Purpose

The purpose of this report is to give feed-back regarding the performance of Mopani District Municipality as required through The Municipal Systems Act. The results are based on the Strategic/IDP scorecard and SDBIP¹ as developed for financial year 2009/2010. The report is based on information received until 30 August 2010 for the fourth quarter assessment of performance ending June 2010. This report is a high-level report based on scores obtained through a process whereby actual information per Key Performance Area, Objective and Programmes on KPIs and Projects are compared to the budget and planned progress. The report is divided into sections for the Strategic/IDP, National and SDBIP performance. The report serves as a summary of results. Detail on KPIs and Activities are included in a separate document due to the volumes thereof.

Performance scores with can be interpreted as being very low performance, being that target was reached and being that 167% or more of target was reached. Scores were calculated using an automated system designed for Mopani District Municipality's Performance Management Requirements. Refer to the addendums for more information on the calculation of scores.

II. Executive Summary

This report serves as the Quarterly Performance Report for the 2009/2010 financial year. It provides feedback on Strategic/IDP Performance, National and SDBIP performance. The Strategic, SDBIP and Lower SDBIP Performance were assessed and scores calculated. The Strategic Scorecard received a score of 3.08 (103%) in comparison to the mid-year performance of 2.48 (83%). The top layer of the SDBIP scored 2.94 (98%) at the end of the financial year, which is a slight improvement from the mid-year results of 2.71 (90%). The Organisational performance (SDBIP and Lower SDBIP combined) scored 3.21 (107%).

The National (General) Indicators² showed below target performance, although improvement from 2007/2008 and mid-year has been achieved. Only 54% of the capital budget has been spent on identified capital projects for the current financial year. This equates to the total capital amount spent being R166,029,252.00 of the total capital budget of R304,944,228.00. This is a decrease from the previous financial year where 95% of the capital budget was spent. Cost Coverage is reported to be 450.35% and increased from the previous year where 230% were achieved. Total number of households served with basic water reached 94% of target (200,221/212,232). In total, 714 water borne sanitation connections have been completed in the Modjadji town in an effort to eradicate the bucket system. A total of 13 women have been appointed at management level, but no progress could be made on appointing a disabled person in management level.

The Strategic/IDP scorecard increased in performance in reaching target at the end of the financial year mainly due to increase in information being supplied by the departments. In total, 1.73% of the Municipal salaries budget was spent on implementing the workplace skills plan during the year against a target of 0.63%. This was slightly higher than the previous year where 1.67% was allocated to the workplace skills plan. This equates to R 1,031,000.00 for training of staff out of total amount of salaries of R 59,463,855.00. A service provider has been appointed for establishing of waste disposal sites at Maruleng_, Greater Giyani _ and Greater Letaba Local Municipality and is already on site.

¹ Service Delivery and Budget Implementation plan available at http://www.mopani.gov.za/index.php?page=sdbip

² Act 32, 2003: Municipal Systems Act Section 43

The SDBIP and lower SDBIP (Organisational Performance) reached target and achieved its best score at the end of the year. The Budget and Treasury directorate's scorecard almost reached target at the end of the year. A total of 87.59% of the municipal budget was spent. This equates to R 516,287,412.22 expenditure against a budget of R 589,417,851.84. This was an improvement over the previous year's expenditure of 82%. The departmental expenditure was at 95.6% of budget which is also an improvement from the previous year's expenditure of 70%. The General Expenditure was at 26% of the Operating expense budget which is not only lower than the 37% target, but also considerably lower than the previous year expenditure of 43%.

A challenge for the municipality is that the supply chain unit is not fully capacitated and due to this has negatively influenced various aspects of performance throughout the municipality. An example is that only 62% of the capital budget has been spent during the financial year. The low expenditure was due to a vast number of service providers only being appointed late in the year. Only R 166,029,251.85 was spent against the planned Capital expenditure of R 265,739,822.03. The expenditure is considerably lower than the R 220,270,259.00 spent during the previous financial year. An improvement will only be seen once the supply chain unit is fully capacitated. Another consequence was that only 26.78% of tenders were adjudicated within 30 days of closure of tender. The supply chain process is to be accelerated by ensuring that the unit is fully capacitated.

The Technical Services directorate's scorecard achieved target at the end of the financial year. Achievements were that a total of 1591 jobs were created through the Extended Public Works Programme (EPWP) against a target of ten jobs. The total number of households served with basic sanitation is 202,991 against a targeted 161,572 for the financial year exceeding target by 26%. From people employed through the infrastructure projects, 31.36% were youth against a target of 30%. All water borne sanitation connections targeted for the financial year (704) has been completed in an effort to eradicate the bucket system. Numerous projects have been completed during the financial year. These include MOPANI RURAL HOUSEHOLD SANITATION project, SEKGOSESE GROUNDWATER DEVELOPMENT SCHEME project, WATER RETICULATION TO VILLAGES IN Greater Giyani Municipality, UPGRADE OF WATER RETICULATION - Greater Letaba Municipality, Sekgosese ground water development scheme, KWGEETSI-TOURS ACCESS ROAD project, MAKHUSANE TO NAMAKGALE ROAD project, UPGRADING OF MASEKE TO MASHISHIMALE PHASE IV road project, METZ BISMARK ROAD project, MODJADJI TO MAVELE ROAD UPGRADE project and EXTENSION TO MODJADJI WATER WORKS project. Challenges were faced in Budget and Expenditure Management with low capital expenditure (65%). This is primarily due to the late appointment of service providers for the various projects resulting in late project completion. Only 10% of capital projects were implemented on time during the financial year.

The Planning and Development directorate's scorecard reached target at the end of the financial year. Achievements were that 50% of programmes reached a score of between 4.00 – 4.99 (132%-166%) and 16.67% reached the maximum score of 5.00 (167%). The Spatial Planning / Municipal Infrastructure Grant programme performed above target for the whole of the financial year except during the first quarter, as all requested site inspections were carried out in line with the site demarcation and the formalisation of informal settlements process. The LED programme over achieved in so far as six anchor projects have been implemented throughout the year against the target of four. These were Sapekoe Tea Estate, Moshupatsela programme, Greater Giyani Natural Resource Development Programme (GGNRDP), Modjadji Nature Reserve, the Shangoni Infrastructure programme and the 2010 Infrastructure programme. In addition, through two of these projects, 67 long term jobs³ have been created against the annual target of 34. The Information Management, Research and Development programme achieved target in that the action plan for the Geographical Information System (GIS) implementation has remained on target throughout the year. All five local municipalities were visited and user requirements were collated for the analysis report.

