RATING SCALES

The assessment of the performance of the Employee will be based on the following rating scale for KPAs and CCRs:

Level	Terminology	Description
5	Outstanding performance	Performance far exceeds the standard expected of an employee at this level. The appraisal indicates that the Employee has achieved above fully effective results against all performance criteria and indicators as specified in the PA and Performance plan and maintained this in all areas of responsibility throughout the year.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the Employee has achieved above fully effective results against more than half of the performance criteria and indicators and fully achieved all others throughout the year.
3	Fully effective	Performance fully meets the standards expected in all areas of the job. The appraisal indicates that the Employee has fully achieved effective results against all significant performance criteria and indicators as specified in the PA and Performance Plan.

2025/2026 Performance Plan – Municipal Manager

T.J.

Level	Terminology	Description
2	Performance not fully effective	Performance is below the standard required for the job in key areas. Performance meets some of the standards expected for the job. The review/assessment indicates that the employee has achieved below fully effective results against more than half the key performance criteria and indicators as specified in the PA and Performance Plan.
1	Unacceptable performance	Performance does not meet the standard expected for the job. The review/assessment indicates that the employee has achieved below fully effective results against almost all of the performance criteria and indicators as specified in the PA and Performance Plan. The employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.

6. PERFORMANCE ASSESSMENT PROCESS

The following steps will be followed to ensure a fully participative and compliant performance assessment process is adhered to.

1. Performance Assessment:
 - 1.1. Formal assessment between employee and employer will take place twice a year to measure the performance of the employee against the agreed performance targets for the half yearly and yearly assessments respectively.
 - 1.2. Actual performance against the targets will be captured in preparation for the assessments.
 - 1.3. Scores of 1-5 will be calculated based upon the progress against targets.
 - 1.4. KPI's and targets are audited before assessment date and their findings must accompany the Performance Plans.
 - 1.5. The employer must keep a record of the mid-year assessment and annual assessment meetings.
2. The employee being assessed will compile a portfolio of evidence confirming the level of performance achieved for a given assessment period and made available to the Panel on request. One independent person may be assigned to act as an Observer.
3. The process for determining Employee ratings are as follows:
 - 3.1. The panel to rate the achievement for the KPI's on a 5 point scale. Decimal places can be used.
 - 3.2. The employee to motivate for higher ratings where applicable.
 - 3.3. The panel to rate the employee's core competency requirements (CCR) on the 5 point scale. Decimal places can be used.
 - 3.4. The panel scores are averaged to derive at a total score per KPI / Activity / CCR. Overall scores are calculated by taking weightings into account where applicable.
- 3.5. The final KPA's rating will account for 80% of the final assessment total. The CCR's are to account for 20% of the final assessment total.
4. The five point rating scale referred to in regulation 805 correspond as follows:

Rating:	1	2	3	4	5
% Score:	0-66	67-99	100-132	133-166	167
5. The assessment rating calculator is used to calculate the overall % score for performance.
6. Annual performance evaluation to determine the final ratings and scores as well as recommend performance bonuses will be conducted by the appropriate panel as constituted by Regulation 805 of 2006.
7. The performance bonus percentages described in the performance agreement will be calculated on a sliding scale of the all inclusive remuneration package as indicated in table below:

% Rating Over Performance	% Bonus
130-149%	5-9%
150% and above	10-14%

T.S.

8. The Personal Development Plan (PDP) can be reviewed after the performance evaluation had been finalised in case where more clarity has been established on what the essential development needs for the relevant person will be.
9. The results of the annual performance evaluation will be submitted to the performance audit committee for final approval of the assessment/s /evaluations.
10. Performance bonus, based upon the annual evaluation, will be subject to approval by Council.
11. The performance evaluation results of the Municipal Manager will also be submitted to the MEC responsible for Local Government in the Province.

1. INTRODUCTION

The Aim of the Personal Development Plan (PDP) is to ensure that Employees are skilled to meet Objectives as set out in the Performance Management Agreement as prescribed by legislation. Successful career-path planning ensures competent employees for current and possible future positions. It there for *identifies, prioritise and implement* training needs.

Legislative needs taken into account comes from the Municipal Systems Act Guidelines: Generic senior management competency framework and occupational competency profiles, Municipal Finance Management Competency Regulations, such as those developed by the National Treasury and other line sector departments' legislated competency requirements need also be taken into consideration during the PDP process.

2. COMPETENCE MODELLING

What does an institution mean when it says an employee / prospective employee is competent if he / she fits a managerial competency framework or occupational competency profile? The institution is in fact expressing competence as a future-oriented ideal that they require to achieve their strategic objectives [The institution is in effect giving a depiction of the desired or required knowledge, skills and attributes for an individual in a specific position]. For competence to be useful, the associated competence should be greater than the observed performance as it will allow the individual growth towards this 'ideal'.

There is however a risk in expressing a required competence that a current or prospective employee should adhere to in the future, as the future is, by definition, uncertain. Managers cannot know how an employee will perform in the future nor can they know how employees that they did not select, did not promote, did not award a qualification to, might perform.

