1. Definitions

1. The following terms shall be interpreted as indicated:

- 1.1 “Acceptable bid” means any bid, which, in all respects, complies with the specifications and conditions of the bid as set out in the bid document.
- 1.2 “Bid” means a written offer in a prescribed or stipulated form in response to an invitation by an organ of State for the provision of goods, works or services.
- 1.3 “Black enterprise” means an enterprise that is 50,1% owned by black persons and where there is substantial management control. Ownership refers to economic interest while management refers to the membership of any board or similar governing body of the enterprise.
- 1.4 “Black empowered enterprise” means an enterprise that is at least 25,1% owned by black persons and where there is substantial management control. Ownership refers to economic interests. Management refers to executive directors. This is whether the black enterprise has control or not.
- 1.5 “Black people” includes all African, Coloured or Indian persons who are South African citizens by birth or by descent or who were naturalised prior to the commencement of the constitution in 1993. In addition, the term also includes black people who became South African citizens after the constitution’s commencement but who would have been able to be naturalised prior to this, were it not for the Apartheid laws which prohibited naturalisation of certain persons. This means that an African, Coloured or Indian person who was not a South African citizen before the commencement of the constitution in 1993 but who would have been entitled to apply to be naturalised prior to 1993, will also be considered a black person and therefore a beneficiary of BEE.
- 1.6 “Black woman-owned enterprise” means an enterprise with at least 25,1% representation of black women within the black equity and management portion.
- 1.7 “Closing time” means the date and hour specified in the bidding documents for the receipt of bids.
- 1.8 “Comparative price” means the price after the factors of a non-firm price and all unconditional discounts that can be utilised have been taken into consideration.
- 1.9 “Community or broad-based enterprise” means an enterprise that has an empowerment shareholder who represents a broad base of members such as a local community or where the benefits support a target group, for example black women, people living with disabilities, the youth and workers. Shares are held via direct equity, non-profit organisations and trusts.

Benefits from the shareholding should in a measurable sense be directed towards the uplifting of the community through job creation, welfare, skills development, entrepreneurship and human rights. At the same time, directors and management of groups should significantly comprise black persons.

These arrangements are appropriate in situations where the activities or operations of an enterprise or industry directly impact on a community or are located in a community, or may benefit a community. Notable examples are large industrial projects, mining and tourism. Other instances, which do assist in broadening the shareholder base, are employee share ownership schemes; these are a viable empowerment shareholder option. In this and other circumstances, these arrangements should not detract from the ability of the shareholder to exercise significant influence or control over the operations of the business.

- 1.10 “Consortium or joint venture” means an association of persons for the purpose of combining their expertise, property, capital, efforts, skills and knowledge in an activity for the execution of a contract.

- 1.11 “Contract” means the written agreement entered into between the purchaser and the supplier, as recorded in the contract form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
- 1.12 “Contract price” means the price payable to the supplier under the contract for the full and proper performance of his contractual obligations.
- 1.13 “Control” means the possession and exercise of legal authority and power to manage the assets, goodwill and daily operations of a business and the active and continuous exercise of appropriate managerial authority and power in determining the policies and directing the operations of the business.
- 1.14 “Co-operative or collective enterprise” is an autonomous association of persons who voluntarily join together to meet their economic, social and cultural needs and aspirations through the formation of a jointly-owned enterprise and democratically controlled enterprise.
- 1.15 “Corrupt practice” means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.
- 1.16 "Countervailing duties" are imposed in cases where an enterprise abroad is subsidized by its government and encouraged to market its products internationally.
- 1.17 “Country of origin” means the place where the goods were mined, grown or produced or from which the services are supplied. Goods are produced when, through manufacturing, processing or substantial and major assembly of components, a commercially recognized new product results that is substantially different in basic characteristics or in purpose or utility from its components.
- 1.18 “Day” means calendar day.
- 1.19 “Delivery” means delivery in compliance with the conditions of the contract or order.
- 1.20 “Delivery ex stock” means immediate delivery directly from stock actually on hand.
- 1.21 “Delivery into consignees store or to his site” means delivered and unloaded in the specified store or depot or on the specified site in compliance with the conditions of the contract or order, the supplier bearing all risks and charges involved until the supplies are so delivered and a valid receipt is obtained.
- 1.22 “Disability” means, in respect of a person, a permanent impairment of a physical, intellectual, or sensory function, which results in restricted, or lack of, ability to perform an activity in the manner, or within the range, considered normal for a human being.

