 - (i) a cap on the compensation payable to the service provider; and
 - (ii) that such compensation must be performance based.
- (4) Management of expansions or variation of orders against the original contract
 - (a) It is recognized that, in exceptional cases, an Accounting Officer or accounting authority may deem it necessary to expand or vary orders against the original contract.

- (b) The absence of a prescribed threshold for the expansion or variation of orders against the original contract has, however, led to gross abuse of the current SCM system.
- (c) In order to mitigate against such practices, accounting officers and authorities are directed that, from the date of this instruction note taking effect, contracts may be expanded or varied by not more than 20% or R20 million (including all applicable taxes) for construction related goods, works and/or services and 15% or R15 million (including all applicable taxes) for all other goods and/or services of the original value of the contract, whichever is the lower amount. The relevant treasuries may, however, decrease these thresholds for institutions reporting to them.
- (d) Any deviation in excess of these thresholds will only be allowed subject to the prior written approval of the relevant treasury. Whilst provision is made for deviations, it is imperative to note that requests for such deviations may only be submitted to the relevant treasury where good reasons exist.
- (e) The contents of paragraph (b) are not applicable to transversal term contracts facilitated by the relevant treasuries and specific term contracts as in such contracts, orders are placed as and when commodities are required and that at the time of awarding the contract, required quantities are not known

 - (e) act with due care and diligence and observe all accounting and legal requirements.
- (6) There are three levels of contract administration:
 - (a) The first operational level is for standard contracts for goods and services. Day to day contract administration should become no more than a monitoring, record keeping and price adjustment authorisation role.
 - (b) The second or intermediate level is for more complex contracts for services. An example would be a contract to outsource cleaning services. This type of contract will require a more active role for the contract manager in developing the relationship between the Municipality and the contractor.
 - (c) The third level is for strategic contracts involving complex partnerships and outsourcing arrangements. These contracts need more active management of the business relationships between the supplier and the users, for example to manage outputs and not the process. Sufficient resources need to be dedicated by all parties to successfully manage these contractor relationships and, where feasible, to achieve partnership. A partnership is the result of mutual commitment to a continuing co-operative relationship, rather than parties working on a competitive and adversarial basis.
- (7) Framework agreements
 - (a) provide a convenient means for employers to obtain goods, services or works from contractors within a defined scope on an "as instructed" basis over a set term without necessarily committing to any quantum of work. Normally the employer appoints a number of contractors to provide goods, services or works in terms of a framework agreement following a competitive selection process e.g. qualified procedure or open procedure. Framework agreements accordingly enable an employer to obtain goods, services or works as and when required in an efficient and cost effective manner.
 - (b) Only near the end of the term is the market approached to provide the goods, services and works covered by such contracts for the next term.
 - (c) The essential elements of a framework agreement are:
 - i. A framework agreement is only entered into with contractors (including suppliers and service providers) who have the resources and the capability to carry out work that is likely to be instructed.
 - ii. A framework agreement needs to include the basis by which contractors are to be remunerated for instructed work.
 - iii. The scope of work of a framework agreement needs to identify the extent and location of the work covered by the contract as the employer may not instruct a contractor to provide work outside of the scope of work associated with the contract.
 - iv. Competition amongst framework contractors participating in framework agreements covering a particular scope of work needs to be reopened whenever there is no justifiable reason for issuing a batch/task/package order to a particular contractor, in which case all or selected number of contractors are invited to submit quotations to execute a batch/task/package order.
 - v. Contractors may only proceed with work associated with a batch/task/work package when given an official batch/task/package order to do so.

