and posting thereof in the general ledger.</p> <p>Monthly review of transactions in the general ledger for completeness using trend analysis, year-to-year comparisons and physical invoices and claims.</p>
Consultants	<p>GAP analysis will be performed on each area of use of consultants.</p> <p>A detailed plan on the use of consultants will be put together and monitored accordingly.</p>
Assets-Difference between correction of error note and movement in the comparatives	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
PPE-Depreciation: Difference between Fixed asset register and Annual Financial Statements	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the</p>

Chapter 6

	<p>affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
PPE-Property, plant and equipment differences identified and incorrect disclosure of depreciation on leased assets	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
PPE-Difference between capitalized amounts and the Invoice	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
PPE-Difference between capitalised amount and the Invoice	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>

Chapter 6

Inventory-Misstatements	<p>Design reporting templates for the stores personnel.</p> <p>Introduce monthly inventory counts and reconciliations.</p>
Finance leases - Incomplete and inaccurate finance lease disclosure	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
PPE-Movable (Lease assets) assets not individually identifiable in the assets	<p>Double the number of the assets verification team to allow good coverage during verification and reducing errors.</p>
Expenditure - Debts written off incorrectly classified as disaster relief fund expenditure	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Expenditure-Travel and subsistence	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Expenditure - Incorrect classification of the expenses	<p>Review of the quarterly and annual AFS by the Audit Committee.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review by the CFO of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general leader monthly to detect journals processed in the general leader without approval.</p> <p>Review of the case ware template by the audit committee, internal audit, CFO, external service provider for GRAP compliance before being used to prepare the AFS.</p>

Chapter 6

Other disclosure-Differences between the Audit fees expense paid as per the auditor's billing report and the amount that was recognized in the accounting records.	<p>Submission of the AFS for review by internal audit, Audit Committee, CFO and the external service provider at least a week before 31 August 2019.</p> <p>Review of the captured transactions by managers of the affected transactions prior to posting of transaction.</p> <p>Monthly review of transactions in the general ledger for completeness using trend analysis, year-to-year comparisons and physical invoices and claims.</p>
Payables from Exchange transactions - Suspense accounts not investigated and cleared	Dedicate a more experienced personnel to review and clear the suspense account on a monthly basis.
SCM - No criteria for procuring goods and services from the panel of contractors	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
Supply Chain Management-Awards not economical.	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - Deviation was not recorded, was not reported to the next council/ board meeting; and not disclosed in the financials	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
Provision for landfill site incorrectly valued	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Receivables not disclosed at year end	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Consumer debtors-Impairment of Consumer Debtors	Review of the case ware template by the audit committee, internal audit, CFO, external service provider for GRAP compliance before being used to prepare the AFS.

Chapter 6

Receivables from exchange transactions -Ba-Phalaborwa receivable not considered/assessed for impairment	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Intermunicipal account-Differences noted between the Ba-Phalaborwa and Mopani loan account opening balance on the face of the AFS	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Adjustments to comparative amounts not disclosed in the notes	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Grants Expenditure -Duplicated payment	More attention will be paid when processing claims.
Revenue from exchange transactions-Accounts not billed	<p>Introduction of more skilled personnel in the revenue section dedicated to water transactions and balances with local municipalities.</p> <p>Prompt appointment of the service provider to assist with the water transactions.</p>
VAT-VAT control accounts not cleared against the main control account	<p>Dedicate a competent person to manage and reconcile the VAT control accounts on a monthly basis.</p> <p>Training of expenditure management personnel on VAT accounting and reporting.</p>
Unspent grants - Unspent grants not reduced with money deducted from equitable share by National Treasury for denied roll over requests	Review of the grants accounts in the general ledger by the AFS preparation team and the CFO.
Cash flow statement-Cash flow differences	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Commitments-Difference between the register and AFS and inclusion of finance lease obligation in commitments	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>

Chapter 6

Commitments-Differences between the commitment amount as per the commitment register and the re-calculated amount	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Commitments-Commitment register not complete	Preparation of WIP registers by both SCM and PMU for reconciliation purposes before preparation of AFS.
Commitments-Differences between the contract amount as per the commitment register and the contract.	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Commitments-Projects cost included in the commitment register not belonging to the Municipality	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Employee provisions-Adjustments to comparative amounts not disclosed in the notes and casting errors	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Employee provisions - GRAP 25 disclosures not complete	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Employee cost-Differences between the General Ledger and the payroll reports	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Non-compliance with MFMA other compulsory disclosure requirements	Monthly review of transactions in the general ledger for completeness using trend analysis, year-to-year comparisons and physical invoices and claims.
Notes to the Annual Financial Statements – Going concern	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>

Chapter 6

High level review of 2017-18 AFS	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Irregular and Fruitless and Wasteful Expenditure- Misstatements	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Inconsistencies between the approved budget and the statement of comparison of budget and actual amounts	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Expenditure incurred to repair and maintain property, plant and equipment not disclosed separately	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
PPE - Incomplete GRAP 17 disclosures	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Expenditure-Capital expenses not capitalized	<p>The repairs and maintenance votes were not adequately reviewed</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p> <p>Segregation of functions in terms of capturing of transactions and posting thereof in the general ledger.</p> <p>Monthly review of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>

Chapter 6

PPE-No supporting Documents for capitalised assets	Introduction of an electronic back-up filling for records keeping
PPE-Inadequate supporting documents for borehole development additions and completed.	Introduction of an electronic back-up filling for records keeping
Expenditure incorrectly recognised	<p>The repairs and maintenance votes were not adequately reviewed</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p> <p>Segregation of functions in terms of capturing of transactions and posting thereof in the general ledger.</p> <p>Monthly review of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
Expenditure-Material amounts not disclosed separately	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Expenditure-Incorrect classification of information technology services	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p> <p>Segregation of functions in terms of capturing of transactions and posting thereof in the general ledger.</p> <p>Monthly review of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the</p>

Chapter 6

	general ledger monthly to detect journals processed in the general ledger without approval.
Unauthorised expenditure understated	Introduction of the quarterly budget Lekgotla to closely monitor budget spending.
Expenditure - Prior period expenditure recorded in the current year, expenditure accounted for on a cash basis	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p> <p>Segregation of functions in terms of capturing of transactions and posting thereof in the general ledger.</p> <p>Monthly review of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
Expenditure - Invoices recorded are inclusive of vat and repairs and maintenance items were incorrectly recognized as bulk purchases	<p>Segregation of functions in terms of capturing of transactions and posting thereof in the general ledger.</p> <p>Monthly review of transactions in the general ledger for correct allocation and classification.</p> <p>Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.</p>
Expenditure - Poor internal controls over the recording of the invoices	Dedicate a person responsible for administration and capturing of invoices in the general ledger.
Expenditure-Invoices not paid within 30 days	Introduction of an invoice tracking system to detect invoices by dates when payments are done
Expenditure-No supporting documents for the amounts recorded as bulk purchases	<p>Inadequate internal controls for accounting for bulk purchases.</p> <p>Lack of electronic back-up filling for records keeping</p>
Grants Expenditure - WSIG funds spent on projects not on the activity plan	Introduction of the quarterly budget Lekgotla to closely monitor budget spending.

Chapter 6

1.Greater Giyani Inter-municipal payable discrepancies	<p>Differences between the municipality and Greater Giyani were not investigated and cleared prior to the finalization of the financial statements.</p> <p>Prompt appointment of the service provider to assist with water transactions reconciliations.</p> <p>Addition of a skilled personnel on the water transactions and balances with local municipalities.</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Payables from exchange transactions - Differences noted between the AFS and Listing	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Payables-Differences between the listing and the supporting documents, and control deficiencies	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>

Chapter 6

Payables from exchange transactions-Differences noted between MDM and GGM opening and closing inter municipal accounts as per Annual Financial Statement	<p>Prompt appointment of the service provider to assist with water transactions reconciliations.</p> <p>Addition of a skilled personnel on the water transactions and balances with local municipalities.</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Payables from exchange transactions-Differences noted between the retention register and supporting documents	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
The procurement of services split into items of lesser value	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - CIDB the winning contractor's grading is not suitable for the value of the contract.	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM – Bid adjudication committee not properly constituted	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - Contract management deficiencies	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to</p>

Chapter 6

	appointments.
SCM - Suppliers tax matters not cleared by South African Revenue Service	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - Deviations not sufficiently justified	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - Suppliers' additional information not provided from the other municipality this was a REG 32 appointment.	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - Limitation of scope	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - Appointment of the suppliers through Regulation 32.	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM - The bid adjudication committee was not constituted in accordance with the auditee's SCM policy and SCM regulation	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>
SCM-Tax clearance not provided and non-compliant supplier	<p>Review and monitoring of compliance on SCM activities with SCM laws and regulations by the CFO and the Accounting Officer.</p> <p>Introduction of Internal audit on bids finalised prior to appointments.</p>

Chapter 6

Consumer debtors misstatements.	<p>Differences between the municipality and Greater Giyani were not investigated and cleared prior to the finalization of the financial statements.</p> <p>Prompt appointment of the service provider to assist with water transactions reconciliations.</p> <p>Additional skilled personnel on water transactions and balances with local municipalities.</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Receivables-Debts raised for doubtful receivables	<p>Differences between the municipality and Greater Giyani were not investigated and cleared prior to the finalization of the financial statements.</p> <p>Prompt appointment of the service provider to assist with water transactions reconciliations.</p> <p>Additional skilled personnel on water transactions and balances with local municipalities.</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>

Chapter 6

<p>Consumer debtors-Note 9-Impairment deducted on the ageing does not agree with the allowance for impairment</p>	<p>Differences between the municipality and Greater Giyani were not investigated and cleared prior to the finalization of the financial statements.</p> <p>Prompt appointment of the service provider to assist with water transactions reconciliations.</p> <p>Additional skilled personnel on water transactions and balances with local municipalities.</p> <p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>

Chapter 6

Year end Journals-Year-end journals and control deficiencies	Review and approval of journals by the CFO before capturing in the general ledger. And review of the general ledger monthly to detect journals processed in the general ledger without approval.
Comparative figures-Difference between correction of error note and movement in the comparatives	<p>Introduction of the preparation of quarterly AFS to timeously detect the non-compliant disclosures</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee</p> <p>Review of the AFS and supporting schedules and working papers thereof by internal audit and the audit committee.</p>
Revenue and consumer debtors: Shortcomings identified from the audit of revenue and receivables at local municipalities	<p>Prompt appointment of the service provider to assist with water transactions reconciliations.</p> <p>Additional skilled personnel on water transactions and balances with local municipalities.</p>
Grants Expenditure - WSIG funds spent on projects not on the activity plan	Introduction of the quarterly budget Lekgotla to closely monitor budget spending.
T6.2.2	

AUDITOR GENERAL REPORT ON THE FINANCIAL STATEMENTS 2017/18	T6.2.3
--	--------

Report of the auditor-general to Limpopo Provincial Legislature and Council of the Mopani District Municipality

Report on the audit of the financial statements

Adverse opinion

1. I have audited the financial statements of the Mopani District Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2018, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, because of the significance of the matters described in the basis for adverse opinion section of my report, the financial statements do not present fairly, in all material respects, the financial position of the municipality as at 30 June 2018, and its financial performance and cash flows for the year then ended in accordance with South African Standards of General Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2017 (Act No.3 of 2017) (DoRA).

