**MOPANI DISTRICT
MUNICIPALITY**

**AS REPRESENTED BY THE
MUNICIPAL MANAGER**

MR TSHEPO JACK MOGANO

AND

**MRS SONIA NOKUTHULA
MASWANGANYI**
THE EMPLOYEE OF THE MUNICIPALITY

FOR THE
FINANCIAL YEAR:

1 JULY 2024 - 30 JUNE 2025

1. INTRODUCTION	<p>The Aim of the Personal Development Plan (PDP) is to ensure that Employees are skilled to meet Objectives as set out in the Performance Management Agreement as prescribed by legislation. Successful career-path planning ensures competent employees for current and possible future positions. It there for <i>identifies, prioritise and implement</i> training needs.</p> <p>Legislative needs taken into account comes from the Municipal Systems Act Guidelines: Generic senior management competency framework and occupational competency profiles, Municipal Finance Management Competency Regulations, such as those developed by the National Treasury and other line sector departments' legislated competency requirements need also be taken into consideration during the PDP process.</p>
2. COMPETENCE MODELLING	<p>What does an institution mean when it says an employee / prospective employee is competent if he / she fits a managerial competency framework or occupational competency profile? The institution is in fact expressing competence as a future-oriented ideal that they require to achieve their strategic objectives [The institution is in effect giving a depiction of the desired or required knowledge, skills and attributes for an individual in a specific position]. For competence to be useful, the associated competence should be greater than the observed performance as it will allow the individual growth towards this 'ideal'.</p> <p>There is however a risk in expressing a required competence that a current or prospective employee should adhere to in the future, as the future is, by definition, uncertain. Managers cannot know how an employee will perform in the future nor can they know how employees that they did not select, did not promote, did not award a qualification to, might perform.</p> <p>Moreover, managers do not make their expressions in a social vacuum. They do so within a social context in which there are various actors, various stakeholders, with different interest's accountabilities, different things they are trying to achieve and various ways in which others will hold them accountable. If managers are selecting employees they shall similarly have to justify their decisions to others. Relevance thus becomes an obvious issue that affects the level of confidence in such a decision. Various human resources procedures and systems need to be established to maintain the relevance of the expression of competence to the requirements of the employer. Confidence is the basis on which the various parties implicated in the decisions and actions taken within a competence system will seek to account to others for those decisions and actions.</p> <p>When linking a decision that a prospective employee / current employee is competent the communication is based on what may be called conventions of assessment. Some common understanding is achieved by which a certain set of arrangements become socially accepted as the basis for linking different contexts. Contexts differ, in particular in terms of time. So performance in the past is linked to future situations in which desired performance is anticipated. This linking of contexts will normally involve some model, some way of accounting for the claimed link.</p> <p>The Department of Cooperative Governance has published a competency framework for senior managers in January 2014, with focus on the following:</p> <ul style="list-style-type: none"> • Critical leading competencies that drive the strategic intent and direction of local government; • Core competencies which senior managers are expected to possess, and which drive the execution of the leading competencies; and • The eight Batho Pele principles

3. COMPILING THE PERSONAL DEVELOPMENT PLAN ATTACHED AS THE APPENDIX.

A manager, in consultation with his / her employee is to compile a Personal Development Plan. The PDP has 7 columns that need to be completed. An example is attached as Appendix A.

Column 1: Skills/Performance GAP

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
E.g. 1. Appraise Performance of Managers	The manager will be able to enter into performance agreements with all managers reporting to him / her, appraise them against set criteria, within relevant time frames	A course containing theoretical and practical application with coaching in the workplace following [relevant unit standard?]	External provider, in line with identified unit standard and not exceeding R 6 000	March 200...	Appraisal of managers reporting to him / her	Senior Manager: Training/ HR

(a) The identified training needs should be entered into column one. The following should be taken into consideration:

Organisational needs

Strategic development priorities and competency requirements, in line with the municipality's strategic objectives.

The competency requirements of individual jobs. The relevant job requirements (job competency profile) as identified in the job description should be compared to the current competency profile of the employee to determine the individual's competency gaps.

Specific competency gaps as identified during the probation period and performance appraisal of the employee.

Individual training needs that are job / career related.

Prioritisation of the training needs [1 to ...] in column 1 should also be determined since it may not be possible to address all identified training needs in a specific financial year. It is however of critical importance that training needs be addressed on a phased and priority basis. This implies that all these needs should be prioritized for purposes of accommodating critical / strategic training and development needs in the HR Plan, Personal Development Plans and the Workplace Skills Plan.

Column 2: Outcomes Expected

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person

Consideration must be given to the outcomes expected in column 2 so that once the intervention is completed the impact it had can be measured against relevant output indicators.

3. Column 3: Suggested Training

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
---	--	---	-------------------------------	--------------------------	--	-------------------

Training needs must be identified with due regard to cost effectiveness and listed in column 3.

4. Column 4 : Suggested mode of delivery

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
---	--	---	-------------------------------	--------------------------	--	-------------------

The suggested mode of delivery refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. Mode of delivery consists of, amongst others, self-study, internal or external training provision; coaching and / or mentoring and exchange programmes. Training must be conducted either in line with a recognised qualification from a tertiary institution or unit standards registered on the National Qualifications Framework (South African Qualifications Authority), which could enable the trainee to obtain recognition towards a qualification for training undertaken. It is important to determine within the municipality whether unit standards have been developed with regard to a specific outcome (and registered with the South African Qualifications Authority). Unit standards usually have measurable assessment criteria to determine achieved competency.

5. Column 5: Suggested Time Lines

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
---	--	---	-------------------------------	--------------------------	--	-------------------

An employee should on average receive at least five days of training per financial year and not unnecessarily be withdrawn from training interventions. The suggested time frames enable managers to effectively plan for the annum e.g. so that not all their employees are away from work within the same period and also ensuring that the PDP is implemented systematically.

6. Column 6: Work opportunity created to practice skill / development area

1. Skills / Performance Gap (in order of priority)	2. Outcomes Expected (measurable indicators: quantity, quality and time frames)	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person
---	--	---	-------------------------------	--------------------------	--	-------------------

This further ensures internalisation of information gained as well as return on investment (not just a nice to have skill but a necessary to have skill that is used in the workplace).

7. Column 7: Support Person

1. Skills / Performance Gap <i>(in order of priority)</i>	2. Outcomes Expected <i>(measurable indicators: quantity, quality and time frames)</i>	3. Suggested training and / or development activity	4. Suggested mode of delivery	5. Suggested Time Frames	6. Work opportunity created to practice skill / development area	7. Support Person

This identifies a support person that could act as coach or mentor with regard to the area of learning for the employee.
