OFFICE OF THE EXECUTIVE MAYOR

PRESS RELEASE

TO: All media/Editors/Journalists

DATE: 07 May 2015

SUBJECT: MOPANI DISTRICT MUNICIPALITY IS COMMITTED TO ENDING WATER SHORTAGE CHALLENGES AT MUHLAVA CROSS

The Mopani District Municipality remains committed to ending the service delivery protests and also solving water shortage problems at the Muhlava Cross area.

Even before the protests start, the Mopani District Municipality had appointed service providers to fix the broken and vandalised water infrastructure in the area to ensure that water shortages problems in the area are solved. The district municipality has also dispatched a team of additional technicians to the area who will augment the work done by service providers to expedite the process of restoring water in the area.

Executive Mayor Nkakareng Rakgoale remains committed to meeting all community stakeholders in the affected area on the 12th of May 2015 to give the progress report in line with the agreement between her office and the protest leaders. The Executive Mayor will in the meantime continue to facilitate dialogue processes between her office, community leaders and protest leaders to ensure that the protests are stopped and calm returns to the area.