Basis for adverse opinion

Property, plant and equipment

3. The municipality did not recognise all items of property, plant and equipment in accordance with GRAP 17, *Property, Plant and Equipment*. Additions to property, plant and equipment were incorrectly recognised as expenditure. Consequently, property, plant and equipment stated at R5 169 974 905 in note 3 to the financial statements is understated by R18 997 041 and repairs and maintenance is overstated by the same amount. Additionally, there was an impact on the surplus for the period and on the accumulated surplus.
4. Included in work in progress amounting to R1 078 127 732 in note 3 to the financial statements is completed infrastructure assets amounting to R40 464 254. Consequently, work in progress is overstated by R40 464 254. Additionally, there is a resultant impact on the surplus for the period.
5. I was unable to verify the existence of infrastructure assets amounting to R47 528 928. I was unable to verify the assets by alternative means. Consequently, I was unable to determine whether any adjustments were necessary to infrastructure assets stated at R3 954 994 629 in note 3 to the financial statements.
6. I have identified significant deficiencies in supporting documents provided for new boreholes for the current and prior year. I have identified payments made for boreholes without any evidence of work done. Some of the supporting documents are incomplete. I was unable to satisfy myself that expenditure was incurred on genuine borehole developments commissioned by the municipality. Consequently, I was unable to confirm whether any adjustments were

necessary to infrastructure assets stated at R3 954 994 629 (2016-2017: R4 079 386 344) in note 3 to the financial statements.

7. The municipality did not disclose property, plant and equipment in terms of GRAP 17, *Property, plant and equipment*. The following disclosures were not included in note 3 to the financial statements:
 - Work in progress per class of assets
 - The carrying value of property, plant and equipment that is taking significantly longer to complete than expected, including reasons for any delays.
 - The carrying value of property, plant and equipment where construction or development has been halted either during the current or previous reporting period(s).
 - Expenditure incurred to repair and maintain property, plant and equipment in the notes to the financial statements.

Receivables

8. The gross consumer debtors of R747 019 423 (2016-2017: R774 670 965) disclosed in note 9 to the financial statements exclude Ba-Phalaborwa municipality's debtors for basic water and basic sewerage amounting to R261 187 992. Consequently, the gross balance of consumer debtors is understated by R261 187 992. There is a consequential impact on the allowance for impairment of consumer debtors, surplus for the period and accumulated surplus.
9. The comparative figure for consumer debtors per local municipality disclosed in note 9 stated at R649 857 605 differs with the total consumer debtors gross balances of R774 670 965 as per the same note. Consequently, the consumer debtors per local municipality comparative figure is understated by R124 813 360.
10. The allowance for impairment of R606 094 199 (2016-2017: R556 516 413) and R65 903 611 (2016-2017: R52 429 985) for water and sewerage respectively as per note 9 differ with the amount of R588 318 738 (2016-2017: R529 587 083) and R85 679 075 (2016-2017: R80 641 641) as per the age analysis in the same note. The provisional amount is misclassified between water and sewerage in the age analysis.
11. One of the five local municipalities in its capacity as the water service provider for the municipality did not have adequate controls in place for allocating payments received from customers for water resulting in other services reflecting credit balances, whilst water had outstanding balances. As a result, water debtors are overstated. I was not able to determine the full extent of the overstatement of consumer debtors stated at R747 019 423 (2016-2017: R774 670 965) in note 9 as it was impracticable to do so. There is a consequential impact on the allowance for impairment of consumer debtors, surplus for the period and accumulated surplus.
12. I have identified a difference of R10 019 169 between consumer debtors as per the Glyani Local Municipality's age analysis of R132 864 931 and the amount as per the municipality's financial statements of R122 845 762. Consequently, consumer debtors disclosed in note 9 to the financial statements are understated by R10 019 169.

Chapter 6

13. Included in receivables from exchange transactions disclosed in note 7 to the financial statements is a National Treasury receivable of R11 364 593 (2016-2017: R11 364 593). National Treasury has not committed to reimburse the municipality for the excess expenditure on the Municipal Infrastructure Grant (MIG) in the prior year. The municipality does not have a right to the receivable. Consequently, receivables from exchange transactions stated at R228 041 484 (2016-2017: R194 202 462) is overstated by R11 364 593.

Revenue

14. Included in sale of water revenue of R165 531 593 disclosed in note 15 to the financial statements, is sewerage and sanitation charges of R13 914 695. Consequently, sale of water is overstated by R13 914 695 and sewerage and sanitation charges are understated by the same amount.
15. Included in revenue from conditional grants of R481 695 081 in note 16 to the financial statements is revenue recognised for expenditure incurred not in accordance with the conditions of the Water Services Infrastructure Grant amounting to R37 097 186. Consequently, revenue from conditional grants is overstated by R37 097 186. There is a resultant impact on the surplus for the period and unauthorised expenditure.

Value Added Taxation (VAT)

16. The municipality did not reconcile the year-end VAT receivable balance amounting to R104 728 852 (2016-2017: R85 888 375) to the balance as per South African Revenue Services's records. The municipality did not implement internal control systems to reconcile all the VAT control accounts. I have identified several control accounts that contained unexplained balances. Several journals were processed to clear amounts in control accounts that have accumulated in prior periods due to the lack of regular reconciliation of the VAT accounts. I identified a difference of R75 177 657 between the amount disclosed in note 8 to the financial statements and my recalculations. Consequently, VAT receivable is overstated by R75 177 657. I was unable to determine the effect of the misstatement on other account balances and classes of transactions as it was impracticable to do so.
17. The municipality did not account for VAT in accordance with the accrual basis of accounting in the financial statements. The VAT balance was not adjusted for the effect of VAT on accounts payable and consumer debtors. I was unable to determine the full extent of the misstatement due to the status of the accounting records. Consequently, I was unable to determine if further adjustments were required to VAT receivable stated at R104 728 852 (2016-2017: R85 888 375).

Payables from exchange transactions

18. Included in trade payables of R354 290 578 (2016-2017: R406 395 314) in note 13 to the financial statements, are sundry creditors amounting to R344 137 154. I was unable to obtain sufficient appropriate audit evidence for sundry creditors due to the status of the accounting records. Management did not implement controls to recognise and reconcile sundry creditors in the accounting system. In addition, I could not obtain satisfactory explanations for journals amounting to R18 714 902. I have also identified a difference of R227 077 178 between the general ledger and the creditors listing. I could not confirm the trade payables by alternative means. Consequently, I was unable to determine whether any further adjustments were

necessary to trade payables stated at R354 290 578 (2016-2017: R408 395 314) in the financial statements.

19. The municipality restated the comparative amount of payables from exchange transaction by R138 409 979 as described in note 30 to the financial statements, the restatement was made to rectify previous year misstatements. I have identified unexplained adjustments amounting to R137 894 256 that could not be justified by the municipality. The municipality did not maintain an adequate system of internal controls over its record keeping and recording of payables. I could not confirm the amount by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to the comparative amount for payables from exchange transactions stated at R1 522 846 360.
20. I have identified a difference of R51 392 496 between the restated balance for payables from exchange transactions of R1 471 453 864 as per note 30 to the financial statements and the comparative amount of R1 522 846 360 as per the statement of financial position. The restated balance of R1 471 453 864 disclosed in note 30 to the financial statements is understated by R51 392 496.
21. I have identified a difference of R6 660 537 between the retention amount of R57 473 945 (2016-2017: R45 272 129) as per note 13 to the financial statements and the balance of R64 134 482 as per the retentions listing. I have identified a similar misstatement in my previous audit. I have further identified differences amounting to R12 080 927 between the retentions listing and the supporting documents. Consequently, retentions are understated by R18 741 464. I was not able to determine the impact of this misstatement on the other account balances as it was impracticable to do so.
22. During 2017, I identified differences amounting to R15 004 620 between the amount disclosed of R44 835 083 for leave accrual in note 13 to the financial statements and my recalculations. Consequently, leave accrual was understated by R15 004 620. Additionally, there was a resultant impact on the surplus for the period. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current year financial statements is also modified because of the possible effect of this matter on the comparability of the leave accrual for the current period.

Expenditure

23. Included in bulk purchases of R288 788 797 is repairs and maintenance and VAT amounting to R74 899 615 and R20 296 640 respectively. Consequently, bulk purchases disclosed in note 23 to the financial statements is overstated by R95 196 255. There is a resultant impact on repairs and maintenance, VAT receivable and surplus for the period.
24. I was unable to obtain sufficient appropriate audit evidence for bulk purchases amounting to R58 988 969 as management did not provide supporting documentation for the recorded amount. I was unable to confirm the amount by alternative means. Consequently, I was unable to determine whether any further adjustments were necessary to bulk purchases stated at R288 788 797 (2016-2017: R313 206 196).
25. I have identified expenditure amounting R70 528 762 that was incorrectly accounted for in the current year. Consequently, expenditure is overstated by R70 528 762. There is a resultant impact on surplus for the period and accumulated surplus.

26. GRAP 1, *Presentation of Financial Statements* define expenses as decreases in economic benefits or service potential during the reporting period in the form of outflows or consumption of assets or incurrences of liabilities that result in decreases in net assets, other than those relating to distributions to owners. The municipality is implementing the project on behalf of the Department of Water and Sanitation. Included in other expenses of R83 195 526 as per note 25 to the financial statements is expenditure amounting to R13 167 364 incurred by the municipality as an implementing agent for the department, and refundable by the department. general expenses are therefore overstated by R13 167 364 and surplus for the period is understated by the same amount.
27. The municipality restated the general expenses comparative figure by R172 327 962 as described in note 30 to the financial statements, the restatement was made to rectify previous year misstatements. I have identified adjustments amounting to R154 710 383 that were incorrectly processed to general expenses. Consequently, the comparative figure for general expenses is overstated by R154 710 383.
28. GRAP 1, *Presentation of Financial Statements* par.36 requires that each material class of similar items be presented separately in the financial statements, and that items of a dissimilar nature or function be presented separately unless they are immaterial. Included in other expenses of R83 195 526 disclosed in note 25 to the financial statements is expenditure for VIP toilets amounting to R9 878 105 and interest incurred on outstanding creditors accounts amounting to R11 885 207. Included in information technology services of R16 837 525 disclosed in note 24, is expenditure amounting to R15 367 749 for the VAT recovery consultants. Furthermore, included in other contractors as per note 24 is security services amounting to R25 395 845. The municipality did not classify expenditure as required by GRAP 1, *Presentation of Financial Statements*.
29. During 2017, the municipality did not account for all expenditure transactions that occurred before 30 June 2017 amounting to R95 093 922. Consequently, expenditure was understated by R95 093 922. Additionally, there was a resultant impact on the trade payables from exchange transactions. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current year financial statements is also modified because of the possible effect of this matter on the comparability of expenditure for the current period.
30. The municipality restated the comparative figure for bulk purchases from R298 587 131 to R313 206 196 as disclosed in note 30 to the financial statements. I was unable to obtain sufficient appropriate evidence for the restatement and could not confirm the restatement by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to the bulk purchases comparative figure stated at R313 206 196 in the financial statements.
31. During 2017, I was unable to obtain sufficient appropriate audit evidence that expenditure had been properly accounted for, as the municipality did not maintain adequate controls over its record keeping. I was unable to confirm expenditure by alternative means. Consequently, I was unable to determine whether any adjustment to expenditure stated at R748 360 899 to the financial statements was necessary. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current year financial statements is also modified because of the possible effect of this matter on the comparability of expenditure for the current period.