³ Jobs are defined as employment for an individual earning minimum income or above, for at least three months

The Planning and Development programme achieved target as the Spatial Development Framework (SDF) links 100% to the Provincial Growth and Development Strategy (PGDS). This is due to the involvement of the relevant stakeholders during the SDF review process. Challenges were few and mainly faced with Budget and Expenditure Management during the year. The overall impact of the Supply Chain Management process on project progress due to the late appointment of service providers has affected the Directorates ability to achieve the targets set and in turn has drastically impacted budget expenditure throughout the year. The budget variance for the Planning and Development Directorate is reported to be at 63.60% as per the Budget and Treasury Report. This equated to a total expenditure of R 2,345,369.26 out of the allocated budget of R 6,442,889.00. This is considerably larger than at the end of the previous financial year where a variance of 14.83% was reported, although also below target.

The Corporate Services directorate's scorecard reached target with best performance seen at the end of the financial year. Achievements were that 90% of staff members have received adequate Occupational Health and Safety training, and have been trained in first aid. The draft Employment Equity Plan has been forwarded to council for approval. A service provider has been appointed to review and develop the Competency framework. Challenges were that the Budget and Expenditure programme were not being reported on in this quarter. This was also the case for the second and third quarters. Only 49% of staff members are women against a target of 50%. This equates to 83 out of the total 168 staff members. No disabled interns have been appointed. In addition, only 9.5% of the training budget has been spent. This is due to the late appointment of the service providers.

The Community Services directorate's scorecard reached target at the end of the financial year. Achievements were that sixty percent of programmes reached a score between 4.00 – 4.99 (132%-166%). Health Services performed above target for the whole of the financial year with several events and campaigns that were held successfully. They include the Health and Hygiene Road Shows, Celebrations for the World Food Day and World Aids Day and the Mayor's Charity Cup event held on the 19th of July 2009 at Nkowankowa Stadium.

The Environmental Health and Waste Management programme reached target in that the draft Environmental Status quo report was completed by end June and submitted to Management. The establishment of waste disposal sites in Greater Giyani Municipality, Maruleng and Greater Letaba Municipalities were on track with a Service provider being appointed and functioning on site. Furthermore, a license was issued for Maruleng refuse disposal site. The licenses for Greater Giyani Municipality and Greater Letaba Municipality are in progress.

A significant increase in participation of community members in arts and culture initiatives occurred. In 2009, participation in arts and culture activities was at 59% while in 2010 it is almost at 75%. The Sport, Arts and Culture events coordinated by the department were significantly higher than during 2009/2010. Five events were coordinated during 2008/2009 against the 27 events in the current financial year.

Several projects for the "Fire" Programme are on schedule and will continue in 10/11. They include the Erection of Carports for the Tzaneen Fire Station where construction has started; An Activation request being submitted for the Control Room/Activation System for Tzaneen Fire Station; The Terms of Reference that was developed and completed during the second quarter for the Building of Sleeping Quarters/Tower/Storerooms/Workshop at Maruleng Fire Station. In addition, the Tender processes have been completed and Service Providers appointed for the Procurement of Vehicles and Procurement of Rescue equipment.

More than double the planned housing beneficiaries' workshops took place during the year. All the Housing beneficiary lists have been updated and all local municipalities' Integrated Development Plan (IDP) documents in the Mopani District area now contain chapters on Housing.

Although it was reported that 25% of people were affected by violation of drinking water during the first quarter, none of the population in the district was affected for the remainder of the year although

there are certain sections of the community who are not getting water (e.g. Dzumeri Local Area, Julesburg Local Area and Giyani Local Area). These communities are resorting to other means of supply such as raw river water. All of the 231 reported cases of Bilharzia were investigated during the first quarter and referrals were made to hospitals. All domestic water samples complied with standards. A total of 110 domestic water samples were collected for analysis in all the local municipalities from July 2009 to June 2010.

All of the 13 sewer disposal works that were monitored were complying with the operating standards. All of the reported food poisoning cases (44) were referred to Environmental Health Practitioners (EHPs) for further investigation. The necessary procedures were taken to prevent future occurrence. All milk samples taken during the year were compliant with standards.

Challenges were few and mainly faced with Budget and Expenditure Management during the year. The budget variance for the Community Services Directorate is reported to be at 58.64% as per the Budget and Treasury Report. Another significant challenge is that there currently exist only 32 Environmental Health practitioners to service the entire District. The requirement as per the National Standards of South Africa is a 1:15 ratio. This will equate to 81 required to service the area.

The HIV/AIDS prevalence rate stands at 25.2%. This is an increase from the 23.8% reported during 2008/2009.

Of the targeted five local municipalities, only three have licensed landfill sites. This is still an improvement from the previous year performance where only two municipalities had licensed land-fill sites. Greater Letaba and Greater Giyani Municipalities dumping sites are still in the process of development. A service provider has been appointed and is functioning on site.

The Office of the Executive Mayor directorate's reached target at the end of the financial year. The overall performance for the directorate could not be properly assessed in the previous quarters as no information was supplied. Achievements were that seventy percent of programmes achieved on target or above scores. The maximum score of 5.00 was seen by the Health Services (Community Health and Social Development Services), Elders Development and Environmental Health and Waste Management programmes with several events and campaigns that were held successfully. They include the Health and Hygiene Awareness Campaign, Food Hygiene Workshops, World Environment Day, Youth Day and Youth Month celebrations as well as a Candlelight Memorial Awareness Campaign.

Some additional points of note are that eight public participation meetings were held and all of the community members were addressed in their local language. In addition, all notices of events were sent out two weeks prior to an event taking place and all logistical arrangements were made at least one week in advance.

Challenges were faced in that there was only 60% expenditure reported on the departmental operating budget. The Institutional Mainstreaming assessment was not conducted due to internal re-engineering processes and the quarterly South African Women in Dialogue (SAWID) meeting did not take place due to transport problems experienced by the participants. It has been recommended that the municipality should develop a transport policy that addresses the travelling needs of stakeholders.

Annual Performance Report 09/10

National and IDP Scorecard

III. Overall Performance

Overall performance for the Municipality is calculated by taking an average of the Strategic scorecard and the SDBIP with the LSDBIP combined. Performance is as follows:

Mopani District	June 08	June 09	Sep 09	Dec 09	Mar 10	Jun 10
Municipality	AVG	AVG	AVG	AVG	AVG	AVG
Overall			2.12	2.44	2.93	3.15
Strategic	3.52	3.74	1.98	2.48	3.04	3.08
Organisational Performance	2.81	3.52	2.44	2.70	2.82	3.21
National KPIs			1.65	2.07	2.53	2.85

Table 1: Overall Municipal Performance

Performance in all the scorecards has increased over previous quarters, with the Organisational Performance on target. Although slightly lower than the previous year, performance was on target. The performance of the National KPIs was not taken into account in calculating overall scores as these exist in the SDBIP.

