Description	Original Budget	Special Adjustment Budget 30 September 2020	September 2020 Billing	YTD Billing	% YTD Billing	% YTD Target
Water	190 311 837	190 311 837	2 165 773.20	25 085 184 .29	15.95	100

TOTALS	226 429 876	226 429 876	2 726 186.76	26 795 872.25	11.83	100

The total billing for both water and sewer is above the total budget respectively. This was due the following factors:

- Estimated billing amounts used on the account that were not accessible for meter readers.

The district, together with local municipalities have put the following measures in place to correct the situation going forward:

- Appointment of administrators to be placed at the local municipalities to work close with transactions,
- Implementation of a project for separation of water and sanitation transactions in the Local Municipalities.

Note: That this is only accounting treatment to the District as a water service authority, the local municipalities are not transferring money collected from consumers.

The total collection for both water and sewer is at 6.63% for the first quarter. This was due the following factors:

- Low collection of revenue.
- Non-payment of accounts by consumers in townships within the district.
- Non-implementation of credit and debt control policy.
- Non-implementation of water services provider agreements with local municipalities.

The district, together with local municipalities have put the following measures in place to correct the situation going forward:

- Implementation of a project for separation of water and sanitation transactions in the Local Municipalities.