Employee costs

32. GRAP 1, *Presentation of Financial Statements*, requires that the presentation and classification of items in the financial statements be retained from one period to the other. Included in employee costs of R376 318 320 disclosed in note 19 to the financial statements is transport allowance (bus coupons) amounting to R17 665 424 (2016-2017: R15 293 450) which should have been accounted for as travel and subsistence. In the previous year travel and subsistence was disclosed as part of general expenses. The municipality has not retained presentation and classification of travel and subsistence from the prior year. The amount does not qualify to be classified as employee costs. Consequently, employee costs is overstated by R17 665 424 (2016-2017: R15 293 450) and expenditure is understated by the same amount.
33. I identified a difference of R31 589 721 between employee costs of R376 318 320 disclosed in note 19 to the financial statements and the payroll records. Management did not implement internal control measures to reconcile the payroll records to the general ledger. Consequently, employee costs is overstated by R31 589 721. There is a resultant impact on the surplus for the period.
34. The municipality restated the comparative figure for basic salary from R167 863 382 as previously reported to R173 844 736 in note 19 to the financial statements. I was unable to obtain sufficient appropriate evidence for the restatement and could not confirm the restatement by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to the basic salary comparative figure of R173 844 736 as disclosed in note 19 to the financial statements.
35. During 2017, I was unable to obtain sufficient appropriate audit evidence that overtime claims had been properly accounted for, as the municipality did not maintain adequate controls over its record keeping. I was unable to confirm this expenditure by alternative means. Consequently, I was unable to determine whether any adjustment to employee costs stated at R318 846 836 to the financial statements was necessary. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current year financial statements is also modified because of the possible effect of this matter on the comparability of the employee costs for the current period.

Employee benefit liabilities

36. The municipality did not account for the restatement of the comparative figure for long term service awards by R44 835 143 in accordance with GRAP 3, *Accounting Policies, Changes in Accounting Estimates and Errors*. The nature of the prior period error and the amount of the correction for each financial statement line items affected is not disclosed in the prior period error note 30.
37. The municipality did not disclose the post-retirement medical aid benefits liability and the long service awards liability disclosed in note 12 to the financial statements in line with the requirements of GRAP 25, *Employee Benefits*. The following disclosures were omitted:
- The general description on the type of the plan was not disclosed on the financial statements
 - The reconciliation of opening and closing accrued liabilities

- The expenditure items for employee related provisions expensed in the statement of financial performance were not disclosed i.e actuarial gains or loss, current service costs and interest paid
- The assumptions made by the actuaries were not disclosed in the financial statements
- The sensitivity analysis was not included in the financial statements
- The liabilities and experience adjustment for current and previous four annual periods was not disclosed
- The best estimate of benefits payments expected in the next annual periods was only disclosed for the district municipality, the amounts for the local municipalities (Water and sewer employees) was not disclosed.

In addition, the liability amount on the past and future changes in the accrued liability disclosure of R15 566 721 differ to the liability amount of R80 502 509 as per the same note 12.

The disclosures in respect of multi-employer plans as required by GRAP 25, *Employee Benefits* were omitted in the financial statements for pension fund plans into which the municipality makes contributions for pension related post retirement benefits for employees.

Commitments

38. An amount of R11 589 010 disclosed as operational commitments in note 28 is duplicated in the commitment amount of R659 867 938 as it is already accounted for in the capital commitments of R648 278 973. In addition, included in commitments is an amount R9 388 445 in respect of a finance lease where a liability is already accounted for in the statement of financial position and a separate disclosure was made as per GRAP 13, *Leases*. I also identified a difference of R44 796 971 between the amounts as per the commitments register and my recalculation. Consequently commitments stated at R659 867 938 (2016-2017: R384 077 299) are overstated by R65 774 435.
39. The municipality incorrectly disclosed a commitment on projects for which it acts as an implementing agent amounting to R70 548 280. Consequently, commitments stated at R659 867 938 (2016-2017: R384 077 299) are overstated by R70 548 280.
40. I identified a number of contracts which were still effective as at 30 June 2018 that were not disclosed as commitments in the financial statements. Management did not implement adequate internal controls for identifying and recording capital commitments. I was not able to determine the full extent of the understatement of commitments stated at R659 867 938 (2016-2017: R384 077 299) as it was impracticable to do so.
41. During 2017, the municipality incorrectly disclosed commitments amounting to R20 454 063 for contracts which were completed as at 30 June 2017. Consequently, commitments was overstated by R20 454 063. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current year financial statements is also modified because of the possible effect of this matter on the comparability of the commitments for the current period.

Statement of comparison of budget and actual amounts

42. I have noted inconsistencies and material differences between budget amounts as per the statement of comparison of budget and actual amounts and the budget approved by council

Chapter 6

contrary to the requirements of GRAP 24, *Budget Information*. The statement is not easily comparable to the budget. Inconsistencies also exist between actual amounts and descriptions as per the financial statements and the budget statement. The inconsistencies impair the usability of the statement of budget and actual amounts by the users of the financial statements. In addition, there is no indication in the statement as to how the approved capital expenditure of R914 278 000 was spent. An explanation of material differences between the budget and actual amounts is not included in a note to the financial statements.

Cash flow statement

43. The municipality did not prepare the cash flow statement in accordance with GRAP 2, *Cash Flow Statements*. I was unable to reconcile amounts reflected in the cash flow statement to the underlying records. The cash flow statement is not a true reflection of cash flow of from operating and investing activities.

Statement of changes in net assets

44. I have identified an amount of R121 896 180 reflected on the statement of changes in net assets as net income/(loss) recognised directly in net assets which reduces the surplus for the period to R135 381 780. I was unable to obtain sufficient appropriate audit evidence for the net income/(loss) recognised directly in net assets. In addition, the restated accumulated surplus balance as per the statement of changes in net assets differ to comparative amount as per the statement of financial position. Consequently, I was unable to determine whether any further adjustments were necessary to accumulated surplus stated at R3 890 530 823 (2016-2017: R3 755 149 039).

Contingent liabilities

45. I was unable to obtain sufficient appropriate audit evidence for contingent liabilities stated at R283 727 576 in note 29 to the financial statements. I have identified inconsistencies between the disclosure note and the underlying records. I was unable to audit the amount by alternative means. Consequently, I was unable to determine whether any adjustments were required to contingent liabilities stated at R283 727 576.
46. During 2017, I was unable to obtain sufficient appropriate audit evidence that contingent liabilities have been properly accounted for, as the municipality did not maintain accurate and complete records of all its contingent liabilities. I was unable to confirm the balance by alternative means. Consequently, I was unable to determine whether any adjustment to contingent liability stated at R321 316 569 was necessary. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current year financial statements is also modified because of the possible effect of this matter on the comparability of contingent liabilities for the current period.

Material losses

47. The municipality did not have adequate systems in place to determine water distribution losses. Consequently, I was unable to determine whether any further adjustments were necessary to the distribution losses for the current and prior year disclosed in note 35 to the financial statements.

Chapter 6

GRAP 104 disclosure

48. The municipality did not disclose the quantitative and qualitative disclosures in respect of financial instruments in the financial statements as required by GRAP 104, *Financial Instruments* for the current and previous year.

Unauthorised expenditure

49. The municipality incorrectly calculated unauthorised expenditure in the current year. The municipality did not calculate the overspending per main vote. Consequently, unauthorised expenditure of R154 239 337 disclosed in note 32 is understated by R47 538 879.

Irregular expenditure

50. The municipality did not include the required information on irregular expenditure in the notes to the annual financial statements, as required by section 125(2)(d) of the MFMA. The municipality made payments in contravention of supply chain management (SCM) legislation that were not included in irregular expenditure of R196 997 397 as disclosed in note 34 to the financial statements. Adequate systems and controls were not in place to ensure that all irregular expenditure was accounted for. I was not able to determine the full extent of the understatement of irregular expenditure in the current and previous year as it was impracticable to do so.

Fruitless and wasteful expenditure

51. The municipality did not include the required information on fruitless expenditure in the notes to the annual financial statements, as required by section 125(2)(d) of the MFMA. The municipality incurred fruitless and wasteful expenditure amounting to R17 885 948. The details of the fruitless and wasteful expenditure were not included in note 33 to the financial statements.

Related parties

52. In terms of GRAP 20, *Related Parties*, if a reporting entity has had related party transactions during the periods covered by the financial statements, it shall disclose the nature of the related party relationship as well as information about those transactions and outstanding balances, including commitments, necessary for users to understand the potential effect of the relationship on the financial statements. The municipality did not disclose details of some of the members of key management personnel as required by GRAP 20, *Related Parties*. Furthermore, the municipality did not disclose related party relationships in the financial statements.

Going concern

53. I have identified differences between the municipality's going concern disclosure note 31 and the statement of financial position. The net current liability of the municipality as per note 31 to the financial statements, is stated at R3 890 530 823 instead of R1 178 844 045 as per the statement of financial position. The municipality incorrectly stated that the total liabilities exceeded total assets whilst total assets exceeded total liabilities. Consequently, the net current liability as per note 31 is overstated by R2 711 686 778.

Pension and medical contributions

54. Section 125(1)(c) of the MFMA requires the municipality to disclose in the notes to the financial statements the total amounts paid in pension and medical aid contributions, and whether any amounts were outstanding as at the end of the financial year. I have identified a difference of R38 795 283 between the medical and pension amounts paid and the amount as per the underlying records. Consequently, the amount paid as disclosed in note 35 to the financial statement is understated by R38 795 283.

Context for the opinion

55. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of this auditor's report.
56. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *Code of ethics for professional accountants* (IESBA code) and the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
57. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my adverse opinion.

Emphasis of matter

58. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Restatement of corresponding figures

59. As disclosed in note 30 to the financial statements, some corresponding figures for 30 June 2017 have been restated as a result of errors discovered during 2018 in the financial statements of the municipality at, and for the year ended, 30 June 2017.

Material underspending of the conditional grants

60. As disclosed in note 11 to the financial statements, the municipality has materially underspent the budget on conditional grants to the amount of R65 441 472.

Other matter

61. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

62. The supplementary schedule set out on pages xx to xx does not form part of the financial statement and is presented as additional information. I have not audited this schedule and, accordingly, I do not express an opinion thereon.

Responsibilities of the accounting officer for the financial statements

63. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with SA Standards of GRAP and the requirements of MFMA and the DeRA and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
64. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the accounting officer either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

65. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
66. A further description of my responsibilities for the audit of the financial statements is included in the annexure to the auditor's report.

Report on the audit of the annual performance report

Introduction and scope

67. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
68. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipality. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
69. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected development priorities presented in the annual performance report of the municipality for the year ended 30 June 2018:

Chapter 6

Development priorities	Pages in the annual performance report
KPA 2: Basic service delivery	x – x
KPA 3: Local economic development	x – x

70. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
71. The material findings in respect of the usefulness and reliability of the selected development priorities are as follows:

KPA 2 – Basic service delivery

Various indicators

72. I was unable to obtain sufficient appropriate audit evidence for the reported achievements in the annual performance report of the indicators listed below. This was due to a lack of technical indicator descriptions, proper performance management systems and processes with formal standard operating procedures that predetermined how the achievement would be measured, monitored and reported. I was unable to confirm that the reported achievements of these indicators were reliable by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported achievements.