IV. National Performance

General KPIs are prescribed as per the Municipal Systems Act S43 and Regulation 796 section 10. For MDM, the National KPIs performed as follows per key performance Area:

National KPIs	Sep 09	Dec 09	Mar 10	Jun 10
Tradional IX 15	KPI	KPI	KPI	KPI
Overall	1.65	2.07	2.53	2.85
KPA 1: Municipal Transformation and Organisational Development	2.00	4.00	5.00	5.00
Build Intellectual Capacity	1.00	5.00	5.00	5.00
Capacity building and Training (HRD)	1.00	5.00	5.00	5.00
Develop entrepreneurial capability	3.00	3.00	5.00	5.00
Human Resource Management	3.00	3.00	5.00	5.00
KPA 2: Basic Service Delivery	2.11	2.10	2.09	2.91
Resource manage infrastructure and services for access and mobility	2.11	2.10	2.09	2.91
Free Basic Services	1.25	1.25	1.24	
Water and Sanitation Services	2.96	2.95	2.94	2.91
KPA 3: Local Economic Development	1.00	1.01	1.01	1.36
Grow the economy and halve unemployment	1.00	1.01	1.01	1.36
LED	1.00	1.01	1.01	1.36
KPA 4: Municipal Financial Viability and Management	1.50	1.16	2.00	2.12
Become financially viable	1.50	1.16	2.00	2.12

National KPIs	Sep 09	Dec 09	Mar 10	Jun 10
IVALIONAL KPIS	KPI	KPI	KPI	KPI
Budget and Expenditure Management	1.00	1.00	1.00	1.24
Revenue	2.00	1.32	3.00	3.00

Table 2: National Performance

1. Performance of National KPIs

The National KPIs performed well in the following:

- In total, 1.73% of the Municipal salaries budget was spent on implementing the workplace skills plan during the year against a target of 0.63%. This was slightly higher than the previous year where 1.67% was allocated to the workplace skills plan.
- The total number of people from employment equity target groups (women and disabled) employed in the three highest levels of management is at 45% with 13/31 people being women. This is an improvement from the eight people from the previous financial year.
- Total number of households served with basic water reached 94% of target (200,221/212,232). The Muyexe Water Reticulation project focused on getting water to the storage tanks. A complete network is not yet developed, but the community is now able to receive water from the existing taps.
- Cost coverage is at 450.35% and increased from the previous year where 230% were achieved.
- The Bucket Eradication programme is at 60% as reported during the third quarter⁴, with the household connections being completed. This is now waiting for completion of sewer projects in the area.

Challenges were faced in the following:

- The number of jobs created through the municipality's LED initiatives including capital projects were at 1700 at the end of the financial year. This means that only 43% of the annual target was achieved. The previous financial year rendered 4094 jobs (94 from LED⁵; 4,000 from Capital Projects).
- Only 54% of the capital budget has been spent on identified capital projects for the current financial year. This equates to the total capital amount spent being R166,029,252.00 of the total capital budget of R304,944,228.00. This is a decrease from the previous financial year where 95% of the capital budget was spent. The decrease was due to slower supply chain management procedures and most service providers being appointed during the last quarter of the year.
- The percentage outstanding service debtors to revenue were reported to be at 47% against a targeted 0%. The Municipality is charging only for services rendered by the Fire department in the Community Services directorate.

⁴ No reporting on this figure was done during the final quarter of the year.

⁵ Local Economic Development

The National KPIs performance is as follow:

						Corrective	Target	Se	o 09	Dec	09	Mar	10			Jun 10

Table 3: National KPI performance

Page 12 of 54

2. Graph per Programme of National KPIs

The graph below depicts the National KPIs performance per Programme. The Programme Bucket Eradication was not applicable for reporting in the first and second quarters and is for reporting purposes only in the third and fourth quarter.

Graph 1: National KPI performance per programme

The "Capacity building and Training" and "Human Resource Management" both achieved the maximum score of 5.00 for the third and fourth quarters. This is due to more money being spent on skills development than budgeted for and 13 women (42%) (four women more than the previous financial year) being employed in the three highest levels of management. The "Budget and Expenditure Management programme" had the lowest result of 1.24 due to the low expenditure of the capital budget. The programme for Free basic services is not applicable for reporting after budget adjustment.

3. Overall IDP Scorecard Performance

The Strategic Scorecard contains KPIs and Projects that are strategically of importance to the Executive Mayoral Committee and Council. This scorecard is managed by the Municipal Manager who reports back to the Executive Mayoral Committee and council on Performance. This scorecard is the same as the one appearing in the IDP for 2009/2010.

The overall performance score achieved was 3.08 (103%) which was a good improvement over mid-year performance of 2.82. The summary of KPIs and Activities per Objective is shown below. A break-down of the Strategic KPIs and strategic projects are listed in Addendum C and D.

Charlesis	June	June		Sep 09			Dec 09			Mar 10			Jun 10	
Strategic	08	09	KPI	PRJ	AVG									
Overall	3.52	3.74			1.98			2.48			3.04			3.08
KPA 1: Municipal Transformation and Organisational Development		4.50	1.75	2.86	2.08	2.92	3.03	3.22	4.25	3.38	4.22	3.78	3.70	3.81

Table 4: Strategic Scorecard performance per Objective and Programme

The strategic scorecard received target for the last three years. Two of the five Key performance areas (KPAs) achieved target with Municipal Transformation and Organisational Development achieving the highest score of 3.81 followed by Good Governance and Public Participation with a score of 3.50. Local Economic Development performed lower than last year mainly due to the high performance in 08/09 for the projects of "Establishment of Development Agency" and "Fresh Produce market S 21 Company established".

The strategic scorecard excelled in the following:

- Capacity building and Training (HRD)
 - Ø In total, 1.73% of the Municipal salaries budget was spent on implementing the workplace skills plan during the year against a target of 0.63%. This was slightly higher than the previous year where 1.67% was allocated to the workplace skills plan. This equates to R 1,031,000.00 for training of staff out of total amount of salaries of R 59,463.855.00
- Human Resource Management
 - Ø The total number of people from employment equity target groups (women and disabled) employed in the three highest levels of management is at 45% with 13/31 people being women. This is an improvement from the eight people from the previous financial year. Women and disabled people will be continued to be targeted during recruitment.
 - **Ø** The personnel turnover rate for the first and fourth quarter was 0% although a turnover rate of 1.85% was reported during mid-year and 1% during the third quarter. This calculates to about 0.71% turnover rate for the year against a target of not more than 1%. This is lower than the 6% experienced during the previous financial year.
 - Ø The evaluation and specification activities for the development of the Competency Framework project have been conducted. The Framework is ready for presentation to Management.
 - **Ø** The Retention Strategy has been developed and being edited after being forwarded to Management for input.

