Editorial

We write to you on the backdrop of yet another eventful quarter. The biggest highlight for the quarter has to be the milestones recorded in the Giyani Water Project. The Giyani WTW now at practical completion, but we have also seen the community of Ndindani been the latest to receive water direct to each household as part of our water reticulation projects.

In this edition, we also cover the approval of the 2024/25 reviewed IDP and budget. There have been changes made to the mayoral committee, and also at the level of oversight committees. From the Communications Team, we should as well congratulate the IEC Team in the District for the successful general elections, which of course is their constitutional mandate.

We have been to Maruleng Municipality, led of course by the Executive Mayor as part of his quarterly imbizo. He used the imbizo to outline the progress we are recording in the Mametja-Sekororo Regional Bulk Water Project, and also the immediate interventions to water challenges in the area.

We still invite members of the public to engage with us on how best we can make our communications platforms more interactive. It is only through engagements that we are able to get a sense of where we need to improve as a Municipality, especially on the information needs of our people.

We further invite members of the public to engage with us through our social media platforms, including our Facebook Page.

Executive Mayor Cllr Pule Shayi

Executive Mayor's desk

We are at the end of the 2023/24 financial, and it once again my singular honour and privilege to communicate with our people through this platform. We conclude the financial year on the backdrop of Youth Month, which effectively is about celebrating the role played by the 1976 generation of youth in the struggle for liberation.

This year marks the 48th anniversary, and we are celebrating under the theme: "Actively advancing socioeconomic gains of our democracy." This theme of course is a clarion call to all us, as government, as business, and as civil society to collaborate in building an inclusive economy that will create opportunities for young people. We also celebrate Youth Month against the 30 Years of Freedom milestone.

It therefore says to us that if indeed we are serious about a sustainable future, collectively we have to be deliberate in our approach around accelerating youth economic emancipation. We must intensify our coordinated efforts around local economic development programmes that are geared towards creating opportunities for young people

Inspired by the 1976 generation, young people must be in the forefront, but it is not a journey they should walk alone. We should be able to pursue all of this work in honour of the 1976 generation of fearless youth that confronted the evil apartheid regime head-on.

On that note, we should celebrate young people who continue to put the District on the map. We celebrate Prudence Sekgodiso from Medingen in the Greater Letaba Municipality. She scooped the Diamond League title as she won the 800m in Marrakech, setting a new world record. She will be heading to the Paris Olympics next month, and we celebrate her achievements and wish her the very best in the upcoming global showpiece.

We have an opportunity to continue using sport as a vehicle to advance youth development. We must encourage more young people into sport, and our support to youth tournaments is very important to this agenda. Through sport, we are able to build an inclusive and socially cohesive society, free from drug and alcohol abuse.

As we take forward the work in the context of our programme of building better communities together with our people, we use this opportunity to reflect on the progress made by the fifth council,

From the Executive Mayor's desk

particularly in the last twelve months. We are able to report to the people of Mopani that we have indeed moved some meters in our programme of improving the quality of our people's lives - this through water infrastructure provision. More and more of our people now have access to water closer to where they reside.

We are recording milestones in the Giyani Water Project. The work to refurbish the Giyani Water Works has reached practical completion. The plant is now able to produce treated water at an average of around 28 megalitres a day. But most importantly is that water is now reaching some of the communities as we draw closer to the completion of the water reticulation projects to at least 24 villages as part of the first phase of this project.

Many of our SMMEs are benefiting from this water infrastructure projects, therefore enhancing our sustained efforts of fighting hunger in communities. The next phase will target additional 31 villages. We will in the next financial year also start with the project to upgrade the Giyani Water Works from 30 megalitres to 40 megalitre capacity. This project will run over 24 months.

We will have an opportunity to report to our people in the coming weeks as we converge for the state of the district address. We made a call to our people to participate in the 2024 general elections, and indeed our people responded to the call. The May 29 elections have ushered in the 7th Administration of our democratic government led by President Cyril Ramaphosa in the context of the government of national unity.

We take this opportunity to also congratulate Dr. Phophi Ramathuba, who has been elected the first female Premier in the province. We have lost two councilors at the level Council to the Provincial Legislature, Cllr. Dikeledi Mmetle who also served in the Mayoral Committee, and also Councillor Mapula Letsoalo.