Indicator description	Target	Reported achievement
Percentage of assessment activities completed related to the implementation of infrastructure maintenance and replacement plan year to date (ytd)	100%	100%
Development of Water Services Infrastructure Development Plan	1	1
Number of activities completed towards a functional water infrastructure ytd	5	100%
Approved district water master management plan (water services)	1	1
Percentage of progress in the development municipal infrastructure investment plan ytd	100%	1

Chapter 6

Indicator description	Target	Reported achievement
Percentage contractors with progress and performance that conform to the contract requirements	100%	100%
Percentage of resolutions implemented related to the contractors meetings	100%	100%
Percentage of contractors who are on schedule (with their gantt chart)	100%	100%
Percentage of contractors who are behind schedule	0%	10%
Number of water projects towards the provision of water to the district	13	15
Percentage of contractors who are deficient and needs intervention	0%	12%
Number of projects supported on green economy activities	8	8
Percentage of food control and safety resolutions taken and implemented	100%	100%

73. The reported achievement in the annual performance report did not agree to the supporting evidence provided for the indicators listed below. The supporting evidence provided indicated that the achievements of these indicators were as follows:

Indicator description	Reported achievement	Audited value
Development of the disaster management annual report and submission to POMC and council before end of September	1	0
Approved district water master management plan (MM's office)	1	0

74. The municipality did not have an adequate record keeping system to enable reliable reporting on achievement of the indicators listed below. As a result, I was unable to obtain sufficient appropriate audit evidence in some instances, while in other cases the supporting evidence provided did not agree to the reported achievements. Based on the supporting evidence that was provided, the achievement of these indicators was different to the reported achievement in the annual performance report. I was also unable to further confirm the reported achievements

Chapter 6

by alternative means. Consequently, I was unable to determine whether any further adjustments were required to the reported achievements of the indicators listed below.

Indicator description	Reported achievement	Audited value
Number of formal health and hygiene education/workshops conducted	6	115
Number of accommodation establishments inspected	185	82
Number of VIP ablution facilities for provision of sanitation in the District	800	150
Percentage of complaints investigated on littering, illegal dumping and burning of waste	100%	33%

75. I was unable to obtain sufficient appropriate audit evidence to support the measures taken to improve performance against the following targets as reported in the annual performance report. This was due to limitations placed on the scope of my work as no corroborating evidence was provided. I was unable to confirm the reported measures taken by alternative means. Consequently, I was unable to determine whether any adjustments were required to the reported measures taken to improve performance.

Indicator description	Target	Reported
Percentage of contractors who are behind schedule	0%	10%
Percentage of contractors who are deficient and need intervention	0%	12%
Percentage of progress in the development municipal infrastructure investment plan ytd	100%	1
Number of RBIG reports submitted to DWWS YTD	12	10
Number of VIP ablution facilities for provision of sanitation in the district ytd (M196)	530	0
Report on the improved level of services of water supply to communities	4	3

Number of VIP ablution facilities for provision of sanitation in the district

76. The target approved as per service delivery and budget implementation plan (SDBIP) is 530 however target as per the annual performance report is 265. The target was changed without the necessary approval.

Development of the integrated waste management plan and approval by council

77. The target approved as per SDBIP is 100%, however the target as per the annual performance report is 1, the unit of measure as per the SDBIP is a percentage however the unit of measure as per the APR is a number. The target was changed without the necessary approval.

Approved district water master management plan

78. The planned target and indicator was an approved District Water Master Management Plan but the reported achievements referred to was a draft master plan.

Development of water services infrastructure development plan

79. The planned target was number of activities achieved in the development of water services infrastructure development plan but the reported achievements referred to was a draft master plan.

Number of activities completed towards a functional water infrastructure ytd

80. The planned indicator and target was the number of activities achieved but the reported achievements referred to was a percentage.

Various indicators

81. The source information, evidence and method of calculation for achieving the planned indicators was not clearly defined for the indicators below:

Indicator description	Target
Number of accommodation establishments inspected	168
Development of the disaster management annual report and submission to PDMC and council before end of September	1

To accelerate sustainable infrastructure and maintenance in all sectors of development

82. The strategic objective approved in the integrated development plan and service delivery and budget implementation plan was not included in the annual performance report.

KPA 3 – Local economic development

Various indicators

83. The reported achievement in the annual performance report did not agree to the supporting evidence provided for the indicators listed below. The supporting evidence provided indicated that the achievements of these indicators were as follows:

Indicator description	Reported achievement	Audited value
To create a conducive environment to support key economic sectors	12	6
Coordination of (and reporting on) EPWP	12	14
Development of the status quo of mining in the district	5	4

Number of EPWP beneficiaries employed

84. The reported achievement of 341 for number of EPWP beneficiaries employed is not reliable as the municipality did not have an adequate performance management system to maintain records to enable reliable reporting on achievement of targets. As a result, I was unable to obtain sufficient appropriate audit evidence in some instances while in other cases the supporting evidence provided did not agree to the reported achievement. Based on the supporting evidence that was provided, the achievement was 162, but I was unable to further confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any further adjustments were required to the reported achievement.

Various indicators

85. The source information, evidence and method of calculation for achieving the planned indicators was not clearly defined for the indicators below:

Indicator description	Target
Training of SMMEs within the district	5
Promote SMME development initiatives year to date (ytd)	9
Development of the status quo of mining in the district	4

Coordination of (and reporting on) EPWP

86. The target approved as per SDBIP is one however target as per the annual performance report is four. The target was changed without the necessary approval.

Other matter

87. I draw attention to the matter below.

Achievement of planned targets

88. Refer to the annual performance report on pages ... to ... for information on the achievement of planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information in paragraphs 72 to 86 of this report.

Report on the audit of compliance with legislation

Introduction and scope

89. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the [type of auditee] with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

90. The material findings on compliance with specific matters in key legislations are as follows:

Strategic planning and performance management

91. The performance management system and related controls were inadequate as it did not adequately describe how the performance monitoring and measurement processes should be conducted, organised and managed, as required by municipal planning and performance management regulation 7(1).

Annual financial statements, annual performance report and annual report

92. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements identified by the auditors in the submitted financial statements were not corrected which resulted in the financial statements receiving an adverse audit opinion.
93. The council failed to adopt an oversight report containing the council's comments on the annual report within the prescribed timelines, as required by section 129(1) of the MFMA.
94. The local community was not invited to submit representations in connection with the 2016-17 annual report, as required by section 127(5)(a) of the MFMA.

Assets management

95. An effective system of internal control for assets was not in place, as required by section 63(2)(c) of the MFMA.

Conditional grants

96. The Water Services Infrastructure Grant was not spent for its intended purposes in accordance with the applicable grant framework, as required by section 17(1) of the DoRA.
97. Performance in respect of programmes funded by the Water Services Infrastructure Grant was not evaluated, as required by section 12(5) of the DoRA.

Procurement and contract management

98. The performance of some of the contractors or providers was not monitored on a monthly basis, as required by section 116(2)(b) of the MFMA.

Human resource management

99. Appropriate systems and procedures to monitor, measure and evaluate performance of staff were not developed and adopted as required by section 67(1)(d) of the Municipal Systems Act, 2000 (Act No. 5 of 2000) (MSA).
100. Two of the eight senior managers did not sign performance agreements within the prescribed period, as required by section 57(2)(a) of the MSA.
101. A senior manager failed to disclose financial interests within 60 days from date of appointment, as required by regulation 36(1)(a) on appointment and conditions of employment of senior managers.

Consequence management

102. Unauthorised expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) of the MFMA.

103. Some of the irregular expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

Expenditure management

104. Money owed by the municipality was not always paid within 30 days as required by section 65(2)(e) of the MFMA.
105. An adequate management, accounting and information system was not in place which recognised expenditure and accounted for creditors, as required by section 65(2)(b) of the MFMA.
106. Reasonable steps were not taken to prevent irregular expenditure, as required by section 62(1)(d) of the MFMA. The expenditure disclosed does not reflect the full extent of the irregular expenditure incurred as indicated in the basis for qualification paragraph. The majority of the disclosed irregular expenditure was caused by non-compliance with SCM laws and regulations.
107. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R17 886 948, as disclosed in note 33 to the annual financial statements, in contravention of section 62(1)(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by penalties due to non-payment of bulk water purchases from the Department of Water and Sanitation.
108. Reasonable steps were not taken to prevent unauthorised expenditure, as required by section 62(1)(d) of the MFMA. The expenditure disclosed does not reflect the full extent of the unauthorised expenditure incurred as indicated in the basis for qualification paragraph. The majority of the disclosed unauthorised expenditure was caused by overspending in various votes.

Revenue management

109. An effective system of internal control for debtors and revenue was not in place, as required by section 64(2)(f) of the MFMA.

Other information

110. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those selected development priorities presented in the annual performance report that have been specifically reported in this auditor's report.
111. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
112. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected programmes development priorities presented in the annual

performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

113. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate, however, if it is corrected this will not be necessary.

Internal control deficiencies

114. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in adverse opinion, the findings on the annual performance report and the findings on compliance with legislation included in this report.
115. The accounting officer and management did not exercise adequate oversight responsibility regarding financial and performance reporting and compliance with laws and regulations. Leadership did not exercise effective monitoring over the implementation of the audit action plan resulting in recurring prior year issues.
116. Consequence management was not implemented to deter non-performance and promote clean administration. The control environment remains concerning.
117. The basic accounting principles of daily and monthly accounting and reconciling of transactions have not been adequately implemented and monitored.
118. The financial statements and the annual performance report are not reviewed for accuracy and completeness by the accounting officer.
119. Internal controls for monitoring compliance with laws and regulations are ineffective as they do not detect and prevent instances of non-compliance with applicable laws and regulations.
120. The internal control monitoring mechanisms of the municipality are not functioning optimally, as many control weaknesses are only discovered during the audit of the financial statements and performance information.

Other reports

121. I draw attention to the following engagements conducted by various parties that had, or could have, an impact on the matters reported in the municipality's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
122. The Special Investigating Unit is investigating the procurement of goods and services that was in contravention of supply chain management laws and regulations. The investigation was still in progress at year-end.

Chapter 6

Auditor-General
Polokwane

30 November 2018

COMMENTS ON AUDITOR-GENERAL'S OPINION 2017/18:

The Audit opinion was Adverse

T6.2.4

Section 71 of the MFMA requires municipalities to return a series of financial performance data to the National Treasury at specified intervals throughout the year. The Chief Financial Officer states 93 that these data sets have been returned according to the reporting requirements.

MOPANI DISTRICT MUNICIPALITY

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these financial statements, which are set out on pages 1- in terms of section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of councilors as disclosed in note 22 of these financial statements are within the upper limits framework envisaged in section 219 of the Constitution read with the

Chapter 6

Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

I have complied with the disclosure requirements in terms of Section 122 to 126 of the Municipal Finance Management Act

Q. KGATLA
CHIEF FINANCIAL OFFICER

T6.2.5

GLOSSARY

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give " <i>full and regular</i> " reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe " <i>what we do</i> ".
Adequacy indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.

APPENDICES

Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	<ul style="list-style-type: none"> • Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.

APPENDICES

Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	<p>One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area.</p> <p>Section 1 of the MFMA defines a "vote" as:</p> <p><i>a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and</i></p> <p><i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i></p>

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates. The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2019 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

Although the accounting officer are primarily responsible for the financial affairs of the municipality, they are supported by the municipality's external auditors.

The external auditors are responsible for independently reviewing and reporting on the municipality's annual financial statements. The annual financial statements have been examined by the municipality's external auditors and their report is presented on page 6.

The annual financial statements set out on pages 6 to 82, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2018 and were signed on its behalf by:

Accounting Officer

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2018.