Communication

Ø The customer satisfaction rating was estimated to be at 150%. A service provider to conduct the survey was appointed.

Progress on projects that was continued from the previous financial year (08/09) is as follows:

- The project on the establishment of the fresh produce market that continued from the previous year is on target with the Market Study completed in February 2010 by National Treasury. Riboni Consortium has completed the scoping report on the EIA.
- Incorporation of Airport Function into District Municipality: The appointment of service provider was only done in May 2010 hence the delay in implementation. The project is to be rebudgeted for 2010/11 Budget Cycles for completion.
- The project for the extension of the Mopani Municipal Offices has been suspended after budget adjustment for the fourth quarter. It has been reported to be at 5% physical progress during the third quarter. The project was put on hold. The engineer is busy with the process of terminating the existing building contract. A new contractor needs to be procured urgently.

The strategic scorecard had challenges in the following areas:

- Water and Sanitation Services
 - Ø The percentage of households with access to basic level of water is 33.30% against a targeted 79.49%. It must be noted that the current percentage attained is from a larger number of households than originally targeted 200221 / 284508 as opposed to the target of 208100 / 266962. Targets need to be reviewed.
 - **Ø** The percentage of households with access to basic level of sanitation is 51.25% against an annual target of 60.52%.
- Budget and Expenditure Management
 - Actual expenditure for the municipality⁶ is at 87.56%. Although this is not low, the expected expenditure was 100% as reported during the previous financial year. The total municipal budget spent is R 516,287,412.20 of the total budget of R 589,573,631.00.
 - Ø Only 54% of the capital budget has been spent on capital projects that were identified for this financial year against a target of 100%. This is lower than the 95% achieved during the previous financial year.
- Local Economic Development (LED)
 - Ø The number jobs created through municipality's LED initiatives including capital projects were at 1700 at the end of the financial year. This means that only 43% of the annual target was achieved.
- Governance and Administration
 - No information has been supplied on the implementation and monitoring of the Delegation system after it has been approved by Council during the previous financial year in October 2008.

Other projects that performed on target were the Establishment of Waste Disposal Site for Greater Giyani Municipality (GGM), Greater Letaba Municipality (GLM) and Maruleng Local Municipality (MLM). The Service provider appointed is on site. A license was issued for Maruleng refuse disposal site. Licenses for GGM and GLM are in process.

⁶ Actual expenditure is calculated as R-value expenditure / budget expenditure

4. Strategy Map

The Strategy map Scores for June 2010 is based on the Strategic Scorecard Performance.

Mopani District Municipality STRATEGY MAP June 2010 Quality of Life for All Sustainable Income for All Community Driven Organisation Good Credit Rating Sustainable Institution **Community Members** RESULTS Good Governance and Public Local Economic Service Delivery and Financial Viability and Transformation and STRATEGIC Development Infrastructure Development Participation Management Organisation THEMES Improve community wellbeing 2.00 2.51 Effective and efficient Grow the economy and halve **Develop partnerships** Become financially viable unemployment organisation 5.00 1.92 esource Manage Infrastructure Plan for the future lanage through information and services 3.00 3.00 Develop entrepreneurial **Build intellectual capacity** 4.25 5.00

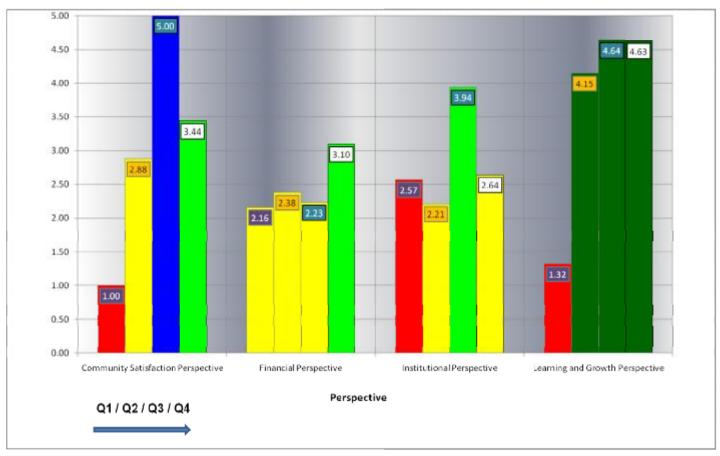

Figure 1: Strategy Map

From a total of ten strategic objectives, six reached target. Two objectives reached the maximum score of five. The objective for Build intellectual capacity over achieved due to more monies being spent on skills development than anticipated. Financial Management is consistently under performing as a result of low Capital budget being spent.

Page 18 of 54

The following graph represents the performance for the four perspectives per Quarter:

Graph 2: Perspective Performance

The Learning and Growth perspective performed the best due to the good performance in Human Resource Management. Institutional Processes did not reach target due to the low performance of the Water and Sanitation Services Programme.

5. Statistical information for the Strategic Scorecard

The following table contains statistical information on performance of the Strategic scorecard.

Third Quarter:

Table 5: Statistical Information for Strategic Scorecard

Two strategic projects were suspended after budget adjustment. Only one activity did not reach target (Delegation system implemented and monitored) due to no reporting on progress for this project activity.

Annual Performance Report 09/10

SDBIP Performance

V. SDBIP Performance

1. Corporate SDBIP Summary Performance

The Corporate SDBIP scorecard contains the performances of the S57 managers. This can also be referred to as the Top layer of the SDBIP. Below is a summary of the Corporate SDBIP performance that includes the average scores per S57 manager. The overall score achieved is 2.94 at the end of the financial year which is a slight increase from the mid-year's result.

Organisational Performance	Sep 09	Dec 09	Mar 10	Jun 10
	AVG	AVG	AVG	AVG
SDBIP Performance	2.71	2.77	2.94	2.94
Municipal Manager	2.58	2.85	2.81	2.62
Director: Office of the Executive Mayor	1.00	1.00	1.00	2.81
Chief Financial Officer	2.14	2.80	2.53	2.68
Director: Technical Services	3.27	3.33	3.53	2.95
Director: Planning and Development	2.13	2.23	2.22	3.35
Director: Corporate Services	3.11	2.66	2.77	3.09
Director: Community Services	3.04	2.77	3.76	3.07

Table 6: Corporate SDBIP Performance

The following seven summary sheets contain a breakdown of the Top layer SDBIP (Corporate SDBIP) The scores highlight the progress on implementation not only at operational level, but also gives an indication of progress per KPA, objective and programmes for KPs, projects and process implementation.

a) Office of the Municipal Manager

The section received a final score of 2.62 (87%). This is a slight decrease from the mid-year performance score of 2.85 (95%). Overall the section has performed consistently throughout the year. A breakdown of programme performance by KPA and objective is below:

Office of the		Se	p 09			De	c 09			Ma	r 10			Jur	า 10

Table 7: SDBIP Performance - Municipal Manager

Overall, 42.86% (3/7) of the programmes reached target. The highest programme score of 4.00 was achieved in Human Resource Management due to the Section 57 Managers all having performance agreements in place and that 33% (2/6) are women. Budget and Expenditure management proved to be the biggest challenge with a 13.91% budget variance reported for the directorate.