1. INTRODUCTION AND BACKGROUND

The Mopani District Municipality (MDM) Local Economic Development (LED) Strategy was last reviewed in 2013 and approved in 2016 by the Council of MDM. The reviewed Local Economic Development Strategy should help to guide Mopani District Municipality's efforts in supporting local economic development from 2019 to 2039. It is envisaged that the Strategy includes a vision for the local economy and identifies initiatives that will help achieve the vision by working with local businesses, investors, the community and other levels of government in developing the local economy. The plan should be developed through a process of extensive research and consultation especially with stakeholders/ role-players which are contributing to the four key sectors of the Mopani District economy.

Current LED Strategy,

This strategy builds on the 2006 LED strategy and further sharpens the focus on the most critical issues constraining shared local economic growth, employment creation and where potential exists to improve. The previous LED Strategy identified seven thrusts in pursuance of the development of the local economy and they are, namely:

- Thrust 1: Economic Infrastructure Support
- Thrust 2: Local Business and Support Networking
- Thrust 3: Economic Sector diversification
- Thrust 4: Rural economic base development & human empowerment
- Thrust 5: Promotion of primary sector local value adding activities
- Thrust 6: Tourism development and promotion
- Thrust 7: Institutional Capacitation

These thrusts were supported by various programmes and projects. The projects that were identified were aimed at economic development in the District. A number of these projects needed to be facilitated by the

District and Local Municipalities before they could be implemented. Priority and anchor projects were identified based on job creation, skills development, community involvement, SMME development and overall economic impact on District level.

Each Municipality has unique local conditions which can help or hinder its economic development. These local attributes should form the basis for designing and implementing the EGDP.

The reviewed strategy should be critical to all the projects that were identified in the previous strategy and guide the new dispensation. As for the strategic thrusts and programmes in the current strategy, these have to be modified to reflect the current challenges, achievements and pitch the District Municipality in a position that will enable the district to tap into opportunities that are driven by the current outlook on economic development initiatives by Government which include and address, among other things; youth unemployment, digital industrial revolution, incubation of SMMES, destination marketing and tourism markets, access to markets, re – industrialization.

2. PURPOSE

The purpose of this document is to set out the Terms of Reference (ToR) on which service providers should base their project proposals for the preparation of the Review of LED Strategy for the Mopani District Municipality and to develop a 20-year Economic Growth and Development Plan (EGDP). The EGDP should cover a 20-year period (2019-2039) for the purpose of long term economic planning.

The EGDP is primarily a working tool to enable and facilitate sustainable and desirable growth for the long term benefit of the Mopani District Municipality citizens, businesses and institutions. The plan will be directed at building an internationally competitive District Municipality. It will recognize and reflect the uniqueness of the municipality and the key sectors (Tourism, Agriculture, Trade & Manufacturing and Mining) which should be protected and enhanced as the municipality grows.

The strategy should identify specific activities for which Mopani can take the lead and for others to potentially have a key role in through partnership. For this 20 year EGDP to be successful, a shared understanding and commitment is needed from all stakeholders and role –players. This is critical for Mopani’s local economic development challenges to be met and the opportunities to be realized. As an integrated approach, EGDP aims at tackling a broad range of challenges including:

- i. To conduct a thorough economic survey of the existing economic activities of Mopani District Municipality including the local municipalities:
- ii. To confirm the different sectors of the local economy,
- iii. To identify measures/interventions which stimulate growth in the local economic base
- iv. To identify measures/interventions which enhance the diversification of the economy and
- v. To determine SMME support interventions to leverage opportunities across all economic sectors
- vi. To conduct identification of catalytic/anchor projects
- vii. Ensuring that development opportunities have definite geographic and spatial orientation
- viii. Ensuring alignment with other municipal policies and strategies e.g. IDPs
- ix. Translating the available resource base of Mopani District Municipality into investment, jobs and economic empowerment opportunities.
- x. Developing a geographically focused investment initiative of a medium to long term nature to facilitate sustainable job-creation through public and private sector LED investment.

3. Project Scope

The primary objective of the Economic Growth and Development Plan is to present the District Municipality's understanding of the longer term strategic direction it should take, and the future efforts, needed to accelerate economic growth and enhance development in a way that both benefits all residents of Mopani District Municipality and contributes to the further transformation of both Limpopo province and South Africa as a whole. The plan will:

- Set out an agreed vision and outcomes for the municipality reflecting the differing values and attributes of the municipality's communities based on community outcomes.

MBD 9 CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. Take all reasonable steps to prevent such abuse;
 - b. Reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. Cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