1. Review of activities

Main business and operations

2. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the accounting officer continue to secure funding through the national treasury. The most significant of these is that the accounting continues to secure funding through national treasury for the ongoing operations of the municipality. Other factors affecting going concern are as follows:

As at 30 June, the municipality's current liabilities exceed the current assets by R 1,178,844,045 resulting in the municipality to be technically insolvent. This fact on its own does bar the municipality to continue being a going concern given that going concern implies that the municipality will be in existence within 12 months of the balance sheet dates. The factors indicated below confirms that the municipality will be in existence within 12 months of the balance sheet date.

- a) The municipality is experiencing challenges of collecting own revenue from water and sanitation. This is due to weakness and controls involving management of revenue at the local municipalities since the latter are service providers and the district is the service authority.
- b) The municipality is service significant historic obligations that do not necessarily have source of funding other than the funding from National Treasury. These obligations include Lepelle Northern Water estimated at R548 million, Department of Water Affairs estimated at R250 million, as well as litigations and claims that come on an ad hoc basis. These litigations and claims can easily cost the municipality over R100 million per annum.
- c) There is a need to relook into the municipality's obligations against its resources as the situation currently is not sustainable.
- d) The municipality invests a significant amount of resources in the water and sanitation infrastructure with little if any return. This is as the municipality spend a full calendar year without a cent being received from water and sanitation consumers.
- e) It is extremely difficult to effectively monitor the cash flow of the municipality because a lot of payments are historic and come on surprise bases. These payments come in various form including, historic claims of contractors on projects, historic legal fees, unpredictable and excessive overtime payments from essential services sections, etc.
- f) More often than not, MIG funding transfer for committed projects from National Treasury gets delayed putting more pressure on the liquidity of the municipality.
- g) There is also a significant portion of payments for infrastructure projects funded through own funding outside budgets as most of the payments are made to avoid litigations.

Even though the current liabilities exceed the current assets the municipality is a going concern because of the following reasons:

- a) There is a commitment from National Treasury to fund the operations of the municipality through equitable share and conditional grants. This is substantiated by past practice and gazettes issued by National Treasury for the MTREF period under consideration.
- b) There is no change in the legislation that impact on the municipality's ability to continue as a going concern;
- c) There is plans to ensure that there is effective spending of funds.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Officer's Report

d) There is no communication or statement issued by national treasury to the effect that the municipality will no longer qualify funds from the national treasury in the foreseeable future.

(e) The municipality has rearranged its long term debts to have significant portions financed over a long term to allow for liquidity.

(f) In the medium to long - term, the municipality is taking consideration over water and sanitation function with the aim of maximising revenue collection and recovery of debtors, the monies which will be utilised to pay creditors with speed and return to good liquidity and solvency positions.

(g) The municipality has prepared a healthy cashflow projection for the 2018/2019 financial year which has to date been complied with.

(h) The municipality is spending within budget votes which will assist in keeping expenses and liability repayments within budgeted resources.

3. Subsequent events

The accounting officer is not aware of any matter or circumstance arising since the end of the financial year.

4. Accounting policies

The annual financial statements prepared in accordance with the prescribed Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board as the prescribed framework by National Treasury.

5. Accounting Officer

The accounting officers of the municipality during the year and to the date of this report is as follows:

Monakedi S.R (South African).
01 April 2017 to date

6. Auditors

Auditor - General South Africa will continue in office for the next financial period.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

1.1 Going concern assumption

These annual financial statements have been prepared based on the expectation that the municipality will continue to operate as a going concern for at least the next 12 months.

1.2 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Trade receivables or loans and receivables

The municipality assesses its trade receivables, held to maturity investments and loans and receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables and loans and receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

Allowance for slow moving, damaged and obsolete stock

An allowance for stock to write stock down to the lower of cost or net realisable value. Management have made estimates of the selling price and direct cost to sell on certain inventory items.

Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the municipality is the current bid price.

The fair value of financial instruments that are not traded in an active market (for example, over-the counter derivatives) is determined by using valuation techniques. The municipality uses a variety of methods and makes assumptions that are based on market conditions existing at the end of each reporting period. Quoted market prices or dealer quotes for similar instruments are used for long-term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using quoted forward exchange rates at the end of the reporting period.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the municipality for similar financial instruments.

The carrying amount of available-for-sale financial assets would be an estimated - lower or - higher were the discounted rate used in the discount cash flow analysis to differ by 10% from management's estimates.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.2 Significant judgements and sources of estimation uncertainty (continued)

Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions. It is reasonably possible that the assumption may change which may then impact our estimations and may then require a material adjustment to the carrying value of goodwill and tangible assets.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. In addition, goodwill is tested on an annual basis for impairment. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of goodwill and tangible assets are inherently uncertain and could materially change over time.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 12 - Provisions.

Post retirement benefits

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note .

Effective interest rate

The municipality used the prime interest rate to discount future cash flows.

Allowance for doubtful debts

On debtors an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the debtors carrying amount and the present value of estimated future cash flows discounted at the effective interest rate, computed at initial recognition.

Cash and Cash equivalents

Cash and Cash equivalents are measured at cost.

Cash includes cash on hand cash with banks. Cash equivalents are short term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purpose of the Cash Flow Statement, cash and cash equivalents comprise cash on hand and deposits held on call with bankst

Trade payables

Trade payables are initially measured at fair value plus transaction costs that are directly attributable to the acquisition and are subsequently measured at amortised cost using the effective interest rate method.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.2 Significant judgements and sources of estimation uncertainty (continued)

Events after balance sheet date

Recognised amounts in the financial statements are adjusted to reflect events arising after the balance sheet date that provide evidence of conditions that existed at the Balance Sheet date. Events after the balance sheet date that are indicative of conditions that arose after the Balance Sheet date are disclosed with by way of note to the Financial Statements

Disclosure for each material category of non-adjusting events after the reporting date should be done disclosing the nature of the event and the estimation of its financial effect or a statement that such an estimation cannot be made.

1.3 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment is carried at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.3 Property, plant and equipment (continued)

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in municipality or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in municipality or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in municipality or deficit in the current period. The decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The revaluation surplus in equity related to a specific item of property, plant and equipment is transferred directly to retained earnings when the asset is derecognised.

The revaluation surplus in equity related to a specific item of property, plant and equipment is transferred directly to retained earnings as the asset is used. The amount transferred is equal to the difference between depreciation based on the revalued carrying amount and depreciation based on the original cost of the asset.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Property, plant and equipment is carried at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in municipality or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in municipality or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in municipality or deficit in the current period. The decrease is debited in revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Average useful life
Land	Indefinite
Buildings	30 years
Plant and machinery	4 - 10 years
Furniture and fixtures	5 - 7 years
Motor vehicles	7 - 15 years
Work In Progress	4 - 5 years
Information Technology Equipment	4 years
Specilised vehicles	15 years
Water reservoir reticulation	5 - 60 years
Sewerage purification	5 - 60 years

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

DRAFT

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.3 Property, plant and equipment (continued)

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The municipality assesses at each reporting date whether there is any indication that the municipality expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the municipality revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in municipality or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in municipality or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Assets which the municipality holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the statement of financial position.

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

1.4 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.4 Intangible assets (continued)

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Useful life
Licenses and franchises	5 years
Computer software	5 years
Blyde Water Utility	20 years
.	

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of intangible assets is determined as the difference between the net disposal proceeds. Such difference is recognised in surplus or deficit when the intangible asset is derecognised.

1.5 Heritage assets

Assets are resources controlled by an municipality as a result of past events and from which future economic benefits or service potential are expected to flow to the municipality.

Carrying amount is the amount at which an asset is recognised after deducting accumulated impairment losses.

Class of heritage assets means a grouping of heritage assets of a similar nature or function in an municipality's operations that is shown as a single item for the purpose of disclosure in the annual financial statements.

Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Standards of GRAP.

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.5 Heritage assets (continued)

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

An impairment loss of a cash-generating asset is the amount by which the carrying amount of an asset exceeds its recoverable amount.

An impairment loss of a non-cash-generating asset is the amount by which the carrying amount of an asset exceeds its recoverable service amount.

An inalienable item is an asset that an municipality is required by law or otherwise to retain indefinitely and cannot be disposed of without consent.

Recoverable amount is the higher of a cash-generating asset's net selling price and its value in use.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Value in use of a cash-generating asset is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

Value in use of a non-cash-generating asset is the present value of the asset's remaining service potential.

The municipality separately discloses expenditure to repair and maintain heritage assets in the notes to the financial statements (see note).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as an asset, a class of heritage assets is carried at its cost less any accumulated impairment losses.

After recognition as an asset, a class of heritage assets, whose fair value can be measured reliably, is carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent impairment losses.

If a heritage asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to a revaluation municipality. However, the increase is recognised in municipality or deficit to the extent that it reverses a revaluation decrease of the same heritage asset previously recognised in municipality or deficit.

If a heritage asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised in municipality or deficit. However, the decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation municipality in respect of that heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is included in municipality or deficit when the item is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

A concessionary loan is a loan granted to or received by an entity on terms that are not market related.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- It is settled at a future date.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transactions), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

A financial asset is:

- cash;
- a residual interest of another entity; or
- a contractual right to:
 - receive cash or another financial asset from another entity; or
 - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A financial liability is any liability that is a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

DRAFT

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.6 Financial instruments (continued)

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

Loans payable are financial liabilities, other than short-term payables on normal credit terms.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

A financial asset is past due when a counterparty has failed to make a payment when contractually due.

A residual interest is any contract that manifests an interest in the assets of an entity after deducting all of its liabilities. A residual interest includes contributions from owners, which may be shown as:

- equity instruments or similar forms of unitised capital;
- a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net assets, either before the contribution occurs or at the time of the contribution; or
- a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:

- the entity designates at fair value at initial recognition; or
- are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- derivatives;
- combined instruments that are designated at fair value;
- instruments held for trading. A financial instrument is held for trading if:
 - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
 - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
 - non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and
 - financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

mpam District municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.6 Financial instruments (continued)

Classification

The entity has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Cash and cash equivalents	Financial asset measured at amortised cost
Other receivables	loans and receivables
Loans and receivables	loans and receivables
Consumer debtors	loans and receivables
Held to maturity investments	Held on maturity

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Other financial liabilities	Financial liability measured at amortised cost
Trade and other payables	Financial liability measured at amortised cost
Consumer deposits	Financial liability measured at fair value

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

The entity recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The entity measures a financial asset and financial liability initially at its fair value [if subsequently measured at fair value].

The entity first assesses whether the substance of a concessionary loan is in fact a loan. On initial recognition, the entity analyses a concessionary loan into its component parts and accounts for each component separately. The entity accounts for that part of a concessionary loan that is:

- a social benefit in accordance with the Framework for the Preparation and Presentation of Financial Statements, where it is the issuer of the loan; or
- non-exchange revenue, in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers), where it is the recipient of the loan.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.6 Financial instruments (continued)

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at fair value.
- Financial instruments at amortised cost.
- Financial instruments at cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the entity establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, an municipality calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

The fair value of a financial liability with a demand feature (e.g. a demand deposit) is not less than the amount payable on demand, discounted from the first date that the amount could be required to be paid.

Reclassification

The entity does not reclassify a financial instrument while it is issued or held unless it is:

- combined instrument that is required to be measured at fair value; or
- an investment in a residual interest that meets the requirements for reclassification.