Achievements:

- Full compliance to the SDBIP legislative deadlines has been maintained throughout the second half of the year.
- All local municipalities have been supported by the district through capacity building programmes.
- All quarterly departmental performance reports were completed.
- Out of the six Section 57 Managers, two are women which equates to 33%.
- All of the Section 57 Managers have signed performance agreements.
- The Audit Committee is fully functional. Although the quarterly meeting that was scheduled for June did not take place, it has been rescheduled for July.
- During the second quarter, the quarterly Institutional Performance reports were audited by the performance audit committee within three weeks of the end of a quarter.

- All internal audit programmes have been implemented. Four audits took place in June of which one was finalised. The Auditor General Implementation Plan audit, the Integrated Development Plan and Budget Management audit and the third quarter Performance Management System audit are in progress. Delays have resulted due to late submittal of required information from officials.
- All disaster incidents were responded to within one hour of being reported.
- The 2010 Disaster Management Plan is in development which is also linked to the Provincial Plan. The Disaster Plans for Nkowankowa and Giyani PVA have been developed. In addition operational procedures, response procedures and the Emergency and Contingency Plan have also been developed.
- The quarterly SDBIP reports were drafted and submitted to the Mayoral Committee on a quarterly basis.
- The draft Annual Report was submitted to the Executive Mayor for tabling to Council by the end of January. Following their consideration, this was submitted to the Oversight Committee, the Auditor General and Provincial Treasury. Following receipt of, and the adoption of the Oversight Report, both were made public and submitted to the Provincial legislature in the fourth quarter.
- The SDBIP review for the 2010/2011 financial year was completed and submitted to the Executive Mayor in the fourth quarter.
- The Radio Communication and Information Management System implementation was completed ahead of schedule at the end of November.
- The Vehicle Tracking System for the Disaster Management Center was activated in the first quarter as scheduled.
- The Management Lekgotla was coordinated by the end of February.
- The Disaster Management Framework was developed and submitted to Council for adoption by the end of November.

Challenges:

- No strategic relations (inter-governmental or international) have been initiated and no Memorandums of Understanding have been signed.
- Only 90% of the issues that were raised in the last Auditor General's report have been addressed. The report and the implementation plan are in the process of being audited for compliance with the agreed actions plans. A report will be issued in July.
- The budget variance for the Municipal Manager's office is at 13.91% at the end of the financial year. Out of the allocated budget of R 3,437,021.00, the expenditure was at R 2,959,017.26. This equates to expenditure in the amount of 86.09% of the annual budget.
- Only seven of the targeted twelve monthly departmental reports were produced during the course of the year.

b) Budget and Treasury

The Chief Financial Officer's scorecard that is part of the SDBIP received a score of 2.68 (89%) at the end of the year which is slightly lower than the mid-year score of 2.80 (93%). The programme performance per strategic objective and Key Performance Area (KPA) is as follows:

Dudget 9 Treesury		Sep 09			Dec 09			Ma	r 10			Jun 10

Information management, Research and development		3.67	3.67					2.33		2.33		3.00	3.00

Table 8: CFO SDBIP Performance

The Municipal Assets and Fire Programmes were not applicable for reporting during the final quarter. The free basic services programme was not applicable after budget adjustment and therefore no score was assigned to the key performance area for basic service delivery in the fourth quarter. The Municipal Transformation and Organisational Development key performance area had the highest score achieving target in the programme for Information management, research and development. Six KPIs were attributed with a 0 weighting while 26 (26/46) reached target. Five from the seven activities applicable for reporting in the fourth quarter reached target while another activity was attributed with a 0 weighting.

Achievements:

The following contributed to the performance:

- A total of five percent (5.3%) more revenue has been collected than anticipated (R 620,679,195.00 / R 589,418,000.00). This equates to an additional R 3,261,195 more in collections than planned.
- All of the Municipal Systems Improvement Grant (MSIG) for the current financial year has been spent. Almost 70% of the grant has been spent in the final quarter with 30.17% spent up until the third quarter. The funds were used to pay for the services of the newly appointed service provider for the GRAP⁷ conversion during the final quarter.

⁷ Generally Recognised Accounting Practice (GRAP)

- The General Expenditure of 26% was consistently lower than the 37% target set for the year. The total general expenditure was R 61,109,380.63 and operating expenses amounted to R 350,258,160.35 for the financial year .This resulted in a saving of 11% against what was planned.
- Almost no payment errors occurred during the financial year. There was a payment error in the amount of R 4,330.87 during December 2009 out of a total of R 59,940,320.38 in salary expenses. This gives a minimal error rate of only 0.0072% for the financial year.
- All claims were submitted to insurance companies within 30 days of the incident occurring.
- No variance from the asset register occurred and there was 100% GRAP compliance to the register.
- All necessary cash flow and financial reports were submitted to council and Treasuries on time
- The average number of days between system close, month end and the supply of reconciled financial information for reporting remained at five days as per the annual target. The only challenge occurred in the final month of the financial year due to year end.
- The Supply Chain Management database was upgraded by the end of September and service providers were invited to register.

Challenges:

- The collection of revenue for fire services was below target with R 11,162.00 being collected against the planned R 15,000.00. Some improvement has been made as only R 10,982.00 could be collected during the previous financial year.
- Only 62% of the capital budget has been spent during the financial year. The low expenditure was due to the majority of service providers being appointed late in the year. Only R 166,029,251.85 was spent against the planned expenditure of R 265,739,822.03. The expenditure is considerably lower than the R 220,270,259.00 spent during the previous financial year. An improvement will be seen once the supply chain unit is fully capacitated.
- Only 26.78% of tenders were adjudicated within 30 days of closure of tender. The supply chain process is to be accelerated by ensuring that the unit is fully capacitated.
- Only 47.02% of contracts were awarded to BEE, Youth, women and disabled, even though the target of 100% is unrealistic.
- Only two of the three planned financial policies have been developed. This includes the policies for Information Technology (IT) and Asset Management.
- An amount of R 401,697.07 was spent on printing and copying for all departments against a budgeted amount of only R 6,750.00 during the third quarter. No amount was supplied for the fourth quarter.
- The unbundling of the 05-06 asset register was not completed by the end of June as no advertisement had been placed for an appropriate service provider to conduct the project.
- No progress was provided on the maintaining the register on BBBEE scorecards and quarterly reporting to Council, although it was reported during mid-year that this process was being implemented.

c) Technical Services

This part of the SDBIP achieved just below target at the end of the financial year with a score of 2.95 (98%). All other quarters received on target scores. The slightly lower performance is due to more programmes being reported on during the last quarter of the financial year.