We have since appointed Cllr. Basani Shibambu as the new MMC for community services. We wish her all the best in the portfolio, and therefore implore all of us to give her all the support she will need in that space

As we reflect on the strides in the last quarter of the 2023/24 financial year, we wish to take this opportunity to register our profound gratitude to our people for the continued support. Let's continue to build better communities together.

CLLR P.J SHAYI
EXECUTIVE MAYOR

EXECUTIVE MAYOR SAYS AVAILABILITY OF WATER AT NDINDANI VILLAGE SHOULD ENCOURAGE COMMUNITIES TO START VEGETABLE GARDENS

Mopani District Municipality's Executive Mayor Cllr Pule Shayi says the Ndindani community in Ward 19 of Greater Giyani Municipality should take advantage of the changed fortunes in water supply to start vegetable gardens, and contribute to food security.

The Executive Mayor had an opportunity to monitor progress on the project as it nears completion. He visited the village on the 19th of May to also officially handover a fully furnished house to an indigent family, and vegetable seedlings to a local drop in centre.

Ndindani is one of the first 24 villages where the Municipality is implementing water reticulation projects as part of the Giyani Water Project.

The Ndindani Water Project which is worth around R25 million is set to provide water direct to the homes of more than 2800 people in the village.

The contractor has already done metered house connections, constructed a 150 kilolitre elevated storage tank, and also refurbished the existing reservoir.

The project is not yet 100 percent complete, the community does receive water. The Executive Mayor said this Project should also give the people of Giyani hope that a breakthrough in sustainable water supply is much closer.

Sarah Chavalala, said she was happy to have water in her home. "I'm very happy to have water. We used to struggle with water. I have no words to express my gratitude to this government"

MORE LIVES CHANGED AS THE EXECUTIVE MAYOR HANDS OVER THREE FULLY FURNISHED HOUSES

MOPANI

www.mopani.gov.za

7

Mopani District Municipality's Executive Mayor Cllr. Pule Shayi has officially handed over three fully furnished houses to three indigent families in the Greater Giyani Municipality.

The of the three fully furnished three-bedroom house was handed to the Khosa family at Ngove village on the Wednesday, 08 May 2024. The house also has a living area, kitchen, bathroom, and a toilet. The Khosa family which is dependent on child support grant has been living in a one room.

Mikateko Khosa lives with her three children, including an elder son aged 15 doing grade 10. She was excited to take ownership of the house. "It was not easy sleeping in a one room with three children, especially sharing a room with a 15-year-old son. I'm so grateful to government for this house," she said.

Mopani District
Municipality

The second fully furnished three-bedroom house was handed to the Chavalala family at Ndindani village, ward 19 on Sunday, 19 May. This family of six has been living in a one-room house. Constance Maluleke, a mother of four said her prayers have been answered. She said it was not easy living in a one room with her husband, two sons and two daughters

The Executive Mayor proceeded to hand over the second fully furnished three-bedroom house to the family of a 76-year-old pensioner Christinah Mathebula at Sikhunyane village on Tuesday, 21 May. Christinah Mathebula was living a one room mud house. Her two sons who are unemployed, have had to find shelter in the neighbourhood after the other mud room which they used was damaged by storms.

Mathebula conceded that she had lost hope at ever having a decent shelter, and found it difficult to believe even when the Executive Mayor made the commitment to build a house for her about 11 months ago.

Executive Mayor Cllr. Pule Shayi says he is fulfilling the objective of the Freedom Charter which says “that all people shall have the right to live where they choose, be decently housed, and to bring up their families in comfort and security.”

COUNCIL APPROVES R2,3 BILLION BUDGET FOR THE 2024/25 FINANCIAL YEAR

A special sitting of Mopani District Council held on the 16th of May has approved a R2,3 billion budget for the 2024/25 financial year.

Delivering his budget speech, the Executive Mayor Cllr. Pule Shayi said the Municipality will adhere to the cost containment measures while also implementing credit control measures.

“This generation of councillors has committed to expand on the provision of services to address the backlog on water supply to communities as well as provision of sanitation. And with our eyes fixed steadfastly on this task, we are once again going to choose options that maximize service delivery than opulence.

“It has not been an easy journey, but working together as this generation of councillors we have already overcome what looked like insurmountable odds. Our resolve, which we remain fully committed to, is to end the stranglehold of unfunded budget,” he said.