Where the entity cannot reliably measure the fair value of an embedded derivative that has been separated from a host contract that is a financial instrument at a subsequent reporting date, it measures the combined instrument at fair value. This requires a reclassification of the instrument from amortised cost or cost to fair value.

If fair value can no longer be measured reliably for an investment in a residual interest measured at fair value, the entity reclassifies the investment from fair value to cost. The carrying amount at the date that fair value is no longer available becomes the cost.

If a reliable measure becomes available for an investment in a residual interest for which a measure was previously not available, and the instrument would have been required to be measured at fair value, the entity reclassifies the instrument from cost to fair value.

Gains and losses

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in municipality or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in municipality or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

Impairment and uncollectibility of financial assets

The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

Financial assets measured at amortised cost:

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.6 Financial instruments (continued)

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly OR through the use of an allowance account. The amount of the loss is recognised in municipality or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly OR by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in municipality or deficit.

Financial assets measured at cost:

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

Presentation

Interest relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in municipality or deficit.

Dividends or similar distributions relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in municipality or deficit.

Losses and gains relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in municipality or deficit.

Distributions to holders of residual interests are recognised by the entity directly in net assets. Transaction costs incurred on residual interests are accounted for as a deduction from net assets. Income tax [where applicable] relating to distributions to holders of residual interests and to transaction costs incurred on residual interests are accounted for in accordance with the International Accounting Standard on Income Taxes.

A financial asset and a financial liability are only offset and the net amount presented in the statement of financial position when the entity currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

In accounting for a transfer of a financial asset that does not qualify for derecognition, the entity does not offset the transferred asset and the associated liability.

1.7 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.7 Leases (continued)

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Income for leases is disclosed under revenue in statement of financial performance.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.8 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the first-in, first-out (FIFO) formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.8 Inventories (continued)

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs. After inventory is assessed at the end of the year, obsolete items are written down using the market value of the inventory items.

1.9 Construction contracts and receivables

Construction contract is a contract, or a similar binding arrangement, specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated or interdependent in terms of their design, technology and function or their ultimate purpose or use.

Contractor is an entity that performs construction work pursuant to a construction contract.

Cost plus or cost based contract is a construction contract in which the contractor is reimbursed for allowable or otherwise defined costs and, in the case of a commercially-based contract, an additional percentage of these costs or a fixed fee, if any.

Fixed price contract is a construction contract in which the contractor agrees to a fixed contract price, or a fixed rate per unit of output, which in some cases is subject to cost escalation clauses.

A contractor is an entity that enters into a contract to build structures, construct facilities, produce goods, or render services to the specifications of another entity either itself or through the use of sub-contractors. The term "contractor" thus includes a general or prime contractor, a subcontractor to a general contractor, or a construction manager.

The entity assesses the terms and conditions of each contract concluded with customers to establish whether the contract is a construction contract or not. In assessing whether the contract is a construction contract, an entity considers whether it is a contractor.

Where the outcome of a construction contract can be estimated reliably, contract revenue and costs are recognised by reference to the stage of completion of the contract activity at the reporting date, as measured by .

Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent that contract costs incurred are recoverable. Contract costs are recognised as an expense in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected deficit is recognised as an expense immediately.

1.10 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.10 Impairment of cash-generating assets (continued)

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the municipality; or
- the number of production or similar units expected to be obtained from the asset by the municipality.

Judgements made by management in applying the criteria to designate assets as cash-generating assets or non-cash-generating assets, are as follows:

[Specify judgements made]

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also tests a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

Basis for estimates of future cash flows

In measuring value in use the municipality:

- base cash flow projections on reasonable and supportable assumptions that represent management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset. Greater weight is given to external evidence;
- base cash flow projections on the most recent approved financial budgets/forecasts, but excludes any estimated future cash inflows or outflows expected to arise from future restructuring's or from improving or enhancing the asset's performance. Projections based on these budgets/forecasts covers a maximum period of five years, unless a longer period can be justified; and
- estimate cash flow projections beyond the period covered by the most recent budgets/forecasts by extrapolating the projections based on the budgets/forecasts using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. This growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used, unless a higher rate can be justified.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.10 Impairment of cash-generating assets (continued)

Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in municipality or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the municipality recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

- the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
- the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.10 Impairment of cash-generating assets (continued)

Reversal of impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in municipality or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

1.11 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees.

A qualifying insurance policy is an insurance policy issued by an insurer that is not a related party (as defined in the Standard of GRAP on Related Party Disclosures) of the reporting entity, if the proceeds of the policy can be used only to pay or fund employee benefits under a defined benefit plan and are not available to the reporting entity's own creditors (even in liquidation) and cannot be paid to the reporting entity, unless either:

- the proceeds represent surplus assets that are not needed for the policy to meet all the related employee benefit obligations; or
- the proceeds are returned to the reporting entity to reimburse it for employee benefits already paid.

Termination benefits are employee benefits payable as a result of either:

- an entity's decision to terminate an employee's employment before the normal retirement date; or
- an employee's decision to accept voluntary redundancy in exchange for those benefits.

Other long-term employee benefits are employee benefits (other than post-employment benefits and termination benefits) that are not due to be settled within twelve months after the end of the period in which the employees render the related service.

Vested employee benefits are employee benefits that are not conditional on future employment.

Composite social security programmes are established by legislation and operate as multi-employer plans to provide post-employment benefits as well as to provide benefits that are not consideration in exchange for service rendered by employees.

DRAFT

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.11 Employee benefits (continued)

A constructive obligation is an obligation that derives from an entity's actions where by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities and as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The entity recognise the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which an entity provides post-employment benefits for one or more employees.

Multi-employer plans are defined contribution plans (other than state plans and composite social security programmes) or defined benefit plans (other than state plans) that pool the assets contributed by various entities that are not under common control and use those assets to provide benefits to employees of more than one entity, on the basis that contribution and benefit levels are determined without regard to the identity of the entity that employs the employees concerned.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.11 Employee benefits (continued)

Post-employment benefits: Defined contribution plans

Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

When an employee has rendered service to the entity during a reporting period, the entity recognise the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the reporting date, an entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

Where contributions to a defined contribution plan do not fall due wholly within twelve months after the end of the reporting period in which the employees render the related service, they are discounted. The rate used to discount reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the obligation.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.11 Employee benefits (continued)

The entity determines the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

The entity recognises the net total of the following amounts in municipality or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement rights;
- actuarial gains and losses;
- past service cost;
- the effect of any curtailments or settlements; and
- the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The entity uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, an entity shall attribute benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, an entity shall attribute benefit on a straight-line basis from:

- the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service); until
- the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

The entity recognises gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on a curtailment or settlement comprises:

- any resulting change in the present value of the defined benefit obligation; and
- any resulting change in the fair value of the plan assets.

Before determining the effect of a curtailment or settlement, the entity re-measures the obligation (and the related plan assets, if any) using current actuarial assumptions (including current market interest rates and other current market prices).

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is [OR is not] presented as the net of the amount recognised for a reimbursement.

The entity offsets an asset relating to one plan against a liability relating to another plan when the entity has a legally enforceable right to use a municipality in one plan to settle obligations under the other plan and intends either to settle the obligations on a net basis, or to realise the surplus in one plan and settle its obligation under the other plan simultaneously.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.11 Employee benefits (continued)

Actuarial assumptions

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
 - those changes were enacted before the reporting date; or
 - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

Long term service awards

Employees qualify for additional leave for various period of uninterrupted service in accordance with SALGBC condition of service. The long term service award measured in accordance with GRAP 25 through an actuarial valuation.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The municipality also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date; and
- less the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The municipality shall recognise the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which shall all be recognised immediately;
- past service cost, which shall all be recognised immediately; and
- the effect of any curtailments or settlements.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.11 Employee benefits (continued)

Accumulated leave days

Accumulated leave benefit accrues to employees up to maximum of 48 leave days. The benefits are paid in the events of death, disability, retrenchment or/and retirement. Employees who have leave days in excess of the 48 days for periods, before the conditions of service came to effect, are measured in accordance with GRAP 25 through an actuarial valuation.

The municipality is demonstrably committed to a termination when the municipality has a detailed formal plan for the termination and is without realistic possibility of withdrawal. The detailed plan includes [as a minimum]:

- the location, function, and approximate number of employees whose services are to be terminated;
 - the termination benefits for each job classification or function; and
 - the time at which the plan will be implemented.
- Implementation begins as soon as possible and the period of time to complete implementation is such that material changes to the plan are not likely.
- Where termination benefits fall due more than 12 months after the reporting date, they are discounted using an appropriate discount rate. The rate used to discount the benefit reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the benefit.
- In the case of an offer made to encourage voluntary redundancy, the measurement of termination benefits shall be based on the number of employees expected to accept the offer. .

1.12 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating surplus.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Mopani District Municipality

Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

12 Provisions and contingencies (continued)

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
 - the activity/operating unit or part of an activity/operating unit concerned;
 - the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for services being terminated;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- necessarily entailed by the restructuring; and
- not associated with the ongoing activities of the municipality

No obligation arises as a consequence of the sale or transfer of an operation until the municipality is committed to the sale or transfer, that is, there is a binding arrangement.

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

The municipality recognises a provision for financial guarantees and loan commitments when it is probable that an outflow of resources embodying economic benefits and service potential will be required to settle the obligation and a reliable estimate of the obligation can be made.

Determining whether an outflow of resources is probable in relation to financial guarantees requires judgement. Indications that an outflow of resources may be probable are:

- financial difficulty of the debtor;
- defaults or delinquencies in interest and capital repayments by the debtor;
- breaches of the terms of the debt instrument that result in it being payable earlier than the agreed term and the ability of the debtor to settle its obligation on the amended terms; and
- a decline in prevailing economic circumstances (e.g. high interest rates, inflation and unemployment) that impact on the ability of entities to repay their obligations.

Where a fee is received by the municipality for issuing a financial guarantee and/or where a fee is charged on loan

commitments, it is considered in determining the best estimate of the amount required to settle the obligation at reporting date.

Where a fee is charged and the municipality considers that an outflow of economic resources is probable, an municipality recognises the obligation at the higher of:

- the amount determined using in the Standard of GRAP on Provisions, Contingent Liabilities and Contingent Assets; and

DRAFT

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.12 Provisions and contingencies (continued)

- the amount of the fee initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the Standard of GRAP on Revenue from Exchange Transactions.

Contingent Assets

Contingent assets are possible assets whose existence will be confirmed by the occurrence or non-occurrence of uncertain future events that are not wholly within the control of the entity. Contingent assets are not recognised, but they are disclosed when it is more likely than not that an inflow of benefits will occur. However, when the inflow of benefits is virtually certain an asset is recognised in the statement of financial position, because that asset is no longer considered to be contingent.

Contingent Liability

A contingent liability is not recognised as it is a potential liability that may occur depending on the outcome of a future event. A contingent liability is recorded in the accounting records if the contingency is probable and the amount of the liability can be reasonably determined. If both are not met, the liability may be disclosed in the notes to the financial statements.

Termination benefits

The municipality recognises termination benefits as a liability and an expense when the municipality is demonstrably committed to either:

- terminate the employment of an employee or group of employees before the normal retirement date; or
- provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

The municipality is demonstrably committed to a termination when the municipality has a detailed formal plan for the termination and is without realistic possibility of withdrawal. The detailed plan includes [as a minimum]:

- the location, function, and approximate number of employees whose services are to be terminated;
- the termination benefits for each job classification or function; and
- the time at which the plan will be implemented.