Table 9: Technical Services SDBIP Performance

Technical Services SDBIP showed overall consistency in implementing its projects and KPIs from the previous quarter. The best performance was achieved in the "Municipal Assets" programme while the worst was in the "Budget and Expenditure Management" programme.

Achievements:

The following contributed to the performance:

- The total number of households served with basic sanitation is 202991 against a targeted 161572 for the financial year. This equates to 126% of target.
- All infrastructure projects were EPWP (15 projects).
- The district energy forums meetings were held on a monthly basis and reports supplied with interventions in all energy issues.
- Operation and maintenance meetings were held with Satellite managers wherein progress was discussed and interventions supplied on challenges.
- Satellite managers were responsible for monitoring all the infrastructure damage, vandalism and reporting to the municipality relating to water infrastructure maintenance. Together with technicians they monitored the repairs made by service providers.
- Project planning on the UPGRADING OF SENWAMOKGOPE SEWAGE PLANT was completed. Awaiting the approval of the Right of Duty (ROD).
- The State of readiness as well as the project implementation plans were developed and made available for the reporting on the Municipal Infrastructure Grant (MIG).
- The KWGEETSI-TOURS ACCESS ROAD is completed.
- Project planning for the LENYENYE STADIUM was completed. The budget provided for was not adequate to kick start the project during the current financial year.
- Planning for the MABULANE TO LENOKWE BRIDGE and D1329 ROAD (NEAR ROBOTHATHA) BRIDGE projects was completed. Construction budget to be proposed for 2010/11 financial year.
- Planning for the THABINA TO MAAKE ROAD and D1331 MOTHOBEKI MOSHAKGA ROAD projects were completed. A construction budget is to be proposed for 2010/11 financial year.
- The METZ BISMARK ROAD project has been completed.
- The MOPANI RURAL HOUSEHOLD SANITATION project has been completed.
- The SEKGOSESE GROUNDWATER DEVELOPMENT SCHEME project has been completed.
- The transport forum meetings were held monthly and the transport issues were discussed.
- The contractor for the NAMAKGALE SEWAGE WORKS REHABILITATION project has just been appointed. Implementation to commence during the 2010/11 financial year.
- The project progress for the BOYELANG WATER SUPPLY & RETICULATION project to erect a 400 kl storage tank is at 70%. The project was delayed due to the late approval of the altered scope by the local municipality.
- The tender for the THABINA WATER RETICULATION project has closed. Supply Chain Management (SCM) to fast track the appointment of the consultant.
- The project for WATER RETICULATION TO VILLAGES in Greater Giyani Municipality has been practically completed and the contractor is busy with the snag list.

- The completion of the new package plant for the LENYENYE SEWAGE WORKS (PLANT AND OUTFALL) project is at 22% completion. The contractor is busy with the bulk excavations and rock fill.
- The following projects were on schedule with the planning phase being completed:
 - Ø HOEDSPRUIT BULK WATER SUPPLY
 - Ø HOEDSPRUIT SEWAGE PLANT
 - Ø KAMPERSRUS BULK WATER SUPPLY
 - Ø KAMPERSRUS SEWAGE PLANT
 - Ø JOPIE MAWA BULK WATER

Challenges:

The Budget and Expenditure programme faced the biggest challenge receiving below target scores during the financial year. This led to the financial viability KPA being under target for the whole of the financial year and was mainly responsible for the just below target score for the Director. Some other contributing factors to the below target score were:

- A total of 60% of Roads projects were finalised within time, budget and quality. Three (3) road projects were completed (Makhushane to Namakgale road, Mohlaba Road and Maseke Road) and the Department also realised the completion of Kgwetsi Road and the overdue Modjadji Mavele Road.
- A proper survey on customer satisfaction has not been conducted, however the department continued to meet customer needs on a daily basis.
- The expenditure for the Municipal Infrastructure Grant (MIG) was at 84% (R 199,427,272.29 against a target of R 238,810,668). The under expenditure was due to the late appointment of service providers and delays in approval of the TR for Kgapane Waste Water Treatment works. Alignment of MDM budget with the MIG budget should be done to allow development of a proper implementation plan.
- A total of 65% (R 170,254,777.30) of the total capital budget allocated for capital projects was spent. This was against a target of R 259,972,085. This was due to the late appointment of service providers
- A total of 84% (R 129,481,878.93) of the capital budget for basic water and sanitation was spent. The target was set at R 153,922,405. The under expenditure was due to the late appointment of service providers.
- A total of 64% (R 27,155,998.92) of the Capital budget allocated to Roads was spent. The target was set at R 42,500,000. Proper alignment of budget with projects activities need to be done in the future.
- The % budget variance for the directorate carried a 0 weighting and was not reported on as awaiting the financial results.

d) Planning and Development

This section of the SDBIP received a final score of 3.35(112%). This is an improvement from the mid-year performance score of 2.23 (74%). A breakdown of programme performance by KPA and objective is below:

Planning and Development	Sep 09	Dec 09	Mar 10	Jun 10

	KPI	PRJ	PRC	AVG												
Director: Planning and Development				2.13				2.23				2.22				3.35

Budget and Expenditure Management	2.00			2.00	1.17			1.17	1.00			1.00	2.00			2.00

Table 10: Planning and Development SDBIP Performance

Overall, 75% (3/4) of the programmes reached target for this department. The highest programme score of 4.50 was achieved in Planning and Development due to the Spatial Planners Forum being fully functionality and the four planned meetings having taken place. Budget and Expenditure management proved to be the biggest challenge with a 63.60% budget variance reported for the directorate and under expenditure of the allocated capital budget.

Achievements:

- The Spatial Development Framework (Integrated Development Plan) links 100% to the Provincial Growth and Development Strategy (PGDS). This is due to the involvement of the relevant stakeholders during the SDF review process.
- The Spatial Planners Forum is fully functional and the four planned meetings took place during the course of the year.
- The Geographical Information System (GIS) implementation of the action plan has remained on target throughout the year. All five local municipalities were visited and user requirements were collated for the analysis report.
- The three planned meetings during the year for the GISSA Forum were attended.
- The implementation of the GIS establishment programme is 100% complete. The user requirements analysis report was developed based on information gathered at the five local municipalities and GIS data has been supplied to the local municipalities.
- A total of 70% of the ten District Growth and Development Summit anchor projects were completed by the end of the year.
- The Local Economic Development (LED) Forum has remained fully functional throughout the year.