Moreover, managers do not make their expressions in a social vacuum. They do so within a social context in which there are various actors, various stakeholders, with different interest's accountabilities, different things they are trying to achieve and various ways in which others will hold them accountable. If managers are selecting employees they shall similarly have to justify their decisions to others. Relevance thus becomes an obvious issue that affects the level of confidence in such a decision. Various human resources procedures and systems need to be established to maintain the relevance of the expression of competence to the requirements of the employer. Confidence is the basis on which the various parties implicated in the decisions and actions taken within a competence system will seek to account to others for those decisions and actions.

When linking a decision that a prospective employee / current employee is competent the communication is based on what may be called conventions of assessment. Some common understanding is achieved by which a certain set of arrangements become socially accepted as the basis for linking different contexts. Contexts differ, in particular in terms of time. So performance in the past is linked to future situations in which desired performance is anticipated. This linking of contexts will normally involve some model, some way of accounting for the claimed link.

The Department of Cooperative Governance has published a competency framework for senior managers in January 2014, with focus on the following:

- Critical leading competencies that drive the strategic intent and direction of local government;
- Core competencies which senior managers are expected to possess, and which drive the execution of the leading competencies; and
- The eight Batho Pele principles

3. COMPILING THE PERSONAL DEVELOPMENT PLAN ATTACHED AS THE APPENDIX.

A manager, in consultation with his / her employee is to compile a Personal Development Plan. The PDP has 7 columns that need to be completed. An example is attached as Appendix A.

Column 1: Skills/Performance GAP

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
E.g. 1. Appraise Performance of Managers	The manager will be able to enter into performance agreements with all managers reporting to him / her, appraise them against set criteria, within relevant time frames	A course containing theoretical and practical application with coaching in the workplace following [relevant unit standard?]	External provider, in line with identified unit standard and not exceeding R 6 000	March 200...	Appraisal of managers reporting to him / her	Senior Manager: Training/ HR

(a) The identified training needs should be entered into column one. The following should be taken into consideration:

Organisational needs

Strategic development priorities and competency requirements, in line with the municipality's strategic objectives.

The competency requirements of individual jobs. The relevant job requirements (job competency profile) as identified in the job description should be compared to the current competency profile of the employee to determine the individual's competency gaps.

Specific competency gaps as identified during the probation period and performance appraisal of the employee.

Individual training needs that are job / career related.

Prioritisation of the training needs [1 to ...] in column 1 should also be determined since it may not be possible to address all identified training needs in a specific financial year. It is however of critical importance that training needs be addressed on a phased and priority basis. This implies that all these needs should be prioritized for purposes of accommodating critical / strategic training and development needs in the HR Plan, Personal Development Plans and the Workplace Skills Plan.

Column 2: Outcomes Expected

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
--	---	---	-------------------------------	--------------------------	--	-------------------

Consideration must be given to the outcomes expected in column 2 so that once the intervention is completed the impact it had can be measured against relevant output indicators.

1.7

3. Column 3: Suggested Training

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportuni- ty created to practice skill / developm- ent area	7. Support Person
---	--	---	-------------------------------------	--------------------------------	--	----------------------

Training needs must be identified with due regard to cost effectiveness and listed in column 3.

4. Column 4 : Suggested mode of delivery

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportuni- ty created to practice skill / developm- ent area	7. Support Person
---	--	---	-------------------------------------	--------------------------------	--	----------------------

The suggested mode of delivery refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. Mode of delivery consists of, amongst others, self-study, internal or external training provision; coaching and / or mentoring and exchange programmes. Training must be conducted either in line with a recognised qualification from a tertiary institution or unit standards registered on the National Qualifications Framework (South African Qualifications Authority), which could enable the trainee to obtain recognition towards a qualification for training undertaken. It is important to determine within the municipality whether unit standards have been developed with regard to a specific outcome (and registered with the South African Qualifications Authority). Unit standards usually have measurable assessment criteria to determine achieved competency.

5. Column 5: Suggested Time Lines

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportuni- ty created to practice skill / developm- ent area	7. Support Person
---	--	---	-------------------------------------	--------------------------------	--	----------------------

An employee should on average receive at least five days of training per financial year and not unnecessarily be withdrawn from training interventions. The suggested time frames enable managers to effectively plan for the annum e.g. so that not all their employees are away from work within the same period and also ensuring that the PDP is implemented systematically.

6. Column 6: Work opportunity created to practice skill / development area

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportuni- ty created to practice skill / developm- ent area	7. Support Person
---	--	---	-------------------------------------	--------------------------------	--	----------------------

This further ensures internalisation of information gained as well as return on investment (not just a nice to have skill but a necessary to have skill that is used in the workplace).

7. Column 7: Support Person

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportuni- ty created to practice skill / developm- ent area	7. Support Person
---	--	---	--	-----------------------------------	--	-------------------------

This identifies a support person that could act as coach or mentor with regard to the area of learning for the employee.