Implementation begins as soon as possible and the period of time to complete implementation is such that material changes to the plan are not likely.

Where termination benefits fall due more than 12 months after the reporting date, they are discounted using an appropriate discount rate.

The rate used to discount the benefit reflects the time value of money. In the case of an offer made to encourage voluntary redundancy, the measurement of termination benefits is based on the number of employees expected to accept the offer.

1.13 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.14 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Service charges

When the outcome of the transactions involving the rendering of services can be estimated reliably, revenue with transaction is recognised. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much more significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined to the extent expenditure incurred is recoverable.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.14 Revenue from exchange transactions (continued)

Interest, royalties and dividends

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised, in municipality or deficit, using the effective interest rate method.

Royalties are recognised as they are earned in accordance with the substance of the relevant agreements.

Dividends or similar distributions are recognised, in municipality or deficit, when the municipality's right to receive payment has been established.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

1.15 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Control of an asset arises when the municipality can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Exchange transactions are transactions in which one entity receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another entity in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

1.16 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.17 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.18 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.19 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.20 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including -

- (a) this Act or or -
- (b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Accounting Policies

1.20 Irregular expenditure (continued)

(c) any provincial legislation providing for procurement procedures in that provincial government.

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

1.21 Budget information

Municipalities are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by municipalities shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on an accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2017/07/01 to 2018/06/30.

Variances above 10 percent are considered significant.

The annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

The Statement of comparative and actual information has been included in the annual financial statements as the recommended disclosure when the annual financial statements and the budget are on the same basis of accounting as determined by National Treasury

1.22 Related parties

The municipality operates in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a consequence of the constitutional independence of the three spheres of government in South Africa, entities within the National, Provincial and Local sphere of government are considered to be related parties.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

Notes to the Annual Financial Statements

Figures in Rand	2018	2017
-----------------	------	------

2. New standards and interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the municipality has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations

GRAP 21 (as amended 2015): Impairment of non-cash-generating assets

The Board agreed to include a research project on its work programme to review GRAP 21 and GRAP 26 to assess whether the principles in these Standards could be simplified and streamlined. As part of its research project, the Board considered the following aspects which led to the proposed amendments included in this Exposure Draft:

- simplifying the approach to impairment to make it clearer when an asset is cash generating or non-cash generating;
- assessing the feasibility of one measurement approach for non-cash-generating assets; and
- assessing the feasibility of combining the two Standards.

Summary of changes:

The changes to the Standard of GRAP on Impairment of Non-cash-generating Assets are outlined below:

General definitions:

The definition of cash-generating assets has been amended to be consistent with the amendments made to clarify the objective of cash-generating assets and non-cash-generating assets.

Cash generating assets and non-cash-generating assets:

Additional commentary has been added to clarify the objective of cash-generating assets and non-cash-generating assets.

Identifying an asset that may be impaired:

Additional commentary has been added to clarify that physical damage triggers impairment of an asset when it results in a permanent or a significant decline in the potential of an asset.

Reversing an impairment loss:

An indicator has been added that the restoration of an asset's service potential following physical damage to the asset could indicate a reversal in an impairment loss.

Additional commentary has been added to clarify that restoration of an asset's service potential as a result of physical damage is an indication that an impairment loss recognised in prior periods may no longer exist or may have decreased.

Disclosures:

The requirement to disclose the criteria developed to distinguish non-cash-generating assets from cash-generating assets has been amended to be consistent with the amendments made to clarify the objective of non-cash-generating assets and cash-generating assets.

The effective date of the standard is for years beginning on or after 01 April 2017.

The municipality has adopted the standard in the current year.

The standard does not have a material impact on the municipality's financial statements.

GRAP 26 (as amended 2015): Impairment of cash-generating assets

The Board agreed to include a research project on its work programme to review GRAP 21 and GRAP 26 to assess whether the principles in these Standards could be simplified and streamlined. As part of its research project, the Board considered the following aspects which led to the proposed amendments included in this Exposure Draft:

- simplifying the approach to impairment to make it clearer when an asset is cash generating or non-cash generating;
- assessing the feasibility of one measurement approach for non-cash-generating assets; and
- assessing the feasibility of combining the two Standards.

Summary of changes:

The changes to the Standard of GRAP on Impairment of Cash-generating Assets are outlined below:

DRAFT

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

General definitions:

The definitions of cash-generating assets and cash-generating unit have been amended to be consistent with the amendments made to clarify the objective of cash-generating assets and non-cash-generating assets below.

Cash generating assets and non-cash-generating assets:

Additional commentary has been added to clarify the objective of cash-generating assets and non-cash-generating assets.

Disclosures:

The requirement to disclose the criteria developed to distinguish cash-generating assets from non-cash-generating assets has been amended to be consistent with the amendments made to clarify the objective of non-cash-generating assets and cash-generating assets.

The effective date of the standard is for years beginning on or after 01 April 2017.

The municipality has adopted the standard in the current year. The standard does not have a material impact on the municipality's financial statements

2.2 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2018 or later periods:

GRAP 32: Service Concession Arrangements: Grantor

The objective of this Standard is: to prescribe the accounting for service concession arrangements by the grantor, a public sector entity.

It furthermore covers: Definitions, recognition and measurement of a service concession asset, recognition and measurement of liabilities, other liabilities, contingent liabilities, and contingent assets, other revenues, presentation and disclosure, transitional provisions, as well as the effective date.

The effective date of the standard is not yet set by the Minister of Finance.

The municipality will adopt the standard for the first time when the Minister sets the effective date for the standard.

GRAP 108: Statutory Receivables

The objective of this Standard is: to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.

It furthermore covers: Definitions, recognition, derecognition, measurement, presentation and disclosure, transitional provisions, as well as the effective date.

The effective date of the standard is not yet set by the Minister of Finance.

The municipality will adopt the standard once the effective date is announced by the Minister of Finance

IGRAP 17: Service Concession Arrangements where a Grantor Controls a Significant Residual Interest in an Asset

This Interpretation of the Standards of GRAP provides guidance to the grantor where it has entered into a service concession arrangement, but only controls, through ownership, beneficial entitlement or otherwise, a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease. This Interpretation of the Standards of GRAP shall not be applied by analogy to other types of transactions or arrangements.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

A service concession arrangement is a contractual arrangement between a grantor and an operator in which the operator uses the service concession asset to provide a mandated function on behalf of the grantor for a specified period of time. The operator is compensated for its services over the period of the service concession arrangement, either through payments, or through receiving a right to earn revenue from third party users of the service concession asset, or the operator is given access to another revenue-generating asset of the grantor for its use.

Before the grantor can recognise a service concession asset in accordance with the Standard of GRAP on Service Concession Arrangements: Grantor, both the criteria as noted in paragraph .01 of this Interpretation of the Standards of GRAP need to be met. In some service concession arrangements, the grantor only controls the residual interest in the service concession asset at the end of the arrangement, and can therefore not recognise the service concession asset in terms of the Standard of GRAP on Service Concession Arrangements: Grantor.

A consensus is reached, in this Interpretation of the Standards of GRAP, on the recognition of the performance obligation and the right to receive a significant interest in a service concession asset.

The effective date of the standard is not yet set by the Minister of Finance.

The municipality will adopt the standard once the effective date is announced by the Minister of Finance

GRAP 18: Segment Reporting

Segments are identified by the way in which information is reported to management, both for purposes of assessing performance and making decisions about how future resources will be allocated to the various activities undertaken by the municipality. The major classifications of activities identified in budget documentation will usually reflect the segments for which an entity reports information to management.

Segment information is either presented based on service or geographical segments. Service segments relate to a distinguishable component of an entity that provides specific outputs or achieves particular operating objectives that are in line with the municipality's overall mission. Geographical segments relate to specific outputs generated, or particular objectives achieved, by an entity within a particular region.

This Standard has been approved by the Board but its effective date has not yet been determined by the Minister of Finance. The effective date indicated is a provisional date and could change depending on the decision of the Minister of Finance.

Directive 2 - Transitional provisions for public entities, municipal entities and constitutional institutions, states that no comparative segment information need to be presented on initial adoption of this Standard.

Directive 3 - Transitional provisions for high capacity municipalities states that no comparative segment information need to be presented on initial adoption of the Standard. Where items have not been recognised as a result of transitional provisions under the Standard of GRAP on Property, Plant and Equipment, recognition requirements of this Standard would not apply to such items until the transitional provision in that Standard expires.

Directive 4 - Transitional provisions for medium and low capacity municipalities states that no comparative segment information need to be presented on initial adoption of the Standard. Where items have not been recognised as a result of transitional provisions under the Standard of GRAP on Property, Plant and Equipment and the Standard of GRAP on Agriculture, the recognition requirements of the Standard would not apply to such items until the transitional provision in that standard expires.

The effective date of the standard is not yet set by the Minister of Finance.

The municipality expects to adopt the standard for the first time when the Minister sets the effective date for the standard.

It is unlikely that the standard will have a material impact on the municipality's financial statements.

GRAP 20: Related parties

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

The objective of this standard is to ensure that a reporting entity's financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

An entity that prepares and presents financial statements under the accrual basis of accounting (in this standard referred to as the reporting entity) shall apply this standard in:

- identifying related party relationships and transactions;
- identifying outstanding balances, including commitments, between an entity and its related parties;
- identifying the circumstances in which disclosure of the items in (a) and (b) is required; and
- determining the disclosures to be made about those items.

This standard requires disclosure of related party relationships, transactions and outstanding balances, including commitments, in the consolidated and separate financial statements of the reporting entity in accordance with the Standard of GRAP on Consolidated and Separate Financial Statements. This standard also applies to individual financial statements.

Disclosure of related party transactions, outstanding balances, including commitments, and relationships with related parties may affect users' assessments of the financial position and performance of the reporting entity and its ability to deliver agreed services, including assessments of the risks and opportunities facing the entity. This disclosure also ensures that the reporting entity is transparent about its dealings with related parties.

The standard states that a related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control. As a minimum, the following are regarded as related parties of the reporting entity:

A person or a close member of that person's family is related to the reporting entity if that person:

- has control or joint control over the reporting entity; - has significant influence over the reporting entity;
- is a member of the management of the entity or its controlling entity.

An entity is related to the reporting entity if any of the following conditions apply:

- the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others);
- one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member);
- both entities are joint ventures of the same third party;
- one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- the entity is a post-employment benefit plan for the benefit of employees of either the entity or an entity related to the entity. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity;
- the entity is controlled or jointly controlled by a person identified in (a); and
- a person identified in (a)(i) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

The standard furthermore states that related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

The standard elaborates on the definitions and identification of:

- Close member of the family of a person;
- Management;
- Related parties;
- Remuneration; and
- Significant influence

The standard sets out the requirements, inter alia, for the disclosure of:

- Control;

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

2. New standards and interpretations (continued)

- Related party transactions; and

- Remuneration of management

The effective date of the standard is not yet set by the Minister of Finance.

The municipality expects to adopt the standard for the first time when the Minister sets the effective date for the standard.

It is unlikely that the standard will have a material impact on the municipality's financial statements

2.3 Standards and interpretations not yet effective or relevant

GRAP 109: Accounting by Principals and Agents

The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement. The Standard does not introduce new recognition or measurement requirements for revenue, expenses, assets and/or liabilities that result from principal-agent arrangements. The Standard does however provide guidance on whether revenue, expenses, assets and/or liabilities should be recognised by an agent or a principal, as well as prescribe what information should be disclosed when an entity is a principal or an agent.