- All the planned meetings for the Fresh Produce Market Project Steering Committee (PSC) were held. The project was completed in February 2010.
- The project expenditure fully correlated (100%) with the project progress by the end of the financial year. This was a major achievement in the fourth quarter as in the third quarter correlation of only 30% was reported.
- The project for the establishment of a GIS unit is complete. The Terms of Reference have been developed for the Integrated Spatial Management Information System. Data has been captured by the Department of Local Government and Housing (DLGH) and Mopani District Municipality has started. All of the local municipalities have been visited and the available GIS data has been distributed.
- The project for the management of the Moshupatsela Orchard is complete. Required equipment was purchased for the rehabilitation of the farm. Four Project Steering Committee (PSC) meetings were held throughout the year, and the project progress was reported to the Management Committee (MANCO) on a monthly basis and the Directorate on a weekly basis.
- The fresh produce market project is complete. The Market Study conducted by National Treasury was competed in February. The Riboni Consortium has also completed the scoping report for the Environmental Impact Assessment (EIA).
- The Alternative Energy Study has been completed and has now been submitted to Technical Services for further processing.
- All the quarterly Business Forum meetings were held during the course of the year.
- The Project Steering Committee meetings were held on a quarterly basis as scheduled for the Moshupatsela project.

Challenges:

- Only 5.87% of the capital budget for Moshupatse was actually spent. This is due to the late appointment of the Service Provider. Intervention from the Management Committee (MANCO) is needed to expedite the Supply Chain Management process.
- There is a 63.60% budget variance reported at the end of the year. This equated to a total expenditure of R 2,345,369.26 out of the total budget of R 6,442,889.00.
- Due to the service providers only being appointed in May, the Feedlot Value chain implementation, the incorporation of the Airport function into the District Municipality and the concept document plan for the Development Agency projects have been delayed. The projects are expected to be re-budgeted for in the 2010/2011 financial year.
- The Bee Keeping project is still awaiting approval on the quotation that was submitted to Supply Chain Management on the 29th of September 2009. To date no approval has been granted. Intervention is needed from the Management Committee (MANCO).

e) Corporate Services

This section of the SDBIP received a score of 3.09 for the fourth quarter, which was an increase from the 2.69 achieved in the third quarter. The best performance for the financial year was in the first quarter where a score of 3.11 was achieved.

Table 11: Corporate Services SDBIP Performance

Achievements:

The following contributed to the performance:

- 90% of staff members have received adequate Occupational Health and Safety training against an annual target of 10%.
- 90% of staff members have been trained in first aid against an annual target of 10%.
- No downtime was reported for internet services throughout the financial year, except for the first quarter that reported 95% uptime against a targeted 80%.

- The Labour Forum has been fully functional throughout the financial year.
- All job descriptions for new posts have continually been in place throughout the financial year and have been accessed by SALGA.
- All mail received has been processed on a daily basis throughout the financial year.
- The draft Employment Equity Plan has been forwarded to council for approval.
- Only 1 of the 7 S57 management positions is still vacant.
- The evaluation and specification activities have been conducted for the Employee Assistance Programme. The appointment of a service provider now needs to be accelerated.
- The beneficiaries of the Long Service Recognition programme are being monitored on a monthly basis throughout the financial year.
- A service provider has been appointed to review and develop the Competency framework.

Challenges:

- No information was supplied for the Budget and Expenditure programme. This was also the case for the second and third quarters as financial figures were not available at time of printing this report.
- Only 49% of staff members are women against a target of 50%. This equates to 83 out of the total 168 staff members.
- Only 9.5% of the training budget has been spent. This is due to the late appointment of the service providers.

f) Community Services

The section of the SDBIP received a final score of 3.07(102%). This is an improvement from the mid-year performance score of 2.77 (92%). A breakdown of programme performance by KPA and objective is below:

Community Convices		Se	p 09			De	c 09			Ma	r 10			Jui	า 10

Table 12: Community Services SDBIP Performance

Overall, 80% (8/10) of programmes reached target for this department. The highest programme score of 5.00 was achieved in Safety and Security due to 13 district safety and security Forum meetings been held against a target of four for the financial year. Budget and Expenditure management proved to be the biggest challenge with a 59% budget variance reported for the directorate.

Achievements:

- All of the 231 reported cases of water-borne diseases were investigated by Environmental Health Practitioners (EHPs) within two days from July 2009 to June 2010.
- All of the 110 water samples collected for analysis from water treatment works in the Local Municipalities complied with standards.
- There was no community members reported to have been affected by violation of drinking water from July 2009 to June 2010; although there are certain sections of the community who are not getting water, e.g. Dzumeri Local Area, Julesburg Local Area and Giyani Local Area; hence resorting to other means of supply such as raw river water.
- From the 2198 food outlets that were monitored in all local municipalities, 96% complied with standards against a target of 90%. This was an increase from the 89.5% compliance level achieved in 2008/2009.
- A total of 34 cases of food poisoning were investigated from July 2009 to June 2010. Health education is being conducted for the general public on a continuous basis.
- A total of 17 HIV/AIDS ARV sites were monitored against the target of eight for the financial year. These included four new ARV sites at Greater Giyani Municipality (Basani and Kremetart Clinic) and at Greater Tzaneen Municipality (Julesburg and

- Carlotta clinic). They were assessed for accreditation on the 7th and 12th of April 2010 and passed the assessment.
- A total of 14 Non-Governmental Organisations (NGOs) were supported and monitored from July to June 2010 against a target of ten. HOPE, Bokamoso and Ramutshinyandi youth Development were supported during the Candle Light memorial and HCT preparatory meetings held on 4, 8 and 10 June 2010.
- The total number of health awareness campaigns held from July 2009 to June 2010 is 11 against a target of eight. The Polio and H1N1 campaign is continuing targeting children from 0-15 years of age.
- A significant increase in participation of community members in arts and culture initiatives took place. In 2009, participation in arts and culture activities was 59% while in 2010 it is almost at 75%.
- Double the planned housing beneficiaries' workshops (8/4) took place during the year. The latest workshop was held at Ba-Phalaborwa on 28 June 2010.
- A total of 1235 people received training in the use of Fire Extinguishing Equipment from July 2009 to June 2010 which is three times more than the set target of 360.
- Although it was reported that 25% of people were affected by violation of drinking water during the first quarter, none of the population in the district was affected for the remainder of the year.
- 100% of emergency incidents were arrived at within 60 minutes from dispatch throughout the financial year. This includes stabilising the patients and transporting them to the closest hospital.
- It is an assumption that our communities are satisfied with the services of the directorate as there were no formal complaints received. No formal survey was done by the institution.
- It must be noted that "Public Participation" was reported to be completed by the end of the financial year with the decision having been taken to establish a District Education Forum.