The Executive Mayor spoke of the progress made towards a funded budget, saying that the budget was unfunded by R2 billion in the 2020/21. And while it remains unfunded it was now affordable. “We have committed ourselves to an elusive and very complex journey towards a funded budget.

The total amount from transfers and subsidies is R1 928 billion, and the breakdown is as follows:

- **R1,3 billion (R1 343 490 000)** from Equitable Shares
- **R524 Million (R524 667 000)** from Municipal Infrastructure Grant (MIG)
- **R47 Million (R47 998 000)** from Water Services Infrastructure Grant (WSIG)
- **R6,7 Million (R6 799 000)** from EPWP
- **R3 Million** Financial Management Grant
- **R2,4 Million (R2 476 000)** from the Rural Roads Asset Management Grant

“For the first time in the more than decade long journey, our unfunded budget is affordable. Meaning we have funds to fund the budget but we have a credit book which can be extinguished over a long period to history and parameters around our assumptions,” he said.

He said the Municipality has signed repayment agreements with DWS and Lepelle, and will be signing repayment agreements with local Municipalities and such monies will be ring-fenced in separate account. An amount of R66 million is budgeted towards servicing the historic debt with both Lepelle Northern Water and DWS, which constitute 3% of the operating budget.

“For this financial year coming, we have positively discounted R827 million from unfunded status as part of our commitment to the complex journey,” the Executive Mayor said.

From the budget of R2, 329 billion, an amount of R1, 682 billion (R1 682 866 652) which constitute 73% of the total budget is allocated for the operating budget. R588 million (R588 431 650) is the capital budget, which constitute at least 26% of the total revenue.

GIYANI WTW ON PRACTICAL COMPLETION, MORE VILLAGES GET WATER

Minister Senzo Mchunu during his visit to the Giyani Water Works and some reticulation projects.

The work to refurbish the Giyani Water Treatment Works has reached practical completion – this as the Mopani District Municipality intensify its efforts to supply water to the communities around the Greater Giyani Municipality.

The Giyani WTW now has the capacity to treat and supply on average at least 28 megalitres a day. The refurbishment has reduced water losses at the plant. The next phase is the upgrading of the plant by 10 megalitres to 40 megalitres a day.

Phase 1 of the reticulation project to the first 24 of the 55 villages is also closer to completion. Some villages including Ndindani and Homu 14A are already benefiting from the project. A number of villages are also at above 90% completion, including Mhlaba Willem, Muyexe Contract B, Homu 14B, Nwakhwani, Mapayeni Contract B, Risinga Contract A, Bambeni, Maphata, Ngove Contract B, Xikukwani Contract A, Mahlathi, and Dzingidzingi.

Meanwhile, the work to construct reservoirs and bulk pipelines to the villages is also continuing through Lepelle Northern Water (LNW) as supported by the Department of Water and Sanitation.

The then of Water and Sanitation Minister Senzo Mchunu and deputies visited the projects in April to monitor progress on the projects, where he reiterated that said Phase 2 targeting 31 villages will start in the next financial year.

“I am satisfied with the work currently underway, although we are behind schedule due to the history of this project. However, the level of commitment demonstrated by the contractors has showed that we are making progress in getting water to the people’s households,” he said at the time.

The Minister also visited the Middle-Letaba Dam as well as the lower and upper streams along the Koedoes River (ZZ2). He later engaged with the Executive Mayors for Mopani and Vhembe, the mayor of Collins Chabane Municipality, the affected farmers, and community representatives.

EXECUTIVE MAYOR TAKES THE QUARTERLY IMBIZO TO WARD 2 IN MARULENG

Mopani District Municipality's Executive Mayor Cllr. Pule Shayi took his quarterly mayoral imbizo to The Willows village in Ward 2 of Maruleng Municipality on the 18th of June 2024.

The Executive Mayor also used the imbizo to outline progress on the Mametja-Sekororo Regional Bulk Water Project, which is set to provide treated water to at least 28 villages.

The completed Phase 1 of the Mametja-Sekororo Project included the construction of 7,5 mega litre Water Treatment Works, a 15ML raw water storage tank at The Oaks, and pipelines to Finale, The Oaks and Santeng. Construction of a steel pumping main from Santeng pump station to Mametja-Sedawa junction is also completed.