It furthermore covers Definitions, Identifying whether an entity is a principal or agent, Accounting by a principal or agent, Presentation, Disclosure, Transitional provisions and Effective date.

The effective date of the standard is not yet set by the Minister of Finance.

The municipality does not envisage the adoption of the standard until such time as it becomes applicable to the municipality's operations.

Directive 12: The Selection of an Appropriate Reporting Framework by Public Entities

Historically, public entities have prepared financial statements in accordance with generally recognised accounting practice, unless the Accounting Standards Board (the Board) approved the application of generally accepted accounting practice for that entity. "Generally accepted accounting practice" has been taken to mean Statements of Generally Accepted Accounting Practice (Statements of GAAP), or for certain entities, International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board. Since Statements of GAAP have been withdrawn from 1 December 2012, public entities will be required to apply another reporting framework in the future.

The purpose of this Directive is to prescribe the criteria to be applied by public entities in selecting and applying an appropriate reporting framework.

The effective date of the standard is for years beginning on or after 01 April 2018.

The municipality does not envisage the adoption of the standard until such time as it becomes applicable to the municipality's operations.

It is unlikely that the standard will have a material impact on the municipality's financial statements.

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

Figures in Rand	2018	2017
-----------------	------	------

3. Property, plant and equipment (continued)

1 078 127 729	686 388 759
----------------------	--------------------

Included in the work in progress figures of R1 078 127 729 above is expenditure amounting to R91 259 203 relating to projects that are slow moving and are taking a significantly longer period to complete. The delay are mainly caused by poor workmanship from the contractors resulting in appointment of replacement service providers

Included in the work in progress of R1 078 127 729 above is expenditure amounting to R40 464 255 relating to two projects that were taken over and completed projects since transfer has not yet been done by DWS and the municipality does not have details of expenditure incurred by DWS in the completing these projects. There are ongoing engagements with DWS to insure that the matter is timeously resolved.

2017

12. Employee cost related provision (continued)

Post retirement medical aid benefit - Defined Benefit Plan.

The municipality provides post retirement healthcare benefit by funding the medical aid contributions of qualified retired employees of the municipality. The municipality operates an unfunded defined benefit plan for these qualifying employees. The plan is treated as a defined benefit plan. The municipality is liable for 60% of the contribution for the medical aid scheme upon member retiring.

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out on 31 August 2018 by Chanin Weiss, Fellow of the Actuarial Society of South Africa under Arch Actuarial Consulting. The present value of the defined benefit obligation, and the related current service cost and past service cost were measured using the Project unit credit method.

Financial assumptions

Discount Rate	9.83%
Health care cost inflation rate	7.55%
Net effective discount rate	2.12%

Demographic assumptions

Average retirement age	63
Continuation of membership at retirement	95%
Proportion with a spouse dependent at retirement	95%
Proportion of eligible in service non members joining	30%
Mortality during employment	SA 85 - 90
Mortality post retirement	PA(90) - 1

Continuation of membership at retirement %	(10)	43 342	-	43 689	(20)
	(8)	378 618	-	381 068	-

Reconciliations of long - service award liability

A long-service award is payable after 10 years of continuous service and every 5 years thereafter to employees. Additional to this, employees are entitled to the 14th cheque for continuous employment on their 30th and every 5th year onward. The provision is an estimate of the long service award based on historical staff turnover.

Movement in the present value of long service awards	Mopani	Ba-Phalaborwa	Giyane	Tzaneen	Maruleng	Letaba
Opening Balance	14 299 132	433 306	526 597	1 163 687	216 730	243 482

APPENDICES

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

Figures in Rand

12. Employee cost related provision (continued)

The financial assumptions used for Long Service Awards were as follows Discount rate used 2018 (8.33%) 2017 (8.26%), General earnings inflation rate 2018 (6%) 2017 (6.08%) and Net effective discount rate 2018 (2.20%) 2017 (2.06%).

The demographic assumptions used for long Service Awards were as follows: Average retirement age of 63 years. Mortality during employment of SA 85 - 90 mortality table and withdrawal from service average duration.

The actuarial report presented for long service awards at other municipalities did not disclose the short term and the long term portion of the liability. As a result we could not disclose the short term and long term portion liability for long term service

Provision for landfill site

	2018	2017
Opening Balance	11,971,993	11,971,993
Additions	6,128,788	
Total	18,100,781	11,971,993

13. Payables from exchange transactions

Effect on accumulated surplus	(1 044 252 630)	(234 590 317)

32. Going concern

We draw attention to the fact that at 30 June 2018, the municipality had an accumulated surplus of 3 887 232 163 and that the municipality's total assets exceed liabilities by 3 887 232 163.

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the accounting officer continue to procure funding for the ongoing operations for the municipality.

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant of these is that the accounting officer continue to secure funding for the ongoing operations for the municipality.

As at 30 June 2018, the municipality's current assets exceeds current liabilities by R 3,890,530,823.

a) The municipality is experiencing challenges of collecting own revenue from water and sanitation. This is due to weakness in controls involving management of revenue at the local municipalities since the latter are service providers and the district is the service authority.

b) The municipality is service significant historic obligations that do not necessarily have source of funding other than the funding from National Treasury. These obligations include Lepelle Northern Water estimated at R540 million, Department of Water Affairs estimated at R320 million, as well as litigations and claims that come on an ad hoc basis. These litigations and claims can easily cost the municipality over R100 million per annum.

c) There is a need to relook into the municipality's obligations against its resources as the situation currently is not sustainable.

d) The municipality invests a significant amount of resources in the water and sanitation infrastructure with little if any return. This is as the municipality spend a full calendar year without a cent being received from water and sanitation consumers.

e) More often than not, MIG funding transfer for committed projects from National Treasury gets delayed putting more pressure on the liquidity of the municipality.

f) There is also a significant portion of payments for infrastructure projects funded through own funding outside budgets as most of the payments are made to avoid litigations.

Even though the current liabilities exceed the current assets the municipality is a going concern because of the following reasons:

APPENDICES

Mopani District Municipality

(Registration number DC33)

Annual Financial Statements for the year ended 30 June 2018

Notes to the Annual Financial Statements

Figures in Rand

2018

2017

32. Going concern (continued)

a) There is a commitment from National Treasury to fund the operations of the municipality through equitable share and conditional grants. This is substantiated by past practice and gazettes issued by National Treasury for the MTREF period under consideration.

b) There is no change in the legislation that impact on the municipality's ability to continue as a going concern;

c) There is plans to ensure that there is effective spending of funds.

d) There are repayment arrangements in place to defer significant portions of the trade payables of Lepelle Northern Water and Department of Water Affairs to future years to allow for liquidity and solvency.

(e) The municipality is taking consideration over water and sanitation function with the aim of maximising revenue collection and recovery of debtors, the monies which will be utilised to pay creditors with speed and return to good liquidity and solvency positions.

33. Unauthorised expenditure

Opening balance	198 991 315	159 154 582
Current year	201 778 216	39 836 733
	-	-
Unauthorised expenditure awaiting condonement	400 769 531	198 991 315

Unauthorised expenditure increased due to the significant difference between the budgeted and actual subsistence allowances, medical aid and stores and materials figures.

34. Fruitless and wasteful expenditure

Opening balance	166 015 978	165 834 771

VAT receivable	104 728 852	85 888 375

All VAT returns have been submitted by the due date throughout the year.

37. Deviation from supply chain management regulations

In terms of Section 36 of the Municipal Supply Chain Management Regulations, any deviation from the supply chain management policy needs to be approved/condoned by the Municipal Manager. The total deviations for the quarter amounted to R15 895 803.60 (2017: R4 328 185.75) which has been tabled to council for noting in terms of Section 36(2). Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that deviations must be included as a note to the financial statements Major deviations related to emergency procurement of borehole spares and pipes in order to avoid interruption of essential service (Water Supply).

The reasons for these deviations were documented and reported to the accounting officer who considered them and subsequently approved the deviation from the normal supply chain management regulations.

Closing Balance	<u>18 100 781</u>	<u>11 971 983</u>

The aggregate effect of the changes in accounting policy on the annual financial statements for the year ended 30 June 2017 is as follows:

Statement of financial position

Management do not have sufficient records relating to interest capitalised on plant and equipment to enable retrospective expensing of borrowing cost. For this reason the change in accounting policy is applied prospectively.

[If retrospective application is impracticable for a particular prior period, or for periods before those presented, disclose the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied.]

The municipality has not applied the new [name the standard or interpretation] issued, and effective for periods commencing . [Describe the new required treatment and the current treatment.] The estimated impact of the implementation of the new standard on the 2018 annual financial statements is as follows:

39. Asset Held for Sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets held for sale (or disposal group) are measured at the lower of its carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in municipality or deficit.

40. Finance lease obligation

40. Finance lease obligation (continued)

Interest rates are linked to prime at the contract date. All leases have fixed repayments and no arrangements have been entered into for contingent rent.

41. Risk management

Financial risk management

The Mopani District Municipality's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The municipality's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance. The municipality uses derivative financial instruments to hedge certain risk exposures. Risk management is carried out by a risk management committee under policies approved by the accounting officer. Municipality risk committee identifies, evaluates and hedges financial risks in close co-operation with the municipality's operating units. The accounting officer provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and investment of excess liquidity.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, municipality maintains flexibility in funding by maintaining availability under committed credit lines.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses other publicly available financial information and its own trading records to assess its major customers. The municipality's exposure of its counterparties are monitored regularly.]

Credit risk consists mainly of cash deposits, cash equivalents and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counterparty.

Trade receivables comprises mainly of water and sanitation customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Council. The utilisation of credit limits is regularly monitored.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	2018	2017
Receivable from non exchange transactions	228 041 494	194 202 462
Call account deposit	131 303 661	7 761 017

The municipality invested in a call account at an interest rate of 6% per annum for financial period 2018..

41. Risk management (continued)

As the municipality has no significant interest-bearing assets, the municipality's income and operating cash flows are substantially independent of changes in market interest rates.

The municipality analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions, alternative financing and hedging. Based on these scenarios, the municipality calculates the impact on municipality and deficit of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with well-established financial institutions of high credit standing. No investment with a tenure exceeding twelve months shall be made without consultation with the councillor responsible for financial matters.

Consumer receivables comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of these receivables. Receivables from exchange transactions are presented net of an allowance for impairment.

In the case of receivables whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable.

42. Budget differences

Material differences between budget and actual amounts

There were material differences between the final budget and the actual amounts. The reasons were shown in the statement of comparison budget and actual amounts.

Differences between budget and actual amounts basis of preparation and presentation

The budget and the accounting bases differ. The annual financial statements for the whole-of-government are prepared on the accrual basis using a classification based on the nature of expenses in the statement of financial performance. The annual financial statements are consolidated statements that include all controlled entities, including government business enterprises for the fiscal period from 2017/07/01 to 2018/06/30. The annual financial statements differ from the budget, which is approved on the cash basis and which deals only with the general government sector that excludes government business enterprises and certain other non-market government entities and activities.

The amounts in the annual financial statements were recast from the accrual basis to the cash basis and reclassified by functional classification to be on the same basis as the final approved budget. In addition, adjustments to amounts in the annual financial statements for timing differences associated with the continuing appropriation and differences in the entities covered (government business enterprises) were made to express the actual amounts on a comparable basis to the final approved budget. The amounts of these adjustments are identified in the following table.

DRAFT
