1. INTRODUCTION

- 1.1 The Mopani District Municipality reaffirms its commitment to the national principles that shall underpin the indigent policy –
- (a) Everyone has inherent dignity and the right to have their dignity respected and protected. All process that involves the provision of services to citizens shall be done in such a manner as to respect the entrenched rights and dignity of those citizens.
 - (b) Municipalities shall provide basic services to its indigent in a sustainable manner. It is not expected that a municipality shall provide free basic services beyond its financial and other capacities.
 - (c) Indigents shall be afforded access to more than just the free basic services package. it is widely acknowledged that the free basic services package on its own shall not see indigent communities standards of living improve. It is imperative that linkages be made between the free basic services package and the broader package of social services.
 - (d) In providing free basic services to indigents, municipalities shall provide these services at the recognised and approved minimum basic levels. Municipalities are not dissuaded from providing a higher level of a service if they can afford to do so, and can sustain this higher level.
 - (e) Free basic services are targeted at the indigent. Therefore, a municipally can use any approach it chooses to provide Free Basic Services as long as it can ensure and demonstrate that the indigents are benefiting from free basic services.
 - (f) The municipal indigent policy is not a standalone policy which is independent from the municipality's IDP's, its debt and credit control procedures, its by-laws etc. A municipality's indigent policy needs to be developed to integrate with these strategic management plans and procedures so as to ensure that a municipality shall be able to sustain its free basic services programme.
 - (g) Municipalities need to start planning realistic exit strategies for their indigent populations to exit from the indigent registers and subsidies. This shall entail that the living circumstance of the indigent has improved significantly so that the indigent can afford to pay for their service. What this implies is that

municipalities shall integrate their Free Basic Services delivery with structured poverty alleviation programmes.

- (h) Due to the varying circumstance and conditions within municipalities it is recognised that municipalities shall exercise their right to apply the national indigent framework and these guidelines according to their own circumstances.

1.2 This policy shall –

- I. Allow the municipality to target the delivery of essential services to citizens who experience a lower quality of life;
- II. Identify how the indigent shall be accessed;
- III. Establish the process that shall be used to manage the indigent;
- IV. Identify the process for tracking and assessing the service received by the indigent, as well as the real benefit that has resulted from the subsidies;
- V. Provide policy direction to the municipality's IDP's and financial planning instruments;
- VI. Establish the process to set targets (milestones) for the rollout of free basic services to the entire indigent population within the municipal area; and
- VII. Identify the linkages between the various poverty alleviation programmes that shall result in the indigent moving away from the poverty trap.