- vi. Employers are not permitted to issue a batch/task/package order after the end date of the term of the framework agreement.
- vii. Any work commenced before the end of the term of a framework contract may continue until the end date provided in the batch/task/package order.
- (d) The instructing of work outside of the scope of work of a framework agreement is not permitted. This is seen to circumvent the system anything not explicitly provided for in the framework contract must be procured on a competitive basis in terms of an organisation's normal procurement system.
- (e) The reopening of competition amongst contractors whenever the terms and conditions are amended ensures that the prices for work done not explicitly covered in the framework contract remains competitive.
- (f) Framework contracts should generally be between three years. (ISO 10845-1) except where justified by the organisation's executive. Municipal contracts having a duration of longer than three years need to satisfy sections 33 and 116 of the Municipal Finance Management Act, 2003 (Act 56 of 2003)
- (g) The Supply Chain Management Regulations issued in terms of the Public Finance Management Act and the Municipal Finance Management Act permit one organ of state to make use of another organ of state's contract that is put in place by means of a competitive procurement process.
- (h) Framework contracts are well suited to such applications.
- (i) Essential elements of a framework agreement should, as a minimum, contain:
 - i. The term (period) of the contract within which a batch/task/package order falling within the scope of work associated with the contract may be issued;
 - ii. The scope of the goods, services or works which may form the basis of a batch/task/package order;
 - iii. The basis by which contractors are to be remunerated for instructed work; and
 - iv. Where a framework contract is entered into with more than one contractor, the manner in which competition between framework contractors in relation to a specific batch/task/package order falling within the scope of work associated with their contracts, may be reopened.
- (8) Multiple framework contracts
are entered into Where the framework agreement provides prices prime rates or rates only or fees or staff rates or expenses etc. which fully cover the required goods or services or works or infrastructure procurement the employer may invite the contractor who in their opinion is most suited to provide the work associated with the batch/task/package order in the best interest of the employer to do so.
- (a) Factors such as geographic location, prior work around the required scope of work and specialist expertise might influence the decision.
- (b) Alternatively, such selection may be made on a next in line basis from a rotating data base.
- (c) Where the terms of the framework contract require modification, or where there is no advantage or justification for favouring one framework contractor over another, all or selected number contractors who have framework contracts covering the required scope of work are invited to submit quotations to provide work in terms of the batch/task/package order.
- (d) Quotations need to be evaluated in accordance with the cidb Standard Conditions of Tender or National Treasury General Conditional Contract 2010
- (e) Typical activities associated with framework contracts

 - (iv) Public Office-Bearers Act, Act 20 of 1998, and its regulations; and
 - (b) Although a transaction or an event may trigger irregular expenditure, a municipality or municipal entity will only identify irregular expenditure when a payment is made, in other words, the recognition of irregular expenditure will

be linked to a financial transaction. If the possibility of irregular expenditure is determined prior to a payment being made, the transgression shall be regarded as a matter of non-compliance. Details on treatment of irregular expenditure are dealt with later in this Circular.

(4) Fruitless and wasteful expenditure

- (a) The description of the categories of irregular expenditure in the above three instances can be applied directly to fruitless and wasteful expenditure. Fruitless and wasteful expenditure can arise in any circumstance and is not dependent on non-compliance with any legislation.
- (b) Council should follow section 32(2)(b) of the MFMA when dealing with instances of fruitless and wasteful expenditure.
- (5) Register of unauthorised, irregular, fruitless and wasteful expenditure
- (a) All instances of unauthorised, irregular, fruitless and wasteful expenditures must be reported to the mayor, the MEC for local government in the province, the Auditor-General, disclosed in the annual report, and to council as required by section 32(4) and 74 of the MFMA.

(7) Procedure to Condone the Irregular, Fruitless and Wasteful Expenditure as follows

- (v) in terms of section 170 of the MFMA, only the National Treasury may condone non-compliance with a regulation issued in terms of the MFMA or a condition imposed by the Act itself. The municipal Council therefore has no power in terms of the MFMA to condone any act of non-compliance in terms of the MFMA or any of its regulations. The treatment of expenditure associated with the non-compliance is therefore the responsibility of the Council
- (vi) There is no provision in the MSA that allows for a contravention of the Act to be condoned. Nevertheless, should a municipality wish to request that an act of non-compliance with any provision of the MSA be condoned, then the Accounting Officer should address the request to the Minister of Co-operative Governance and Traditional Affairs, who is responsible for administering the MSA. The resultant expenditure should however be dealt with in terms of section 32(2) of the MFMA.
- (vii) There is no provision to allow irregular expenditure resulting from a contravention of the Public Office-Bearers Act to be condoned. This is consistent with section 167(2) of the MFMA, which provides that such irregular expenditure cannot be written-off and must be recovered from the political office-bearer concerned.
- (viii) A council may condone a contravention of the council approved SCM policy or a by-law giving effect to such policy, provided that the contravention, is not also a contravention of the MFMA or the MFAM-SCM regulations, in which case (a) applies and then only National Treasury can condone a contravention of the MFAM-SCM regulations. Any such requests must be accompanied by a full motivation and submitted to mfma@treasury.gov.za for consideration.