Mopani District Municipality is finalizing supply chain processes on Phase 2A of the project, which is set to commence in the 2024/25 financial year. This phase will target the villages of Butswana, Molalane, London, Worcester, Enable, Ga-Mametja, Mabins A & B, and Sedawa.

The Executive Mayor was joined at the imbizo by Mayor Cllr. Tsheko Musolwa, District Whip of Council, Cllr. Magdelina Lewele and several of his mayoral committee members. He said the Municipality is busy engaging the Department of Water and Sanitation for additional funding to implement reticulation during implementation of the planned Phase 2A.

Community members welcomed the opportunity to raise service delivery issues including water supply challenges, roads, sanitation and support to small businesses.

The Executive Mayor said many communities are still dependent on ground water. “We are working very hard to implement water infrastructure projects that will bring sustainable water supply to our communities in all the five local municipalities.

“We are from a special council sitting where we approved a R2, 3 billion budget. From this budget, at least R524 million is from the municipal infrastructure grant, which helps us to continue with water infrastructure projects. Here in Maruleng, we have the Hoedspruit Water Project and the project targeting Kampersrus and Scorcia. The biggest project is the Mametja-Sekororo Regional Bulk Water Project,” he said.

MEMBERS OF THE PUBLIC HAVE UNTIL END OF JULY TO MAKE INPUTS TO MUNICIPAL HEALTH SERVICES BY-LAW

Members of the public and interested stakeholders have until 26 July to make inputs to the draft by-law on municipal health services which is currently up for public consultations.

The draft by-law upon approval by council will help the Municipality to enforce compliance through environmental health practitioners who have now been trained as peace officers.

The Municipal Health Services By-law will help the Municipality ensure compliance around issues such as water quality monitoring, food control, waste management, disposal of the dead, and environmental pollution control.

Speaking during one of the public consultation sessions, MMC Lucky Mohlala said the By-Law will help ensure that the Municipality plays its role in protecting the consumers by ensuring that all foods during production, handling, storage, processing and distribution are safe, wholesome and fit for human consumption, but also conform to quality and safety requirements.

“We also have to ensure that food items are accurately labelled. We will be motoring restaurants, fast food outlets, bakeries, supermarkets, butcheries, cafeterias. And our work is not limited to formal businesses. We will through this by-law also be monitoring informal businesses such as our vendors and hawkers,” he said.

MMC Mohlala also said the by-law also helps the officials in the identification, monitoring and evaluation of health risks arising from premises. “We will be able to perform health surveillance of premises, institute remedial action and preventative measures. These premises would include your formal and informal offices, places of worship, manufacturing, hairdressing, dry cleaning and laundry establishments, swimming pools, spa, private and government building.”

The Mopani District Municipality’s Environmental Health Practitioners have been trained as Peace Officers, and are now equipped with the skills to monitor, promote, and enforce health and hygiene legislation.

COUNCIL ADOPTS CHANGES TO OVERSIGHT COMMITTEES AS CLLR BASANI SHIBAMBU IS APPOINTED MMC

A special sitting of Mopani District Council held on the 27th of June adopted changes to the oversight committees, including changes in the Municipal Public Accounts Committee (MPAC).

Cllr. Basani Shibambu has been appointed to the Mayoral Committee where she will be responsible for the community services portfolio. She previously chaired the portfolio committee on governance. Her appointment to the mayoral committee follows the resignation by Cllr. Dikeledi Mmetle who has been elected as a member of Limpopo Provincial Legislature.

The appointment of Cllr Basani Shibambu to the mayoral committee imposed changes to the oversight committees. She was replaced in the governance portfolio committee by Cllr. Collen Stoltz. Cllr. Nsuku Tshimbana is now the chairperson of the water portfolio committee, with Cllr. Florah Moroatshehla moving to the sport portfolio committee.

Cllr. Phetole Samuel Mothomogolo has been appointed the chairperson of MPAC, replacing Mfanakosi Moses Mukhabele who is now the chairperson of the community services portfolio committee. Cllr.Sasavona Mathebula is now the chairperson of chairpersons.

The special sitting of Council also welcomed Cllr. Elna Japisa Mathonsi who was earlier sworn in as a member of council. She returns to council having previously served during the term of the Fourth Council from 2016 to 2021.

The Whip of Council, Cllr. Magdelina Lewele has wished all councillors well in their new responsibility, saying the changes are aimed at strengthening oversight and accelerating service delivery.