Challenges:

- The budget variance for the Community Services Directorate is reported to be at 58.64% as per the Budget and Treasury Report.
- There are only 32 Environmental Health practitioners available to service the entire District. The requirement as per the National Standards of South Africa is a 1:15 ratio. This will equate to 81 required to service the area.
- The HIV/AIDS prevalence rate stands at 25.2% against a target of 23.80% as reported during the previous financial year.
- Of the targeted five local municipalities, only three have licensed landfill sites. Greater Letaba and Greater Giyani Municipalities dumping sites are still in the process of development. A service provider has been appointed and on site.
- g) Director: Office of the Executive Mayor

This section of the SDBIP received a final score of 2.81 (94%) at the end of the financial year. The overall performance for the previous quarters could not be properly assessed, as no information was provided which resulted in scores of 1.00 being applied. A breakdown of programme performance by Key Performance Area (KPA) and objective is below:

Director: Office of		Sep	o 09			De	c 09			Ma	r 10			Jui	n 10

Table 13: Summary Performance – Director: Office of the Executive Mayor

Overall, 66.67% (4/6) of programmes reached target for this department. The highest programme score of 5.00 was achieved in Elders Development due to the performance of the Youth Month and Youth Council projects. Governance and Administration proved to be the biggest challenge due to the performance of the Anti-Corruption Forum project as no meetings took place.

Achievements:

The following KPIs and activities contributed to the overall performance levels achieved:

- All (100%) of media statements were submitted to the media houses within five days prior to an event taking place against the annual target of 60%. Ten statements were released in the fourth quarter.
- All (100%) of the Thusong Centers were utilised by the municipality for the dissemination of information in the district, against the expected 40% for the year.

- The Youth Month programme was implemented and a Youth Extravaganza was held in Greater Letaba Municipality.
- The quarterly Gender Forum meeting was held. Notification was sent out two weeks prior to the meeting taking place. The proceedings were recorded and actions were circulated within one week following the meeting.
- The quarterly District Disability Forum meeting was coordinated. Notice was given to the relevant stakeholders two weeks prior to the meeting taking place. The proceedings were recorded and the action plan was circulated.
- The quarterly Men's Forum meeting was coordinated. Notification was sent out two weeks prior to the meeting taking place. The proceedings were recorded and the action plans were circulated within one week following the meeting.
- The quarterly Council for the Aged meeting was coordinated. Notification was sent out two weeks prior to the meeting taking place. The proceedings were recorded and the action plans were circulated within one week following the meeting.
- The quarterly District Mayors Forum meeting was coordinated. Minutes were compiled and the progress of resolutions was monitored. Notification was sent out two weeks prior to the meeting taking place with the Agenda. Minutes were taken and distributed within one week following the meeting.
- Information was collected for the internal newsletter and it has been written. It will be distributed to all of the identified role players in the district electronically.
- The website was updated on a monthly basis.
- Three notices were received to be published in the media.
- All speeches were written for the Executive Mayors keynote addresses.

Challenges:

The following challenges were experienced:

- The quarterly Fraud and Anti-Corruption Forum meeting did not meet as planned. It was noted that the calendar will need to be adhered to in the future.
- The quarterly District Communicators Forum meeting did not take place. A meeting will be coordinated in the first quarter of the 2010/2011 financial year.
- The External newsletter was not published. Information has been collected and a service provider has been appointed for the design, layout and printing.
- The quarterly meeting for the House of Traditional Leaders did not take place. It was recommended that a Memorandum of Understanding (MOU) be signed between Mopani District Municipality and the House of Traditional Leaders.
- The Institutional Mainstreaming assessment was not conducted due to internal reengineering processes.
- The quarterly South African Women in Dialogue (SAWID) meeting did not take place due to transport problems experienced by the participants. It was recommended that the municipality should develop a transport policy that addresses the travelling needs of stakeholders.
- The quarterly Children's Rights Advisory Council meeting did not take place due to poor coordination.

2. Lower SDBIP Summary Performance

The Departmental SDBIP scorecard contains the performances of the Lower SDBIP and that of the Director. The following table provides a summary of the Top and Lower layer of the SDBIP combined per department.

Organisational Performance	Sep 09	Dec 09	Mar 10	Jun 10
(Lower SDBIP Departmental)	AVG	AVG	AVG	AVG
Overall	2.44	2.70	2.82	3.21
Office of the Municipal Manager	2.98	2.86	3.29	2.89
Director: Office of the Executive Mayor	1.00	1.00	1.00	3.14
Budget & Treasury	2.57	2.59	2.66	2.97
Technical Services	3.30	3.50	3.61	3.09
Planning and Development	1.97	2.72	2.62	3.60
Corporate Services	2.37	2.89	2.95	3.23
Community Services	2.87	3.32	3.62	3.53

Table 14: Overall Departmental (LSDBIP) Performance

An increase in performance has been achieved each quarter over the previous quarter's results except for the final quarter. The Planning and Development Department has seen the biggest increase year to date and achieved the highest score for the third quarter. The office of the Executive Mayor only participated from the fourth quarter.

The summary of the Departmental SDBIP performance that consists of the average scores of the Top level SDBIP as well as the Lower level SDBIP can be found in Addendum B of the separate Addendums document.

3. Expenditure

The information regarding expenditure on projects per Vote was not available at time of printing.

Table 15: Project Expenditure

4. SDBIP Components

Circular 13 makes it clear that there are five components to be reported on for the SDBIP:

- 1. Monthly projections of revenue to be collected for each source
- 2. Monthly projections of expenditure (operating and capital) and revenue for each vote
- 3. Quarterly projections of service delivery targets and performance indicators for each vote
- 4. Ward information for expenditure and service delivery
- 5. Detailed capital works plan broken down by ward over three years

3. Component 3: Quarterly projections of service delivery targets and performance indicators for each vote

All detailed information pertaining to service delivery targets can be found in Addendum A.

4. Component 4: Ward information for expenditure and service delivery

Not applicable to the District Municipality

Page 53 of 54

VI. Limitations of Evaluation

- 1. The analysis was based on information received until 31 August 2010. Where no information was supplied, a 1.00 score was attached.
- 2. The automated system designed for MDM's PMS requirements have been used to capture and calculate scores. As this system is in its first year of use by MDM, users might have supplied information in the wrong format or incorrect fields that will influence scores.