NEW EMPLOYEES

Mopani District Municipality's Municipal Manager Tshepo Mogano has welcomed the new Senior Manager for Community Services, Mokgadi Bridget Pilusa. She joins the Municipality from Sekhukhune District Municipality, having also previously worked for the Greater Tzaneen Municipality and MDM before joining SDM where she worked as manager for municipal health services since 2015.

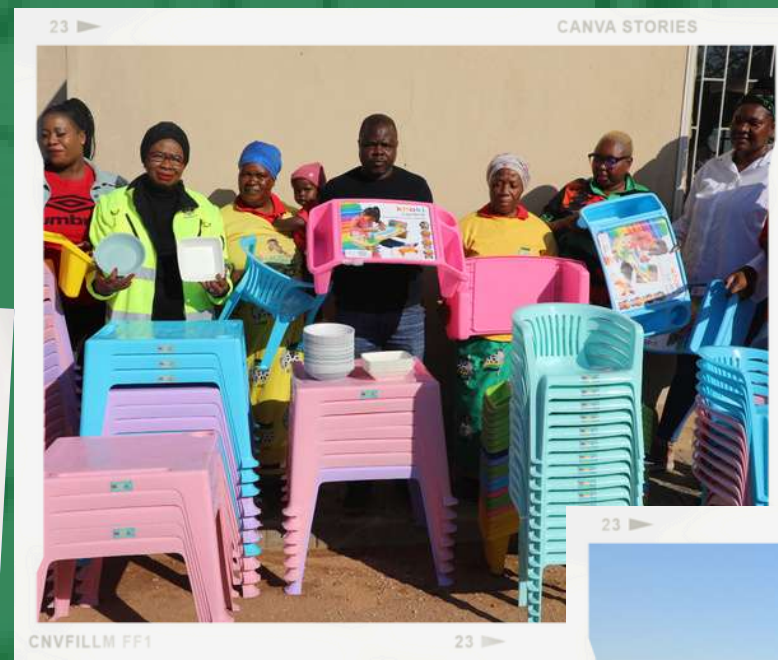

In an effort to enhance capacity in the water services, the Mopani District Municipality has today welcomed 21 temporary process controllers and seven plant scheme superintendents.

TOUCHING LIVES AS THE EXECUTIVE MAYOR CELEBRATES HIS 52ND BIRTHDAY ANNIVERSARY

Just as he has done in the past five years, Executive Mayor Cllr. Pule Shayi led an outreach programme – this time to mark his 52nd birthday celebration on the 30th of June.

His first stop was at the Mpopane Crèche in ward 10 of Ba-Phalaborwa Municipality where he handed over equipment, saying “it will help contribute to the cognitive development of these children. Some of us never had these kinds of opportunities. We can’t make life difficult for them.”

The Executive Mayor proceeded to hand over bicycles to the Grade 12 learners from Maphokwane High School. He said “the bicycles will shorten the travelling time to and from school for the learners, contributing to improved performance. So we are supporting their endeavour as they continue to work towards a brighter future. We have made a commitment that if their performance at the end of the year is so excellent, we will work with other stakeholders to support them towards tertiary education.”

Mmakoma Malungane, a grade 12 at Maphokwane was grateful for the donation. “We are grateful for the gifts from the mayor. We used to struggle with transport to school. I have never had a bicycle in my life, so I’m very excited.”

The Executive Mayor also handed over a wheelchair to Elvis Risenga, also from Ward 10 in the Ba-Phalaborwa Municipality before taking a short trip Rethoshegile Disabled Project where he handed over farming equipment and seedlings. “The project is contributing to efforts around fighting hunger in our community, but also ensuring that our people get quality food closer to where they stay.

“We have committed to help them with irrigation system as they expand, and to help ensure that there is sustainable supply of water. They are contributing towards sustainability of food security, and we have to work together with them as government,” the Executive Mayor said.

He proceeded to Greater Giyani Municipality to hand over the biggest of the presents – a fully furnished three bedroom house. The beneficiary, Eunice Makhubele and her five children from Maphata village was lost for words.

Together with her five children, Eunice was living in a one room mud house. She said it was not easy living in one room with five children, amongst them an 18 year old son. “It was a struggle during rainy days, as the mud house was leaking. I had to stay awake trying to ensure that the kids are safe and their school uniform is not soaked in rain. I’m very grateful for what has happened to me and my family,” she said.
